19. Certification for Paperwork Reduction Act Submissions

On behalf of this Federal Agency, I certify that the collection of information encompassed by this request complies with 5 CFR 1320.9

NOTE: The text of 5 CFR 1320.9, and the related provisions of 5 CFR 1320.8(b)(3), appear at the end of the instructions. *The certification is to be made with reference to those regulatory provisions as set forth in the instructions.*

The following is a summary of the topics, regarding the proposed collection of information, that the certification covers:

- (a) It is necessary for the proper performance of agency functions;
- (b) It avoids unnecessary duplication;
- (c) It reduces burden on small entities;
- (d) It used plain, coherent, and unambiguous terminology that is understandable to respondents;
- (e) Its implementation will be consistent and compatible with current reporting and recordkeeping practices;
- (f) It indicates the retention period for recordkeeping requirements;
- (g) It informs respondents of the information called for under 5 CFR 1320.8(b)(3):
 - (i) Why the information is being collected;
 - (ii) Use of information;
 - (iii) Burden estimate;
 - (iv) Nature of response (voluntary, required for a benefit, mandatory);
 - (v) Nature and extent of confidentiality; and
 - (vi) Need to display currently valid OMB control number;
- (h) It was developed by an office that has planned and allocated resources for the efficient and effective management and use of the information to be collected (see note in Item 19 of instructions);
- (i) It uses effective and efficient statistical survey methodology; and
- (j) It makes appropriate use of information technology.

If you are unable to certify compliance with any of the provisions, identify the item below and explain the reason in Item 18 of the Supporting Statement.

**SUPPORTING STATEMENT
SOUTHWEST REGION VESSEL IDENTIFICATION REQUIREMENTS
OMB CONTROL NO. 0648-0361**

A. JUSTIFICATION

1. Explain the circumstances that make the collection of information necessary.

The success of fisheries management programs depends significantly on regulatory compliance. The vessel identification requirement is essential to facilitate enforcement. The ability to link fishing or other activity to the vessel owner or operator is crucial to enforcement of the regulations issued under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (M-S Act) to govern domestic and foreign fishing and under authority of laws implementing international treaties.

2. Explain how, by whom, how frequently, and for what purpose the information will be used.

In the domestic Southwest Region fisheries regulated under 50 CFR Part 660, the vessel's official number is required to be displayed on the port and starboard sides of the deckhouse or hull, and on an appropriate weather deck. It identifies each vessel and should be visible at distances at sea and in the air. The requirements affect Western Pacific pelagic longline vessels, Northwestern Hawaiian Islands crustacean vessels, Western Pacific bottomfishing vessels, precious coral fishing vessels, and West Coast coastal pelagic fishing vessels.

In the South Pacific tuna purse seine fishery regulated under 50 CFR Part 300 Subpart D, the international radio call sign (IRCS) number is used and must be painted on the hull and a deck. The IRCS number also must be painted on the side of any auxiliary equipment such as skiffs and helicopters.

The identification number provides law enforcement personnel with a means to monitor fishing, at-sea processing, and other related activities, to ascertain whether the vessel's observed activities are in accordance with those authorized for that vessel. The identifying number is used by the National Marine Fisheries Service (NMFS), the U.S. Coast Guard, and other marine agencies in issuing violation, prosecutions, and other enforcement actions. Vessels that qualify for particular fisheries are readily identified, and this allows for more cost-effective enforcement. Cooperating fishermen also use the number to report suspicious activities that they observe. Regulation-compliant fishermen ultimately benefit as unauthorized and illegal fishing is deterred and more burdensome regulations are avoided.

3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological techniques or other forms of information technology.

The requirement that each vessel display an identification number on its deckhouse or hull, and its weather deck, does not lend itself to technology. Transponders and vessel monitoring system units are comparatively expensive and their signals cannot be accessed directly by the U.S. Coast Guard in the air or by its vessels at this time. No other technology appears to be less costly and still capable of providing the necessary information to support enforcement.

4. Describe efforts to identify duplication.

There is no duplication with other collections. The U.S. Coast requires the name of the vessel be marked on its hull.

5. If the collection of information involves small businesses or other small entities, describe the methods used to minimize burden.

Most of the vessels categorized as small businesses. The collection will not have a significant impact on small businesses, and no special modifications of the requirements were considered necessary to accommodate the needs of small businesses.

6. Describe the consequences to the Federal program or policy activities if the collection is not conducted or is conducted less frequently.

The NMFS and U.S. Coast Guard could not enforce the fisheries management measures if the collection is not conducted or is conducted less frequently.

