

NOTICE OF OFFICE OF MANAGEMENT AND BUDGET ACTION

Madeleine Clayton 08/30/2002  
Departmental Forms Clearance Officer  
Office of the Chief Information Officer  
14th and Constitution Ave. NW.  
Room 6086  
Washington, DC 20230

In accordance with the Paperwork Reduction Act, OMB has taken the following action on your request for approval of the reinstatement of an information collection received on 06/24/2002.

TITLE: Scientific Research, Exempted Fishing, and Exempted Activity Submissions

AGENCY FORM NUMBER(S): None

ACTION : APPROVED WITHOUT CHANGE

OMB NO.: 0648-0309

EXPIRATION DATE: 08/31/2005

BURDEN:	RESPONSES	HOURS	COSTS(\$,000)
Previous	0	0	0
New	170	695	0
Difference	170	695	0
Program Change		695	0
Adjustment		0	0

TERMS OF CLEARANCE: None

## 19. Certification for Paperwork Reduction Act Submissions

On behalf of this Federal Agency, I certify that the collection of information encompassed by this request complies with 5 CFR 1320.9

**NOTE:** The text of 5 CFR 1320.9, and the related provisions of 5 CFR 1320.8(b)(3), appear at the end of the instructions. *The certification is to be made with reference to those regulatory provisions as set forth in the instructions.*

The following is a summary of the topics, regarding the proposed collection of information, that the certification covers:

- (a) It is necessary for the proper performance of agency functions;
- (b) It avoids unnecessary duplication;
- (c) It reduces burden on small entities;
- (d) It used plain, coherent, and unambiguous terminology that is understandable to respondents;
- (e) Its implementation will be consistent and compatible with current reporting and recordkeeping practices;
- (f) It indicates the retention period for recordkeeping requirements;
- (g) It informs respondents of the information called for under 5 CFR 1320.8(b)(3):
  - (i) Why the information is being collected;
  - (ii) Use of information;
  - (iii) Burden estimate;
  - (iv) Nature of response (voluntary, required for a benefit, mandatory);
  - (v) Nature and extent of confidentiality; and
  - (vi) Need to display currently valid OMB control number;
- (h) It was developed by an office that has planned and allocated resources for the efficient and effective management and use of the information to be collected (see note in Item 19 of instructions);
- (i) It uses effective and efficient statistical survey methodology; and
- (j) It makes appropriate use of information technology.

If you are unable to certify compliance with any of the provisions, identify the item below and explain the reason in Item 18 of the Supporting Statement.

**SUPPORTING STATEMENT  
SCIENTIFIC RESEARCH ACTIVITY, EXEMPTED FISHING, AND EXEMPTED  
EDUCATIONAL ACTIVITIES  
OMB CONTROL NO. 0648-0309**

**A. JUSTIFICATION**

**1. Explain the circumstances that make the collection of information necessary.**

a. Scientific research plan. The Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.)(MSA) authorizes the Secretary of Commerce to conserve and manage fishery resources in the exclusive economic zone (EEZ) by regulating "fishing." Section 3(10) of the MSA, 16 U.S.C. 1802(10)(Attached), defines "fishing" as the catching, taking, or harvesting of fish; the attempted catching, taking, or harvesting of fish; any other activity that can reasonably be expected to result in the catching, taking, or harvesting of fish; or any other operations at sea in support of, or in preparation for, any of the aforementioned activities. "Fish" includes finfish, mollusks, crustaceans, and all other forms of marine life other than marine mammals and birds.

Excluded expressly from the definition of fishing, and therefore from the Magnuson Act's purview, is "scientific research activity which is conducted by a scientific research vessel." The MSA does not, however, define "scientific research activity" or "scientific research vessel." NMFS defined "scientific research activity" and "scientific research vessel" to reduce the potential for abuse by using the exemption to obtain marketable fish outside of established fishing seasons or areas, or to otherwise avoid applicable regulations. Researchers following the recommendations of the regulations for scientific research vessels may also avoid occasional confusion and delay caused when a research vessel conducting unannounced research in the EEZ is boarded by enforcement officers to determine whether the vessel is fishing illegally. The determination of an activity as scientific research requires an acceptable standard of reference for researchers and regulators. An accepted convention of any bona fide scientific research project is the advance preparation of a written research plan that guides the conduct of the research. NMFS requests the voluntary submission of a scientific research plan, which is acknowledged by a letter of acknowledgment from the appropriate NMFS official, to establish a basis for a presumption that an activity in the EEZ is scientific research, and unregulated, as opposed to regulated fishing. Enforcement officers may verify activities outside the research plan or by a vessel without a letter of acknowledgment on site with possible disruption of research.

b. Exempted fishing and exempted educational activities. Section 301 of the MSA, 16 U.S.C. 1851(a), sets out national standards for fishery management plans and regulations. Standard one requires that "Conservation and management measures shall prevent overfishing while achieving, on a continuing basis, the optimum yield from each fishery..." To comply with this standard and effectively manage a fishery, NMFS needs to know the amount and species of fish caught, where caught, and the catch disposition. Exempted fishing, by definition, is fishing outside of the standard regulations. To control this fishing and determine the extent of this

fishing, NMFS needs information to determine the justification of granting an exempted fishing permit, and documentation of catches landed as a result of granting the permit. These regulations supplement existing information collections required by the various fishery management plans by establishing minimum standards for these activities. The regulations dealing with specific fisheries may impose additional requirements.

