Terms of Reference for the Peer Review of the Harrisson's Dogfish Status Review Report

Status Review of Harrisson's Dogfish (*Centrophorus harrissoni*)

Evaluate the adequacy, appropriateness and application of data used in the Status Review document.

1. In general, does the Status Review include and cite the best scientific and commercial information available on the species, its biology, stock structure, habitats, threats, and risks of extinction?
2. Are the scientific conclusions factually supported, sound, and logical?
3. Where available, are opposing scientific studies or theories acknowledged and discussed?
4. Are the results and conclusions of the Extinction Risk Analysis supported by the information presented?
5. Are uncertainties assessed and clearly stated?

All information associated with the Status Review Report is to remain strictly confidential until the Status Review Report is posted to the NMFS/PR website and/or the Federal Register by NMFS.