7. Explain any special circumstances that require the collection to be conducted in a manner inconsistent with OMB guidelines.

No special circumstances require the collection to be conducted in a manner inconsistent with the OMB guidelines.

8. Provide a copy of the PRA Federal Register notice that solicited public comments on the information collection prior to this submission. Summarize the public comments received in response to that notice and describe the actions taken by the agency in response to those comments. Describe the efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instructions and recordkeeping, disclosure, or reporting format (if any), and on the data elements to be recorded, disclosed, or reported.

A Federal Register Notice (copy attached) solicited public comments. None were received.

9. Explain any decisions to provide payments or gifts to respondents, other than remuneration of contractors or grantees.

No payments or gifts are provided.

10. Describe any assurance of confidentiality provided to respondents and the basis for assurance in statute, regulation, or agency policy.

There is no assurance of confidentiality provided. This is public information.

11. Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

There are no sensitive questions.

12. Provide an estimate in hours of the burden of the collection of information.

The estimated total number of vessels affected is 356 (217 Western Pacific pelagic longline vessels, 8 Northwestern Hawaiian Islands crustacean vessels, 19 Western Pacific bottomfishing vessels, 2 precious coral fishing vessels, 70 West Coast coastal pelagic fishing vessels, and 40 purse seine fishing vessels). For all but the purse seine vessels, the burden is estimated at 45 minutes each (15 minutes for each of three locations on the vessel). For the purse seine vessels, the burden is estimated at 1.25 hours (15 minutes for each of three locations on the vessel plus 15 minutes each for one skiff and one helicopter). The total estimate burden therefore is:

$$\begin{aligned} 316 \text{ vessels} \times .75 \text{ hours} &= 237 \text{ hours} \\ 40 \text{ vessels} \times 1.25 \text{ hours} &= 50 \text{ hours} \\ \text{Total} &= 287 \text{ hours} \end{aligned}$$

13. Provide an estimate of the total annual cost burden to the respondents or record-keepers resulting from the collection.

The only costs to respondents is the cost of the paint to apply the vessel's official number. It is assumed the vessel has paint brushes. At \$10 per vessel, the cost would be \$2,870.

14. Provide estimates of annualized cost to the Federal government.

There is no cost to the Federal government.

15. Explain the reasons for any program changes or adjustments reported in Items 13 or 14 of the OMB 83-I.

No changes are requested.

16. For collections whose results will be published, outline the plans for tabulation and publication.

No results are published.

17. If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons why display would be inappropriate.

N/A.

18. Explain each exception to the certification statement identified in Item 19 of the OMB 83-I.

There are no exceptions.

B. COLLECTIONS OF INFORMATION EMPLOYING STATISTICAL METHODS

This collection does not employ statistical methods.

§ 660.15

are otherwise subject to subpart C of this part, including, but not limited to, information concerning:

(i) The name of the vessel involved in each transaction and the owner or operator of the vessel.

(ii) The weight, number, and size of each species of fish involved in each transaction.

(iii) Prices paid by the buyer and proceeds to the seller in each transaction.

(2) *Crustaceans management unit species.* Upon request, any first-level buyer must immediately allow an authorized officer and any employee of NMFS designated by the Regional Director, to access, inspect, and copy all records relating to the harvest, sale, or transfer of crustacean management unit species taken by vessels that have permits issued under this subpart or that are otherwise subject to subpart D of this part. This requirement may be met by furnishing the information on a worksheet provided by the Regional Director. The information must include, but is not limited to:

(i) The name of the vessel involved in each transaction and the owner or operator of the vessel.

(ii) The amount, number, and size of each management unit species involved in each transaction.

(iii) Prices paid by the buyer and proceeds to the seller in each transaction.

(3) *Bottomfish and seamount groundfish management unit species.* Any person who is required by state laws and regulations to maintain records of landings and sales for vessels regulated by this subpart and subpart E of this part must make those records immediately available for Federal inspection and copying upon request by an authorized officer.

(g) *State reporting.* Any person who has a permit under §§ 660.21 or 660.61 and who is required by state laws and regulations to maintain and submit records of landings and sales for vessels regulated by subparts C and E of this part must maintain and submit those records in the exact manner required by state laws and regulations.

50 CFR Ch. VI (10–1–00 Edition)

§ 660.15 Prohibitions.