**2. Explain how, by whom, how frequently, and for what purpose the information will be used.**

a. Scientific Research Plan. NMFS Regions, Fishery Science Centers, and NMFS and Coast Guard enforcement use information obtained from voluntarily submitted research plans and subsequent reports in monitoring such activities to ensure they are bona fide scientific research activities. NMFS reviews each scientific research plan submitted to establish that the sponsoring organization and personnel involved are recognized scientific investigators, that the specific project contemplated appears to be scientific research and not fishing, and that the vessel or vessels to be used are or will be used exclusively for research for the duration of the scientific research cruise. NMFS uses any reports or articles voluntarily submitted to document catch taken in scientific research for inclusion in the total catch, confirm the activities conducted were scientific research, and consider the appropriateness of acknowledging future requests.

b. Exempted fishing and exempted educational activities. NMFS Regions, Fishery Science Centers, and NMFS and Coast Guard enforcement use exempted fishing permit requests and exempted educational activity authorizations and their reports to evaluate proposals for issuance of permits, ensure activities are carried out as described in the permit, and document the catch by exempted fishing for inclusion in the total catch. NMFS evaluates exempted fishing permit requests to determine their usefulness to the overall goals of the applicable fishery management plans; determine their impact on the fishery stocks, endangered species, and marine mammals; and evaluate them comparatively with other applicants for the same fishery. Management and enforcement use the information to identify the entities and vessels involved and ensure the applicant carries out activities within the restraints of the permit. Management and enforcement would use reports to document catch taken for inclusion in the total catch, confirm the activities conducted were in accordance with the permit, and consider the permittee for future permits. NMFS evaluates exempted educational activity authorization requests to determine whether they are complete, confirm their educational value, and determine their consistency with the goals, objectives, and requirements of the applicable fishery management plans. Management and enforcement use the information to identify the entities and vessels involved and ensure the applicant carries out activities within the restraints of the permit. Management and enforcement use reports to document catch taken for inclusion in the total catch, to confirm the activities conducted were in accordance with the permit, and for consideration of future requests.

**3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological techniques or other forms of information technology.**

This collection involves no use of forms, but copies of the relevant regulations with the application requirements can be found on the Internet. The HMS portion of this collection may involve the use of automated, electronic, mechanical, or other technological techniques as the applications, information cards, and reports may either be mailed, faxed or called in to the HMS Division, as applicable. These and other HMS regulations will be available on the HMS Website at [www.usatuna.com](http://www.usatuna.com).

**4. Describe efforts to identify duplication.**

To the extent that scientific research organizations are required to submit scientific research plans to NOAA, NMFS, or other agencies as a part of any contract or grant, those same plans would be acceptable for the purposes of this information collection. Copies of any scientific cruise report or research documentation required to be submitted by a scientific research organization would be acceptable as a voluntary report for the purposes of this collection. The requirements for an exempted fishing permit or an exempted educational activities authorization would eventually either supplement or supersede present regulations as fishery regulations are amended to refer to these rules.

**5. If the collection of information involves small businesses or other small entities, describe the methods used to minimize burden.**

Although many respondents are categorized as small businesses or entities, this collection does not have a significant impact on them.

**6. Describe the consequences to the Federal program or policy activities if the collection is not conducted or is conducted less frequently.**

If the information requested in the scientific research plan is not obtained, enforcement of violations of the Magnuson Act where the violator asserts he/she was conducting scientific research and not fishing will continue to be difficult to prove. Legitimate researchers will continue to be inconvenienced and enforcement units will continue to conduct needless and inappropriate boardings of scientific research vessels whose activities are confused with fishing. If the information requested by exempted fishing and exempted educational activity permits is not obtained, there will be no standard way of dealing with these activities from Region to Region, there will be more incidents of persons who think they are conducting scientific research being found in violation of the Magnuson Act or the ATCA, and the catches of some activities taking large amounts of fish currently considered scientific research may go unrecorded, possibly contributing to overfishing.

**7. Explain any special circumstances that require the collection to be conducted in a manner inconsistent with OMB guidelines.**

There are no special circumstances involved with this action.

**8. Provide a copy of the PRA Federal Register notice that solicited public comments on the information collection prior to this submission. Summarize the public comments received in response to that notice and describe the actions taken by the agency in response to those comments. Describe the efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instructions and recordkeeping, disclosure, or reporting format (if any), and on the data elements to be recorded, disclosed, or reported.**

Public comment was solicited in a Federal Register Notice (copy attached). No comments were received.

**9. Explain any decisions to provide payments or gifts to respondents, other than remuneration of contractors or grantees.**

Payments or gifts do not apply to this rule.

