

NOTICE OF OFFICE OF MANAGEMENT AND BUDGET ACTION

Date 08/04/2015

Department of Commerce
National Oceanic and Atmospheric Administration

FOR CERTIFYING OFFICIAL: Jennifer Jessup

FOR CLEARANCE OFFICER: Jennifer Jessup

In accordance with the Paperwork Reduction Act, OMB has taken action on your request received 06/18/2015

ACTION REQUESTED: Revision of a currently approved collection

TYPE OF REVIEW REQUESTED: Regular

ICR REFERENCE NUMBER: 201506-0648-009

AGENCY ICR TRACKING NUMBER:

TITLE: Pacific Islands Logbook Family of Forms

LIST OF INFORMATION COLLECTIONS: See next page

OMB ACTION: Approved without change

OMB CONTROL NUMBER: 0648-0214

The agency is required to display the OMB Control Number and inform respondents of its legal significance in accordance with 5 CFR 1320.5(b).

EXPIRATION DATE: 08/31/2018

DISCONTINUE DATE:

BURDEN:	RESPONSES	HOURS	COSTS
Previous	26,029	14,867	1,300
New	10,859	3,511	1,300

19. Certification for Paperwork Reduction Act Submissions

On behalf of this Federal Agency, I certify that the collection of information encompassed by this request complies with 5 CFR 1320.9

NOTE: The text of 5 CFR 1320.9, and the related provisions of 5 CFR 1320.8(b)(3), appear at the end of the instructions. *The certification is to be made with reference to those regulatory provisions as set forth in the instructions.*

The following is a summary of the topics, regarding the proposed collection of information, that the certification covers:

- (a) It is necessary for the proper performance of agency functions;
- (b) It avoids unnecessary duplication;
- (c) It reduces burden on small entities;
- (d) It used plain, coherent, and unambiguous terminology that is understandable to respondents;
- (e) Its implementation will be consistent and compatible with current reporting and recordkeeping practices;
- (f) It indicates the retention period for recordkeeping requirements;
- (g) It informs respondents of the information called for under 5 CFR 1320.8(b)(3):
 - (i) Why the information is being collected;
 - (ii) Use of information;
 - (iii) Burden estimate;
 - (iv) Nature of response (voluntary, required for a benefit, mandatory);
 - (v) Nature and extent of confidentiality; and
 - (vi) Need to display currently valid OMB control number;
- (h) It was developed by an office that has planned and allocated resources for the efficient and effective management and use of the information to be collected (see note in Item 19 of instructions);
- (i) It uses effective and efficient statistical survey methodology; and
- (j) It makes appropriate use of information technology.

If you are unable to certify compliance with any of the provisions, identify the item below and explain the reason in Item 18 of the Supporting Statement.

**SUPPORTING STATEMENT
PACIFIC ISLANDS REGION LOGBOOK FAMILY OF FORMS
OMB CONTROL NO. 0648-0214**

INTRODUCTION

This Supporting Statement describes a revision and extension of the previously approved information collection under OMB Control No. 0648-0214. The following changes are being made. Pelagic transshipment reports will be removed from this collection as they have been superseded by Transshipment Requirements under the Western and Central Pacific Fisheries Commission (OMB Control No. 0648-0649). Pelagic squid jig (OMB Control No.0648-0589) and deepwater shrimp (OMB Control No.0648-0586) logbooks will be removed from their previously approved collections and incorporated into this collection.

A. JUSTIFICATION

1. Explain the circumstances that make the collection of information necessary.

The Magnuson-Stevens Fishery Conservation and Management Act established the Western Pacific Fishery Management Council (Council), to develop fishery ecosystem plans (FEPs) for fisheries in the United States (U.S.) exclusive economic zone (EEZ) in the central and western Pacific. These plans, if approved by the Secretary of Commerce, are implemented in Federal regulations by National Marine Fisheries Service (NMFS) and enforced by the National Oceanic and Atmospheric Administration Office for Law Enforcement (OLE) and U.S. Coast Guard (USCG), in cooperation with state and territorial agencies. FEPs authorize regulations to prevent overfishing and to ensure the long-term productivity and social and economic benefit of the resources for the U.S. Regulations implementing these plans are at 50 C.F.R. 665.