In addition to the prohibitions in § 600.725 of this chapter, it is unlawful for any person to:

(a) Engage in fishing without a valid permit or facsimile of a valid permit on board the vessel and available for inspection by an authorized officer, when a permit is required under § 660.13 or § 660.17, unless the vessel was at sea when the permit was issued under § 660.13, in which case the permit must be on board the vessel before its next trip.

(b) File false information on any application for a fishing permit under § 660.13 or an EFP under § 660.17.

(c) Fail to file reports in the exact manner required by any state law or regulation, as required in § 660.14.

(d) Falsify or fail to make, keep, maintain, or submit any logbook or logbook form or other record or report required under §§ 660.14 and 660.17.

(e) Refuse to make available to an authorized officer or a designee of the Regional Director for inspection or copying, any records that must be made available in accordance with § 660.14.

(f) Fail to affix or maintain vessel or gear markings, as required by §§ 660.16, 660.24, and 660.47.

(g) Violate a term or condition of an EFP issued under § 660.17.

(h) Fail to report any take of or interaction with protected species as required by § 660.17(k).

(i) Fish without an observer on board the vessel after the owner or agent of the owner has been directed by NMFS to make accommodations available for an observer under §§ 660.17, 660.28, 660.49, or 660.65.

(j) Refuse to make accommodations available for an observer when so directed by the Regional Director under § 660.28, § 660.49, or § 660.65, or under any provision in an EFP issued under § 660.17.

(k) Fail to notify officials as required in §§ 660.23, 660.28, 660.43, and 660.63.

§ 660.16 Vessel identification.

(a) Each fishing vessel subject to this subpart must display its official number on the port and starboard sides of

Fishery Conservation and Management

§ 660.17

the deckhouse or hull, and on an appropriate weather deck, so as to be visible from enforcement vessels and aircraft.

(b) The official number must be affixed to each vessel subject to this subpart and subparts C, D, E, and F of this part, in block Arabic numerals at least 18 inches (45.7 cm) in height for fishing and receiving vessels of 65 ft (19.8 m) LOA or longer, and at least 10 inches (25.4 cm) in height for all other vessels, except vessels subject to Subpart F and 65 ft (19.8 m) LOA or longer must be marked in block Arabic numerals at least 14 inches (35.6 cm) in height. Marking must be legible and of a color that contrasts with the background.

(c) The vessel operator must ensure that the official number is clearly legible and in good repair.

(d) The vessel operator must ensure that no part of the vessel, its rigging, or its fishing gear obstructs the view of the official number from an enforcement vessel or aircraft.

§ 660.17 Experimental fishing.

(a) *General.* The Regional Director may authorize, for limited purposes, the direct or incidental harvest of management unit species that would otherwise be prohibited by this subpart and subparts C, D, E, and F of this part. No experimental fishing may be conducted unless authorized by an EFP issued by the Regional Director in accordance with the criteria and procedures specified in this section. EFPs will be issued without charge.

(b) *Observers.* No experimental fishing for crustacean management unit species may be conducted unless an NMFS scientific observer is aboard the vessel.

(c) *Application.* An applicant for an EFP must submit to the Regional Director at least 60 days before the desired date of the EFP a written application including, but not limited to, the following information:

(1) The date of the application.

(2) The applicant's name, mailing address, and telephone number.

(3) A statement of the purposes and goals of the experiment for which an EFP is needed, including a general description of the arrangements for disposition of all species harvested under the EFP.

(4) A statement of whether the proposed experimental fishing has broader significance than the applicant's individual goals.

(5) For each vessel to be covered by the EFP:

(i) Vessel name.

(ii) Name, address, and telephone number of owner and operator.

(iii) USCG documentation, state license, or registration number.

(iv) Home port.

(v) Length of vessel.

(vi) Net tonnage.

(vii) Gross tonnage.

(6) A description of the species (directed and incidental) to be harvested under the EFP and the amount of such harvest necessary to conduct the experiment.

(7) For each vessel covered by the EFP, the approximate times and places fishing will take place, and the type, size, and amount of gear to be used.

(8) The signature of the applicant.

(d) *Incomplete applications.* The Regional Director may request from an applicant additional information necessary to make the determinations required under this section. An applicant will be notified of an incomplete application within 10 working days of receipt of the application. An incomplete application will not be considered until corrected in writing.

(e) *Issuance.* (1) If an application contains all of the required information, NMFS will publish a notice of receipt of the application in the FEDERAL REGISTER with a brief description of the proposal and will give interested persons an opportunity to comment. The Regional Director will also forward copies of the application to the Council, the USCG, and the fishery management agency of the affected state, accompanied by the following information:

(i) The current utilization of domestic annual harvesting and processing capacity (including existing experimental harvesting, if any) of the directed and incidental species for which an EFP is being requested.