**10. Describe any assurance of confidentiality provided to respondents and the basis for assurance in statute, regulation, or agency policy.**

It is Agency policy not to release confidential data, other than in aggregate form, as the Magnuson-Stevens Fisheries Conservation and Management Act (Section 402) protects (in perpetuity) the confidentiality of those submitting data (see NOAA Administrative Order 216-100, Confidentiality of Fishery Statistics). Whenever data are requested, the Agency ensures that information identifying the pecuniary business activity of a particular vessel operator is not identified.

**11. Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.**

No sensitive questions are asked.

**12. Provide an estimate in hours of the burden of the collection of information.**

NMFS surveyed all Regions and Fisheries Science Centers for the annual number of scientific research letters of acknowledgment, exempted (experimental) fishing, and exempted educational activity authorization requests they processed. The results of this survey were used to estimate the burden hours of this information collection request.

<b>Requirement</b>	<b># of Respondents</b>	<b>Frequency of Response</b>	<b>Total Responses</b>	<b>Avg. Hrs. per Response</b>	<b>Total Annual Burden</b>
Scientific Research Plans	100	1	100	6.000	600.0
EFP Requests	30	1	30	1.000	30.0
EFP Reports	30	1	30	2.000	60.0
Exempted Educational Requests	5	1	5	0.500	2.5
Exempted Educational Reports	5	1	5	0.500	2.5
<b>TOTALS</b>	<b>170*</b>		<b>170</b>		<b>695.0</b>

\*Total is not a sum of all respondents in column, since the same respondents appear multiple times (applications and types of reports).

Estimate of annualized cost to respondents:  
\$21.29/hr. (GS-12 equivalent) X 695 hrs. = \$14,796.55

**13. Provide an estimate of the total annual cost burden to the respondents or record-keepers resulting from the collection.**

The costs for postage, envelopes, and copying are estimated at \$217.60, based on the following: (stamps (2@\$.34) + envelopes (1@\$.10) + copying (10pages@.05) ) \* 170 applications = \$217.60

**14. Provide estimates of annualized cost to the Federal government.**

The estimated Federal cost is \$5,266.60, based on the following: (\$21.29/hr. (GS-12 equivalent) for review x 1hr./application) + (\$9.69/hr. (GS-5 equivalent) for letter/permit preparation & filing x 1hr./application) x 170 applications and reports = \$5,266.60.

**15. Explain the reasons for any program changes or adjustments reported in Items 13 or 14 of the OMB 83-I.**

This is a program change resulting from the reinstatement of a collection whose approval has expired.

**16. For collections whose results will be published, outline the plans for tabulation and publication.**

The results of this collection will not be published.

**17. If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons why display would be inappropriate.**

There is no request for exemption from display of the OMB approval of the information collection.

**18. Explain each exception to the certification statement identified in Item 19 of the OMB 83-I.**

There are no exceptions to the Certification Statement.

**B. COLLECTIONS OF INFORMATION EMPLOYING STATISTICAL METHODS**

This collection does not employ statistical methods.

## Fishery Conservation and Management

## § 600.745

by an enforcement unit when conditions do not allow communications by loudhailer or radiotelephone. Knowledge of these signals by vessel operators is not required. However, knowledge of these signals and appropriate action by a vessel operator may preclude the necessity of sending the signal "L" and the necessity for the vessel to stop instantly. (Period (.) means a short flash of light; dash (-) means a long flash of light.)

(1) "AA" repeated (.-.-) is the call to an unknown station. The operator of the signaled vessel should respond by identifying the vessel by radiotelephone or by illuminating the vessel's identification.

(2) "RY-CY" (.-.-.-.-) means "you should proceed at slow speed, a boat is coming to you." This signal is normally employed when conditions allow an enforcement boarding without the necessity of the vessel being boarded coming to a complete stop, or, in some cases, without retrieval of fishing gear which may be in the water.

(3) "SQ3" (...-.-...) means "you should stop or heave to; I am going to board you."

[61 FR 32540, June 24, 1996, as amended at 61 FR 37225, July 17, 1996; 63 FR 7075, Feb. 12, 1998]

### § 600.735 Penalties.

Any person committing, or fishing vessel used in the commission of a violation of the Magnuson-Stevens Act or any other statute administered by NOAA and/or any regulation issued under the Magnuson-Stevens Act, is subject to the civil and criminal penalty provisions and civil forfeiture provisions of the Magnuson-Stevens Act, to this section, to 15 CFR part 904 (Civil Procedures), and to other applicable law.

[61 FR 32540, June 24, 1996, as amended at 63 FR 7075, Feb. 12, 1998]

### § 600.740 Enforcement policy.

(a) The Magnuson-Stevens Act provides four basic enforcement remedies for violations, in ascending order of severity, as follows:

(1) Issuance of a citation (a type of warning), usually at the scene of the offense (see 15 CFR part 904, subpart E).

(2) Assessment by the Administrator of a civil money penalty.

(3) For certain violations, judicial forfeiture action against the vessel and its catch.