NMFS has jurisdiction over fisheries in Federal waters of the Pacific Ocean seaward of American Samoa, Guam, Hawaii, the Northern Mariana Islands (NMI), and the Pacific Remote Island Areas (PRIA)¹. The Council recommends, and the Secretary approves and implements through regulations, FEPs for the American Samoa, Hawaii, and Mariana (Guam and NMI) archipelagos, PRIA, and pelagic fisheries in the western Pacific. Each of these FEPs requires that fishery participants submit Federal logbooks for federally managed fisheries in their area.

The reporting requirements are crucial to ensure that NMFS will be able to monitor the fisheries and have fishery-dependent information to evaluate the effectiveness of management measures, determine whether changes in fishery management programs are necessary, ensure compliance with regulations, and estimate the impacts and implications of alternative management measures. This submission addresses information needed on actual fishing activities to determine how

¹Howland, Baker, Jarvis, Wake and Palmyra Islands, Johnston Atoll, Midway Atoll, and Kingman Reef.

different participants might be affected, and how stocks and other living marine resources might be affected, by changes in regulations governing the fisheries.

Specific reporting requirements for the individual fisheries identified with the relevant section of 50 CFR Part 665 are as follows:

Pelagic (Longline only)	<ul style="list-style-type: none"> - Logbooks: catch and effort data and protected species interactions (§665.14(b)) - Dealer records (no form) (§665.14(g)) - Pre-trip notification (no form) (§665.803(a)) - Protected species zone entry/exit notification (no form) (§665.803(d)) - Claim for reimbursement for lost fishing time (no form) (§665.808(i))
Pelagic (Troll and handline)	<ul style="list-style-type: none"> - Logbooks: catch and effort data and protected species interactions (§665.14(b))
Pelagic Squid Jig	<ul style="list-style-type: none"> - Logbooks: catch and effort data and protected species interactions (§665.14(b)) - Pre-trip notification (no form) (§665.803(b))
Crustaceans (lobster and deepwater shrimp)	<ul style="list-style-type: none"> - Logbooks: catch and effort data and protected species interactions (§665.14(b)) - Sales report (§665.14(d)) - Dealer packing/weigh-out slips; records (no form) (§665.14(e); §665.14(g)) - Pre-landing notice (no form) (§665.144(a)(1); §665.244(a)(1); §665.444(a)(1); §665.644(a)(1)) - Pre-offloading notice (no form) (§665.144(a)(2); §665.244(a)(2); §665.444(a)(2); §665.644(a)(2)) - At-sea catch report (no form) (§665.252(c))
Bottomfish	<ul style="list-style-type: none"> - Logbooks: catch and effort data and protected species interactions (§665.14(b)) - Sales report (§665.14(d)) - Dealer records (no form) (§665.14(g)) - Observer placement meeting (no form) (§665.207(b))
Precious Corals	<ul style="list-style-type: none"> - Logbooks: catch and effort data (§665.14(b)) - Sales report (in logbook) (§665.14(b))
Experimental Fishing Permits	<ul style="list-style-type: none"> - Experimental fishing reports (no form) (§665.17(e)(4)(vi))

Logbooks (bottomfish, crustacean, pelagic longline, pelagic troll and handline, pelagic squid jig, and precious corals) in the Pacific Islands Region are required to obtain catch and effort information. These data are especially needed for determining the condition of the stocks. Drastic changes in catch per unit effort (CPUE) are often indicative of significant shifts in the size and structure of the stock and suggest that changes in management measures may be appropriate to respond to declines or increases in stock sizes.

Sales reports (bottomfish, crustacean, precious corals) are used to ensure full reporting of all landings and sales of fish from the management unit. The sales report portion of the precious corals logbook provides the basis of understanding the economic value associated with the fishery, which is needed to evaluate the magnitude and distribution of impacts from changes in management regulations.

Reports on protected species interactions (all logbooks) are required to ensure adequate information on the extent to which there are any direct impacts of the fishery on the protected species.

The requirement to report lobster traps left at sea is intended to monitor the impacts of and, when possible, to ensure quick removal of gear that could adversely impact protected species. Although there have been no reports of Hawaiian monk seals interacting with traps, there is still a potential for entanglement while seals are foraging for food.