(ii) A citation of the regulation or regulations that, without the EFP, would prohibit the proposed activity.

(iii) Biological information relevant to the proposal.

Int'l. Fishing and Related Activities

§ 300.38

(d) Any information required to be recorded, or to be notified, communicated or reported pursuant to a requirement of these regulations, the Act, or the Treaty shall be true, complete and correct. Any change in circumstances that has the effect of rendering any of the information provided false, incomplete or misleading shall be communicated immediately to the Regional Administrator.

§ 300.35 Vessel and gear identification.

While a vessel is in the Licensing Area, a Limited Area closed to fishing, or a Closed Area, a recent and up-to-date copy of the International Code of Signals (INTERCO) shall be on board and accessible at all times. The operator shall comply with the 1989 Food and Agricultural Organization standard specifications for the marking and identification of fishing vessels. The international radio call sign of the vessel shall be painted in white on a black background, or in black on a white background, and be clear, distinct, and uncovered, in the following manner:

(a) On both sides of the vessel's hull or superstructure, with each letter and number being at least 1 m high and having a stroke width of 16.7 cm, with the background extending to provide a border around the mark of not less than 16.7 cm.

(b) On the vessel's deck, on the body of any helicopter and on the hull of any skiff, with each letter and number being at least 30 cm high, and having a stroke width of 5 cm with the background extending to provide a border around the mark of not less than 5 cm.

(c) On any other equipment being carried by and intended to be separated from the vessel during normal fishing operations, with each letter and number being at least 10 cm high and having a stroke width of 1.7 cm, with the background extending to provide a border around the mark of not less than 1.7 cm.

§ 300.36 Closed area stowage requirements.

At all times while a vessel is in a Closed Area, the fishing gear of the vessel shall be stowed in a manner as not to be readily available for fishing. In particular, the boom shall be low-

ered as far as possible so that the vessel cannot be used for fishing, but so that the skiff is accessible for use in emergency situations; the helicopter, if any shall be tied down; and launches shall be secured.

§ 300.37 Radio monitoring.

The international distress frequency, 2.182 MHz, and 156.8 MHz (Channel 16, VHF) shall be monitored continuously from the vessel for the purpose of facilitating communication with the fisheries management, surveillance and enforcement authorities of the Parties.

§ 300.38 Prohibitions.

(a) Except as provided for in § 300.39, in addition to the prohibitions in § 300.4, it is unlawful for any person subject to the jurisdiction of the United States to do any of the following:

(1) To violate the Act or any provision of any regulation or order issued pursuant to Act.

(2) To use a vessel for fishing in violation of an applicable national law.

(3) To violate the terms and conditions of any fishing arrangement to which that person is a party.

(4) To use a vessel for fishing in a Limited Area in violation of the requirements set forth in Schedule 3 of Annex I of the Treaty on "Limited Areas".

(5) To use a vessel for fishing in any Closed Area.

(6) To refuse to permit any authorized officer or authorized party officer to board a fishing vessel for purpose of conducting a search or inspection in connection with the enforcement of the Act or the Treaty.

(7) To refuse to comply with the instructions of an authorized officer or authorized party officer relating to fishing activities under the Treaty.

(8) To refuse to permit an authorized inspector full access to any place where fish taken in the Licensing Area is unloaded.

(9) To refuse to allow an authorized inspector to remove samples of fish from a vessel that fished in the Licensing Area.

(10) To forcibly assault, resist, oppose, impede, intimidate, or interfere with:

(B) minimize the mortality of bycatch which cannot be avoided;

(12) assess the type and amount of fish caught and released alive during recreational fishing under catch and release fishery management programs and the mortality of such fish, and include conservation and management measures that, to the extent practicable, minimize mortality and ensure the extended survival of such fish;

(13) include a description of the commercial, recreational, and charter fishing sectors which participate in the fishery and, to the extent practicable, quantify trends in landings of the managed fishery resource by the commercial, recreational, and charter fishing sectors; and

(14) to the extent that rebuilding plans or other conservation and management measures which reduce the overall harvest in a fishery are necessary, allocate any harvest restrictions or recovery benefits fairly and equitably among the commercial, recreational, and charter fishing sectors in the fishery.