(4) Criminal prosecution of the owner or operator for some offenses. It shall be the policy of NMFS to enforce vigorously and equitably the provisions of the Magnuson-Stevens Act by utilizing that form or combination of authorized remedies best suited in a particular case to this end.

(b) Processing a case under one remedial form usually means that other remedies are inappropriate in that case. However, further investigation or later review may indicate the case to be either more or less serious than initially considered, or may otherwise reveal that the penalty first pursued is inadequate to serve the purposes of the Magnuson-Stevens Act. Under such circumstances, the Agency may pursue other remedies either in lieu of or in addition to the action originally taken. Forfeiture of the illegal catch does not fall within this general rule and is considered in most cases as only the initial step in remedying a violation by removing the ill-gotten gains of the offense.

(c) If a fishing vessel for which a permit has been issued under the Magnuson-Stevens Act is used in the commission of an offense prohibited by section 307 of the Magnuson-Stevens Act, NOAA may impose permit sanctions, whether or not civil or criminal action has been undertaken against the vessel or its owner or operator. In some cases, the Magnuson-Stevens Act requires permit sanctions following the assessment of a civil penalty or the imposition of a criminal fine. In sum, the Magnuson-Stevens Act treats sanctions against the fishing vessel permit to be the carrying out of a purpose separate from that accomplished by civil and criminal penalties against the vessel or its owner or operator.

[61 FR 32540, June 24, 1996, as amended at 63 FR 7075, Feb. 12, 1998]

### § 600.745 Scientific research activity, exempted fishing, and exempted educational activity.

(a) *Scientific research activity.* Nothing in this section is intended to inhibit or

prevent any scientific research activity conducted by a scientific research vessel. Persons planning to conduct scientific research activities in the EEZ are encouraged to submit to the appropriate Regional Administrator, Director, or designee, 60 days or as soon as practicable prior to its start, a scientific research plan for each scientific cruise. The Regional Administrator, Director, or designee will acknowledge notification of scientific research activity by issuing to the operator or master of that vessel, or to the sponsoring institution, a letter of acknowledgment. This letter of acknowledgment is separate and distinct from any permit required by any other applicable law. If the Regional Administrator, Director, or designee, after review of a research plan, determines that it does not constitute scientific research but rather fishing, the Regional Administrator, Director, or designee will inform the applicant as soon as practicable and in writing. The Regional Administrator, Director, or designee may also make recommendations to revise the research plan to make the cruise acceptable as scientific research activity or recommend the applicant request an EFP. In order to facilitate identification of activity as scientific research, persons conducting scientific research activities are advised to carry a copy of the scientific research plan and the letter of acknowledgment on board the scientific research vessel. Activities conducted in accordance with a scientific research plan acknowledged by such a letter are presumed to be scientific research activity. The presumption may be overcome by showing that an activity does not fit the definition of scientific research activity or is outside the scope of the scientific research plan.

(b) *Exempted fishing.*—(1) *General.* A NMFS Regional Administrator or Director may authorize, for limited testing, public display, data collection, exploratory, health and safety, environmental cleanup, and/or hazard removal purposes, the target or incidental harvest of species managed under an FMP or fishery regulations that would otherwise be prohibited. Exempted fishing may not be conducted unless authorized by an EFP issued by a Regional

Administrator or Director in accordance with the criteria and procedures specified in this section. The Regional Administrator or Director may charge a fee to recover the administrative expenses of issuing an EFP. The amount of the fee will be calculated, at least annually, in accordance with procedures of the NOAA Handbook for determining administrative costs of each special product or service; the fee may not exceed such costs. Persons may contact the appropriate Regional Administrator or Director to find out the applicable fee.

(2) *Application.* An applicant for an EFP shall submit a completed application package to the appropriate Regional Administrator or Director, as soon as practicable and at least 60 days before the desired effective date of the EFP. Submission of an EFP application less than 60 days before the desired effective date of the EFP may result in a delayed effective date because of review requirements. The application package must include payment of any required fee as specified by paragraph (b)(1) of this section, and a written application that includes, but is not limited to, the following information:

- (i) The date of the application.
- (ii) The applicant's name, mailing address, and telephone number.
- (iii) A statement of the purposes and goals of the exempted fishery for which an EFP is needed, including justification for issuance of the EFP.
- (iv) For each vessel to be covered by the EFP, as soon as the information is available and before operations begin under the EFP:
  - (A) A copy of the USCG documentation, state license, or registration of each vessel, or the information contained on the appropriate document.
  - (B) The current name, address, and telephone number of the owner and master, if not included on the document provided for the vessel.
  - (v) The species (target and incidental) expected to be harvested under the EFP, the amount(s) of such harvest necessary to conduct the exempted fishing, the arrangements for disposition of all regulated species harvested under the EFP, and any anticipated

## Fishery Conservation and Management

## § 600.745

impacts on marine mammals or endangered species.

(vi) For each vessel covered by the EFP, the approximate time(s) and place(s) fishing will take place, and the type, size, and amount of gear to be used.

(vii) The signature of the applicant.