Experimental fishing permits (EFPs) are available to all Pacific Islands Region fisheries to allow fishing using gear, techniques, or strategies that are otherwise prohibited under the respective fishery ecosystem plans. These permits may allow fishermen to experiment with new gear and techniques that might increase catch per unit effort and reduce the catch of incidental species. They also allow fishermen to engage in data collection activities during a closed season in support of NMFS fishery research and management programs or to achieve other desirable objectives. The FEPs require that there be reports of the results of fishing under the EFPs so that there will be a basis for determining whether to change the regulations to allow the new gear or techniques in the fishery. The reports are needed to establish whether the objectives of granting the EFP were achieved.

In rare situations, a longline or bottomfish vessel operator or owner may incur lost fishing time due to observer injury or illness. If so, the operator or owner may file a claim for compensation based on information about average catches per day at sea the previous two years and current fish prices. While no such claims are expected, the estimate of burdens includes the estimated paperwork associated with one claim per year as a worst case scenario.

2. Explain how, by whom, how frequently, and for what purpose the information will be use

On a broad level, the reporting requirements provide the information needed by NMFS to regulate and monitor the fisheries managed under the FEPs and to evaluate the effectiveness of management by assessing the status of stocks and the status of the fisheries. The information provides a basis for determining whether changes in management are needed to sustain the productivity of the stocks or to address economic problems in the fishery. The information is also used to provide the basis for evaluating the magnitude and distribution of impacts resulting from changes to the regulations. Without the information, NMFS would be unable to determine whether management is achieving the objectives of the FEPs and preventing overfishing, the principal requirement of the Magnuson-Stevens Act.

Information from mandated logbooks, sales reports and, if necessary, packing/weigh-out slips, is used to determine specific changes in fishery patterns, such as seasonal shifts and areas which are more important than others to the stocks or to the fishermen. Information from the logbooks, as well as ancillary dealer records, is used by enforcement agents of NMFS, state or territory, and USCG to monitor compliance with fishing regulations and reporting requirements.

Information from pre-trip notifications is used by NMFS to determine whether to place observers on selected vessels to obtain detailed information on fishing practices (including interactions with protected species) and the characteristics of the catch.

Other users and uses of information under this collection include required documentation submitted by longline vessel operators or owners to receive compensation from NMFS for lost fishing time due to serious injury or illness of a NMFS observer and notification by lobster boats of traps being stored at sea due to emergency situation and allowing NMFS to monitor for potential adverse impacts to protected species and the ecosystem.

Reports provided by fishermen as required under an EFP allow NMFS to use and disseminate the results of prohibited fishing activities which, when conducted under the NMFS-specified controlled conditions, can yield much needed information on the resources and fisheries.

NMFS will retain control over the information and safeguard it from improper access, modification, and destruction, consistent with NOAA standards for confidentiality, privacy, and electronic information. See response to Question 10 of this Supporting Statement for more information on confidentiality and privacy. The information collection is designed to yield data that meet all applicable information quality guidelines. Although the information collected is not expected to be disseminated directly to the public, results may be used in scientific, management, technical, or general informational publications. Should NMFS decide to disseminate the information, it will be subject to the quality control measures and pre-dissemination review pursuant to Section 515 of Public Law 106-554.

3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological techniques or other forms of information technology.

NMFS continues to investigate information technology advances that would simplify the collection and reduce the burden. However, none of the collection elements that comprise this overall proposal is especially difficult or burdensome. In the meantime, NMFS is refining electronic reporting in order to provide a strong basis for its adoption universally by all participants in the longline fisheries. Logbook data are currently entered daily on forms provided by NMFS to prevent data quality problems from faulty recall. Pre-trip notifications are easily made by telephone, as are pre-landing/off-loading notifications.

4. Describe efforts to identify duplication.

NMFS carefully considered whether there were collections by other Federal agencies or state or territorial agencies that might meet the information needs presented above. It was concluded that no other collections, besides the requested collecting information, would meet these reporting requirements.

5. If the collection of information involves small businesses or other small entities, describe the methods used to minimize burden.