97-453, 99-659, 101-627, 102-251, 104-297

(b) DISCRETIONARY PROVISIONS.--Any fishery management plan which is prepared by any Council, or by the Secretary, with respect to any fishery, may--

(1) require a permit to be obtained from, and fees to be paid to, the Secretary, with respect to--

(A) any fishing vessel of the United States fishing, or wishing to fish, in the exclusive economic zone [or special areas,]* or for anadromous species or Continental Shelf fishery resources beyond such zone [or areas]*;

(B) the operator of any such vessel; or

(C) any United States fish processor who first receives fish that are subject to the plan;

(2) designate zones where, and periods when, fishing shall be limited, or shall not be permitted, or shall be permitted only by specified types of fishing vessels or with specified types and quantities of fishing gear;

(3) establish specified limitations which are necessary and appropriate for the conservation and management of the fishery on the--

(A) catch of fish (based on area, species, size, number, weight, sex, bycatch, total biomass, or other factors);

(B) sale of fish caught during commercial, recreational, or charter fishing, consistent with any applicable Federal and State safety and quality requirements; and

(C) transshipment or transportation of fish or fish products under permits issued pursuant to section 204;

(4) prohibit, limit, condition, or require the use of specified types and quantities of fishing gear, fishing vessels, or equipment for such vessels, including devices which may be required to facilitate enforcement of the provisions of this Act;

(5) incorporate (consistent with the national standards, the other provisions of this Act, and any other applicable law) the relevant fishery conservation and management measures of the coastal States nearest to the fishery;

(6) establish a limited access system for the fishery in order to achieve optimum yield if, in developing such system, the Council and the Secretary take into account--

(A) present participation in the fishery,

(B) historical fishing practices in, and dependence on, the fishery,

(C) the economics of the fishery,

(D) the capability of fishing vessels used in the fishery to engage in other fisheries,

(E) the cultural and social framework relevant to the fishery and any affected fishing communities, and

(F) any other relevant considerations;

(7) require fish processors who first receive fish that are subject to the plan to submit data (other than economic data) which are necessary for the conservation and management of the fishery;

(8) require that one or more observers be carried on board a vessel of the United States engaged in fishing for species that are subject to the plan, for the purpose of collecting data necessary for the conservation and management of the fishery; except that such a vessel shall not be required to carry an observer on board if the facilities of the vessel for the quartering of an observer, or for carrying out observer functions, are so inadequate or unsafe that the health or safety of the observer or the safe operation of the vessel would be jeopardized;

(9) assess and specify the effect which the conservation and management measures of the plan will have on the stocks of naturally spawning anadromous fish in the region;

(10) include, consistent with the other provisions of this Act, conservation and management measures that provide harvest incentives for participants within each gear group to employ fishing practices that result in lower levels of bycatch or in lower levels of the mortality of bycatch;

16 U.S.C. 1853

(11) reserve a portion of the allowable biological catch of the fishery for use in scientific research; and

(12) prescribe such other measures, requirements, or conditions and restrictions as are determined to be necessary and appropriate for the conservation and management of the fishery.

97-453, 104-297

Sec. 973b. Regulations

The Secretary of Commerce, with the concurrence of the Secretary of State and after consultation with the Secretary of the department in which the Coast Guard is operating, shall issue regulations as may be necessary to carry out the purposes and objectives of the Treaty and this chapter. These regulations shall be made applicable as necessary to all persons and vessels subject to the jurisdiction of the United States, wherever located.

I. Abstract

Regulations of 50 CFR 648.8 and 697.8 require that all vessels with Federal permits to fish in the Northeast display the vessel's official number. The numbers must be in a specific size at specified locations. The display of the identifying number aids in fishery law enforcement.

II. Method of Collection

No information is collected. The official number must be displayed on the port and starboard sides of the deckhouse or hull and on a weather deck.

III. Data

OMB Number: 0648-0350.

Form Number: None.

Type of Review: Regular submission

Affected Public: Business or other for-profit organizations, individuals or households.

Estimated Number of Respondents: 5,821.

Estimated Time Per Response: 45 minutes (15 minutes for each of three markings).

Estimated Total Annual Burden Hours: 4,363.

Estimated Total Annual Cost to Public: \$58,000.

IV. Request for Comments

Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

SUPPLEMENTARY INFORMATION:

I. Abstract

Regulations (50 CFR 648.81(f), 648.84, 648.123(b)(3), 648.144(b), and 697.21) require that Federal fishing permit holders using specified fishing gear mark that gear with specified information (the official vessel numbers, Federal permit number, tag number, or other method identified in the regulation). The regulations also specify

how the gear is to be marked (e.g. location and visibility). Marking of gear aids law enforcement and also helps identify gear involved in damage, loss, or civil proceedings.