(viii) The Regional Administrator or Director, as appropriate, may request from an applicant additional information necessary to make the determinations required under this section. An incomplete application or an application for which the appropriate fee has not been paid will not be considered until corrected in writing and the fee paid. An applicant for an EFP need not be the owner or operator of the vessel(s) for which the EFP is requested.

(3) *Issuance.* (i) The Regional Administrator or Director, as appropriate, will review each application and will make a preliminary determination whether the application contains all of the required information and constitutes an activity appropriate for further consideration. If the Regional Administrator or Director finds that any application does not warrant further consideration, both the applicant and the affected Council(s) will be notified in writing of the reasons for the decision. If the Regional Administrator or Director determines that any application warrants further consideration, notification of receipt of the application will be published in the FEDERAL REGISTER with a brief description of the proposal, and the intent of NMFS to issue an EFP. Interested persons will be given a 15- to 45-day opportunity to comment and/or comments will be requested during public testimony at a Council meeting. The notification may establish a cut-off date for receipt of additional applications to participate in the same, or a similar, exempted fishing activity. The Regional Administrator or Director also will forward copies of the application to the Council(s), the USCG, and the appropriate fishery management agencies of affected states, accompanied by the following information:

(A) The effect of the proposed EFP on the target and incidental species, including the effect on any TAC.

(B) A citation of the regulation or regulations that, without the EFP, would prohibit the proposed activity.

(C) Biological information relevant to the proposal, including appropriate statements of environmental impacts, including impacts on marine mammals and threatened or endangered species.

(ii) If the application is complete and warrants additional consultation, the Regional Administrator or Director may consult with the appropriate Council(s) concerning the permit application during the period in which comments have been requested. The Council(s) or the Administrator or Regional Administrator shall notify the applicant in advance of any meeting at which the application will be considered, and offer the applicant the opportunity to appear in support of the application.

(iii) As soon as practicable after receiving responses from the agencies identified in paragraph (b)(3)(i) of this section, and/or after the consultation, if any, described in paragraph (b)(3)(ii) of this section, the Regional Administrator or Director shall notify the applicant in writing of the decision to grant or deny the EFP, and, if denied, the reasons for the denial. Grounds for denial of an EFP include, but are not limited to, the following:

(A) The applicant has failed to disclose material information required, or has made false statements as to any material fact, in connection with his or her application; or

(B) According to the best scientific information available, the harvest to be conducted under the permit would detrimentally affect the well-being of the stock of any regulated species of fish, marine mammal, or threatened or endangered species in a significant way; or

(C) Issuance of the EFP would have economic allocation as its sole purpose; or

(D) Activities to be conducted under the EFP would be inconsistent with the intent of this section, the management objectives of the FMP, or other applicable law; or

(E) The applicant has failed to demonstrate a valid justification for the permit; or

(F) The activity proposed under the EFP could create a significant enforcement problem.

(iv) The decision of a Regional Administrator or Director to grant or deny an EFP is the final action of NMFS. If the permit, as granted, is significantly different from the original application, or is denied, NMFS may publish notification in the FEDERAL REGISTER describing the exempted fishing to be conducted under the EFP or the reasons for denial.

(v) The Regional Administrator or Director may attach terms and conditions to the EFP consistent with the purpose of the exempted fishing, including, but not limited to:

(A) The maximum amount of each regulated species that can be harvested and landed during the term of the EFP, including trip limitations, where appropriate.

(B) The number, size(s), name(s), and identification number(s) of the vessel(s) authorized to conduct fishing activities under the EFP.

(C) The time(s) and place(s) where exempted fishing may be conducted.

(D) The type, size, and amount of gear that may be used by each vessel operated under the EFP.

(E) The condition that observers, a vessel monitoring system, or other electronic equipment be carried on board vessels operated under an EFP, and any necessary conditions, such as predeployment notification requirements.

(F) Reasonable data reporting requirements.

(G) Other conditions as may be necessary to assure compliance with the purposes of the EFP, consistent with the objectives of the FMP and other applicable law.

(H) Provisions for public release of data obtained under the EFP that are consistent with NOAA confidentiality of statistics procedures at set out in subpart E. An applicant may be required to waive the right to confidentiality of information gathered while conducting exempted fishing as a condition of an EFP.

(4) *Duration.* Unless otherwise specified in the EFP or a superseding notice or regulation, an EFP is effective for no longer than 1 year, unless revoked,

suspended, or modified. EFPs may be renewed following the application procedures in this section.

(5) *Alteration.* Any permit that has been altered, erased, or mutilated is invalid.

(6) *Transfer.* EFPs issued under this section are not transferable or assignable. An EFP is valid only for the vessel(s) for which it is issued.

(7) *Inspection.* Any EFP issued under this section must be carried on board the vessel(s) for which it was issued. The EFP must be presented for inspection upon request of any authorized officer.

(8) *Sanctions.* Failure of a permittee to comply with the terms and conditions of an EFP may be grounds for revocation, suspension, or modification of the EFP with respect to all persons and vessels conducting activities under the EFP. Any action taken to revoke, suspend, or modify an EFP for enforcement purposes will be governed by 15 CFR part 904, subpart D.