All of the vessels in the federally-managed fisheries in the Pacific Islands Region are small business entities of similar sizes and are affected comparably. No special measures are needed to accommodate different sized businesses.

6. Describe the consequences to the Federal program or policy activities if the collection is not conducted or is conducted less frequently.

Without this collection or if it is conducted less frequently, NMFS would be unable to determine whether management is achieving the objectives of the FEPs and preventing overfishing, the principal requirement of the Magnuson-Stevens Act. NMFS and the Council will be unable to make management decisions effectively and in a timely manner. In turn, the long-term economic health of the fisheries may be compromised.

7. Explain any special circumstances that require the collection to be conducted in a manner inconsistent with OMB guidelines.

This collection is consistent with OMB guidelines, except that the frequency of the collections exceed the minimum quarterly reporting schedule and in most cases the collections require a response time of less than 30 days. The reporting frequency and response time for fishery-dependent data vary with specific reporting requirements. Daily logbooks were deemed most appropriate for detailed catch and effort data needed to assess the status of the stocks and the impacts of the fishery on the stocks, as well as the impact of regulations on the fisheries. EFP reports would be required at a frequency appropriate for managing compliance of the activity authorized with the terms and conditions of the EFP. Collecting data less frequently would diminish NMFS and the Council's ability to make timely management decisions.

8. Provide information on the PRA Federal Register Notice that solicited public comments on the information collection prior to this submission. Summarize the public comments received in response to that notice and describe the actions taken by the agency in response to those comments. Describe the efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instructions and recordkeeping, disclosure, or reporting format (if any), and on the data elements to be recorded, disclosed, or reported.

A Federal Register Notice published March 31, 2015 (80 FR 17033) solicited comments on this information collection, and no comments were received.

Reviews were solicited from seven individuals in the public and fishing industry. Two individuals responded.

Comment 1: "I think the attached documents are fine. Thanks for engaging the industry for comments."

Response: NMFS thanked the commenter for responding.

Comment 2: “No comment on the forms.”

Response: NMFS thanked the commenter for responding.

9. Explain any decisions to provide payments or gifts to respondents, other than remuneration of contractors or grantees.

No payments or gifts are involved in this collection.

10. Describe any assurance of confidentiality provided to respondents and the basis for assurance in statute, regulation, or agency policy.

As stated on the forms, under Section 402b of the Magnuson-Stevens Act and NOAA Administrative Order 216-100, information submitted in accordance with regulatory requirements under the Act is confidential. This includes personal and propriety information contained in the logbooks.

11. Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

No questions of a sensitive nature are asked.

12. Provide an estimate in hours of the burden of the collection of information.

There are 512 estimated respondents in the collection, including duplicate respondents who have to provide multiple types of reports (estimated participants: 200 active longline, 10 PRIA troll and handline, 5 squid jig, 10 crustacean, 30 bottomfish, 3 precious coral and 1 EFP holder). **The estimated total number of burden hours is 3,512. The estimated number of responses per year is 10,859**, for logbooks, protected species interaction reports, sales reports, reports of gear left at sea, lost fishing time reports, area closure request forms, EFP reports, pre-trip and post-landing notifications, and protected species zone entry and exit notifications. See Table 1 for breakdown of responses and burden.

Table 1

Report Type	Estimated Respondents	Estimated Responses	Time per Response	Estimated Burden Hours
PELAGIC:				
Longline logbooks	200	5,000	35 min avg	2,916.7 (2,917)
Pre-trip Notification	205	5,030	5 min	419.2 (419)
Protected Species Zone entry/exit	25	200	5 min	16.7 (17)
Claim for lost fishing time	5	10	6 min	1
PRIA Troll and Handline logbook	10	60	5 min	5
Pelagic Squid Jig logbook	5	30	15 min	7.5 (8)
CRUSTACEN:				
Logbooks	10	50	5 min	4.2 (4)
Sales Report	10	50	5 min	4.2 (4)
Landing/Offloading notices	10	50	5 min	4.2 (4)
BOTTOMFISH:				
Logbooks	30	210	30 min	105
Sales Report (Mariana Islands)	15	150	10 min	25
PRECIOUS CORAL:				
Logbooks	3	12	7 min	1.4 (1)
Sales Reports	3	6	5 min	0.5 (1)
EXPERIMENTAL FISHING:				
	1	1		1
TOTALS	512	10,859		3,511

13. Provide an estimate of the total annual cost burden to the respondents or recordkeepers resulting from the collection.