(c) *Reports.* (1) Persons conducting scientific research activity are requested to submit a copy of any cruise report or other publication created as a result of the cruise, including the amount, composition, and disposition of their catch, to the appropriate Science and Research Director.

(2) Persons fishing under an EFP are required to report their catches to the appropriate Regional Administrator or Director, as specified in the EFP.

(d) *Exempted educational activities—(1) General.* A NMFS Regional Administrator or Director may authorize, for educational purposes, the target or incidental harvest of species managed under an FMP or fishery regulations that would otherwise be prohibited. The decision of a Regional Administrator or Director to grant or deny an exempted educational activity authorization is the final action of NMFS. Exempted educational activities may not be conducted unless authorized in writing by a Regional Administrator or Director in accordance with the criteria and procedures specified in this section. Such authorization will be issued without charge.

(2) *Application.* An applicant for an exempted educational activity authorization shall submit to the appropriate

## Fishery Conservation and Management

## § 600.745

Regional Administrator or Director, at least 15 days before the desired effective date of the authorization, a written application that includes, but is not limited to, the following information:

- (i) The date of the application.
  - (ii) The applicant's name, mailing address, and telephone number.
  - (iii) A brief statement of the purposes and goals of the exempted educational activity for which authorization is requested, including a general description of the arrangements for disposition of all species collected.
  - (iv) Evidence that the sponsoring institution is a valid educational institution, such as accreditation by a recognized national or international accreditation body.
  - (v) The scope and duration of the activity.
  - (vi) For each vessel to be covered by the authorization:
    - (A) A copy of the U.S. Coast Guard documentation, state license, or registration of the vessel, or the information contained on the appropriate document.
    - (B) The current name, address, and telephone number of the owner and master, if not included on the document provided for the vessel.
  - (vii) The species and amounts expected to be caught during the exempted educational activity.
  - (viii) For each vessel covered by the authorization, the approximate time(s) and place(s) fishing will take place, and the type, size, and amount of gear to be used.
  - (ix) The signature of the applicant.
  - (x) The Regional Administrator or Director may request from an applicant additional information necessary to make the determinations required under this section. An incomplete application will not be considered until corrected in writing.
- (3) *Issuance.* (i) The Regional Administrator or Director, as appropriate, will review each application and will make a determination whether the application contains all of the required information, is consistent with the goals, objectives, and requirements of the FMP or regulations and other applicable law, and constitutes a valid exempted educational activity. The ap-

plicant will be notified in writing of the decision within 5 working days of receipt of the application.

(ii) The Regional Administrator or Director may attach terms and conditions to the authorization, consistent with the purpose of the exempted educational activity, including, but not limited to:

(A) The maximum amount of each regulated species that may be harvested.

(B) The time(s) and place(s) where the exempted educational activity may be conducted.

(C) The type, size, and amount of gear that may be used by each vessel operated under the authorization.

(D) Reasonable data reporting requirements.

(E) Such other conditions as may be necessary to assure compliance with the purposes of the authorization, consistent with the objectives of the FMP or regulations.

(F) Provisions for public release of data obtained under the authorization, consistent with NOAA confidentiality of statistics procedures in subpart E. An applicant may be required to waive the right to confidentiality of information gathered while conducting exempted educational activities as a condition of the authorization.

(iii) The authorization will specify the scope of the authorized activity and will include, at a minimum, the duration, vessel(s), species and gear involved in the activity, as well as any additional terms and conditions specified under paragraph (d)(3)(ii) of this section.

(4) *Duration.* Unless otherwise specified, authorization for an exempted educational activity is effective for no longer than 1 year, unless revoked, suspended, or modified. Authorizations may be renewed following the application procedures in this section.

(5) *Alteration.* Any authorization that has been altered, erased, or mutilated is invalid.

(6) *Transfer.* Authorizations issued under this paragraph (d) are not transferable or assignable.

(7) *Inspection.* Any authorization issued under this paragraph (d) must be carried on board the vessel(s) for which it was issued or be in possession of the

§ 600.746

50 CFR Ch. VI (10-1-00 Edition)

applicant to which it was issued while the exempted educational activity is being conducted. The authorization must be presented for inspection upon request of any authorized officer. Activities that meet the definition of fishing, despite an educational purpose, are fishing. An authorization may allow covered fishing activities; however, fishing activities conducted outside the scope of an authorization for exempted educational activities are illegal.

[61 FR 32540, June 24, 1996, as amended at 63 FR 7075, Feb. 12, 1998]

§ 600.746 Observers.

(a) *Applicability.* This section applies to any fishing vessel required to carry an observer as part of a mandatory observer program or carrying an observer as part of a voluntary observer program under the Magnuson-Stevens Act, MMPA (16 U.S.C. 1361 *et seq.*), the ATCA (16 U.S.C. 971 *et seq.*), the South Pacific Tuna Act of 1988 (16 U.S.C. 973 *et seq.*), or any other U.S. law.

(b) *Observer requirement.* An observer is not required to board, or stay aboard, a vessel that is unsafe or inadequate as described in paragraph (c) of this section.

(c) *Inadequate or unsafe vessels.* (1) A vessel is inadequate or unsafe for purposes of carrying an observer and allowing operation of normal observer functions if it does not comply with the applicable regulations regarding observer accommodations (see 50 CFR parts 229, 285, 300, 600, 622, 648, 660, 678, and 679) or if it has not passed a USCG safety examination or inspection. A vessel that has passed a USCG safety examination or inspection must display one of the following:

(i) A current Commercial Fishing Vessel Safety Examination decal, issued within the last 2 years, that certifies compliance with regulations found in 33 CFR, chapter I and 46 CFR, chapter I;

(ii) A certificate of compliance issued pursuant to 46 CFR 28.710; or

(iii) A valid certificate of inspection pursuant to 46 U.S.C. 3311.

(2) Upon request by an observer, a NMFS employee, or a designated observer provider, a vessel owner/operator must provide correct information

concerning any item relating to any safety or accommodation requirement prescribed by law or regulation. A vessel owner or operator must also allow an observer, a NMFS employee, or a designated observer provider to visually examine any such item.

(3) *Pre-trip safety check.* Prior to each observed trip, the observer is encouraged to briefly walk through the vessel's major spaces to ensure that no obviously hazardous conditions exist. In addition, the observer is encouraged to spot check the following major items for compliance with applicable USCG regulations:

(i) Personal flotation devices/immersion suits;

(ii) Ring buoys;

(iii) Distress signals;

(iv) Fire extinguishing equipment;

(v) Emergency position indicating radio beacon (EPIRB), when required; and

(vi) Survival craft, when required.

(d) *Corrective measures.* If a vessel is inadequate or unsafe for purposes of carrying an observer and allowing operation of normal observer functions, NMFS may require the vessel owner or operator either to:

(1) Submit to and pass a USCG safety examination or inspection; or

(2) Correct the deficiency that is rendering the vessel inadequate or unsafe (e.g., if the vessel is missing one personal flotation device, the owner or operator could be required to obtain an additional one), before the vessel is boarded by the observer.

(e) *Timing.* The requirements of this section apply both at the time of the observer's boarding, at all times the observer is aboard, and at the time the observer is disembarking from the vessel.

(f) *Effect of inadequate or unsafe status.* A vessel that would otherwise be required to carry an observer, but is inadequate or unsafe for purposes of carrying an observer and for allowing operation of normal observer functions, is prohibited from fishing without observer coverage.

[63 FR 27217, May 18, 1998]

(B) minimize the mortality of bycatch which cannot be avoided;

(12) assess the type and amount of fish caught and released alive during recreational fishing under catch and release fishery management programs and the mortality of such fish, and include conservation and management measures that, to the extent practicable, minimize mortality and ensure the extended survival of such fish;

(13) include a description of the commercial, recreational, and charter fishing sectors which participate in the fishery and, to the extent practicable, quantify trends in landings of the managed fishery resource by the commercial, recreational, and charter fishing sectors; and

(14) to the extent that rebuilding plans or other conservation and management measures which reduce the overall harvest in a fishery are necessary, allocate any harvest restrictions or recovery benefits fairly and equitably among the commercial, recreational, and charter fishing sectors in the fishery.

97-453, 99-659, 101-627, 102-251, 104-297

**(b) DISCRETIONARY PROVISIONS.**--Any fishery management plan which is prepared by any Council, or by the Secretary, with respect to any fishery, may--

(1) require a permit to be obtained from, and fees to be paid to, the Secretary, with respect to--

(A) any fishing vessel of the United States fishing, or wishing to fish, in the exclusive economic zone [or special areas,]\* or for anadromous species or Continental Shelf fishery resources beyond such zone [or areas]\*;

(B) the operator of any such vessel; or

(C) any United States fish processor who first receives fish that are subject to the plan;

(2) designate zones where, and periods when, fishing shall be limited, or shall not be permitted, or shall be permitted only by specified types of fishing vessels or with specified types and quantities of fishing gear;

(3) establish specified limitations which are necessary and appropriate for the conservation and management of the fishery on the--

(A) catch of fish (based on area, species, size, number, weight, sex, bycatch, total biomass, or other factors);

(B) sale of fish caught during commercial, recreational, or charter fishing, consistent with any applicable Federal and State safety and quality requirements; and

(C) transshipment or transportation of fish or fish products under permits issued pursuant to section 204;

(4) prohibit, limit, condition, or require the use of specified types and quantities of fishing gear, fishing vessels, or equipment for such vessels, including devices which may be required to facilitate enforcement of the provisions of this Act;

(5) incorporate (consistent with the national standards, the other provisions of this Act, and any other applicable law) the relevant fishery conservation and management measures of the coastal States nearest to the fishery;

(6) establish a limited access system for the fishery in order to achieve optimum yield if, in developing such system, the Council and the Secretary take into account--

(A) present participation in the fishery,

(B) historical fishing practices in, and dependence on, the fishery,

(C) the economics of the fishery,

(D) the capability of fishing vessels used in the fishery to engage in other fisheries,

(E) the cultural and social framework relevant to the fishery and any affected fishing communities, and

(F) any other relevant considerations;

(7) require fish processors who first receive fish that are subject to the plan to submit data (other than economic data) which are necessary for the conservation and management of the fishery;

(8) require that one or more observers be carried on board a vessel of the United States engaged in fishing for species that are subject to the plan, for the purpose of collecting data necessary for the conservation and management of the fishery; except that such a vessel shall not be required to carry an observer on board if the facilities of the vessel for the quartering of an observer, or for carrying out observer functions, are so inadequate or unsafe that the health or safety of the observer or the safe operation of the vessel would be jeopardized;

(9) assess and specify the effect which the conservation and management measures of the plan will have on the stocks of naturally spawning anadromous fish in the region;

(10) include, consistent with the other provisions of this Act, conservation and management measures that provide harvest incentives for participants within each gear group to employ fishing practices that result in lower levels of bycatch or in lower levels of the mortality of bycatch;

16 U.S.C. 1853

(11) reserve a portion of the allowable biological catch of the fishery for use in scientific research; and

(12) prescribe such other measures, requirements, or conditions and restrictions as are determined to be necessary and appropriate for the conservation and management of the fishery.

97-453, 104-297

deposit rate will be 8.10 percent, the &ldquo;all-others&rdquo; rate established in the LTFV investigation. These deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f) of the Department's regulations to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This administrative review and this notice are in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

[I.D. 020102B]

#### Proposed Information Collection; Comment Request; Scientific Research, Exempted Fishing, and Exempted Activity Submissions

**AGENCY:** National Oceanic and Atmospheric Administration (NOAA).

**ACTION:** Notice.

**SUMMARY:** The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Pub. L. 104-13 (44 U.S.C. 3506 (c)(2)(A)).

**DATES:** Written comments must be submitted on or before April 8, 2002.

**ADDRESSES:** Direct all written comments to Madeleine Clayton, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6086, 14th and Constitution Avenue NW, Washington DC 20230 (or via Internet at MClayton@doc.gov).

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or

copies of the information collection instrument(s) and instructions should be directed to William D. Chappell, Fisheries Management Specialist, at 301-713-2341 or William.Chappell@noaa.gov.

#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

Fishery regulations do not generally affect scientific research activities conducted by a scientific research vessel. Persons planning to conduct such research are encouraged to submit a research plan to ensure that the activities are considered research and not fishing. NOAA may also grant exemptions from fishery regulations for educational or other activities (e.g. testing of fishing gear). Applications for these exemptions must be submitted, and reports on activities submitted. Somewhat different requirements apply to the Atlantic Highly Migratory Species fishery, including certain arrival and offloading reports.

##### II. Method of Collection

Most information is submitted on forms or other written format. Some information may be phoned to NOAA.

##### III. Data

*OMB Number:* 0648-0309.

*Form Number:* None.

*Type of Review:* Regular submission.

*Affected Public:* Business and other for-profit; individuals or households; not-for-profit institutions; State, Local, or Tribal government.

*Estimated Number of Respondents:* 359.

*Estimated Time Per Response:* 1 hour for a scientific research plan, an exempted fishing permit request, or an exempted fishing permit report; 10 minutes for an application for an exempted fishing permit/letter of authorization for commercial fishing for Highly Migratory Species; 30 minutes for an application for an exempted fishing permit/letter of authorization for non-commercial fishing for Highly Migratory Species; 30 minutes for an annual summary of activities under an exempted fishing permit/letter of authorization for sharks; 5 minutes for an arrival report for a vessel with a swordfish exempted fishing permit/letter of authorization; 5 minutes for a report on non-commercial activities under an exempted fishing permit/letter of authorization for Highly Migratory Species; and 5 minutes for an off-loading notification for swordfish for a vessel with an exempted fishing permit/letter of authorization.

*Estimated Total Annual Burden Hours:* 435.

*Estimated Total Annual Cost to Public:* \$500.

#### IV. Request for Comments

Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: January 31, 2002.

## DEPARTMENT OF DEFENSE

### Office of the Secretary

#### Defense Intelligence Agency, Science and Technology Advisory Board, Standing Committee of Emerging Chemical and Biological Technology Advisory Committee of Experts Closed Panel Meeting

**AGENCY:** Defense Intelligence Agency, Department of Defense.

**ACTION:** Notice.

**SUMMARY:** Pursuant to the provisions of Subsection (d) of Section 10 of Public Law 92-463, as amended by Section 5 of Public Law 94-409, notice is hereby given that a closed meeting of the DIA Science and Technology Advisory Board, Standing Committee on Emerging Chemical and Biological Technology Advisory Committee of Experts has been scheduled as follows:

**DATES:** 13 & 14 February 2002 (0800am-1700pm).

**ADDRESSES:** San Diego, California 92118.

**FOR FURTHER INFORMATION CONTACT:** Mr. Jack A McNulty, Director, DIA Science and Technology Advisory Board, Standing Committee on Emerging Chemical and Biological Technology