There is no start-up capital cost for complying with this requirement. The annual total cost to respondents is estimated at \$1,300, which includes miscellaneous postage and communications costs. A dropbox is provided for fishermen at the Honolulu fish auction where most fish are landed and NMFS provides a service center at Pier 38 where logsheets may be received, so not all logsheets have to be mailed.

14. Provide estimates of annualized cost to the Federal government.

The estimated annual cost to the Federal government to administer this collection of information is \$7,420. This includes the cost for printing log forms at \$3,000 per year, the cost of staff time for receiving and transmitting the report forms to appropriate NMFS personnel for analysis, \$2,520 (84 hours x \$30/hr); and the cost to administer the pre-trip notifications at \$1,900 (76 hours x \$25/hr).

15. Explain the reasons for any program changes or adjustments.

The estimates of respondents, responses, and burden hours were updated and recalculated based on the previous calendar year's report submissions and changes to the collection.

Program Changes: Transshipment reports were removed because they are now in a separate collection (OMB Control No.0648-0649). This removed 50 responses and 4 hours. Reporting for Pelagic Squid Jig and Deepwater Shrimp were added to this collection and will be removed from their previous collections (OMB Control No.0648-0589 and OMB Control No.0648-0586): 30 responses and 8 hours were added for Pelagic Squid Jig logbooks; there was no net addition of burden for deepwater shrimp logbooks and sales reports, as the total crustacean logbooks and sales reports reflects the current estimate including for deepwater shrimp. **Net changes: decrease of 20 responses and increase of 4 hours. The decrease in responses results in a decrease of less than \$3.**

Adjustments: Pre-trip notifications were inadvertently omitted from the previous extension and were added back in (5,030 responses and 419 hours). Burden estimates were adjusted: respondents increased by 132 to 512, and responses were reduced by 15,150 because the previous estimate was incorrect for longline logbooks. **Estimated burden hours decreased by a net 11,360 due to additions and corrections of responses and logbook preparation times.**

16. For collections whose results will be published, outline the plans for tabulation and publication.

No formal scientific publications based on these collections are planned at this time. The data will be used for fisheries management and protected species reports, FEP amendments, and evaluations by NMFS and the Council. However, subsequent use of the data collected over a series of years may include scientific papers and publications.

17. If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons why display would be inappropriate.

The expiration date will be shown on the report forms used under this collection.

18. Explain each exception to the certification statement.

There are no exceptions.

B. COLLECTIONS OF INFORMATION EMPLOYING STATISTICAL METHODS

This collection does not employ statistical methods.

Paperwork Reduction Act Information

Public reporting burden for this collection is estimated to vary from 5 minutes to 2 hours per response, with an average of about 35 minutes, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Regional Administrator, Pacific Islands Regional Office, National Marine Fisheries Service, 1845 Wasp Blvd., Bldg. 176, Honolulu, Hawaii 96818.

This information is being collected to ensure accurate and timely records about the fishing activity of persons licensed to participate in fisheries under Federal regulations in the Pacific Islands Region. This will enable the National Marine Fisheries Service and the Western Pacific Fishery Management Council to (a) determine how those persons would be affected by changes in management; (b) ensure that they are informed about prospective changes in fishery regulations and the analysis of estimated impacts; and (c) determine whether the objectives of the fishery program are being achieved by monitoring the fishery and evaluating the impacts on stocks and the fishery participants and related businesses. Responses to the collection are required to obtain the benefit of a license for the fishery involved (ref. 50 CFR 665.13 and 665.14). Data provided concerning the activities and business of the respondents are handled as confidential under the Magnuson-Stevens Fishery Conservation and Management Act (Sec. 402(b)). Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.

Vessel Reporting Requirements

The operator of any fishing vessel operating under a Federal Pacific Islands Region longline permit must maintain onboard the vessel an accurate and complete record of catch, effort, and other data on report forms provided by the Regional Administrator, and must record the information on the forms within 24 hours after the completion of each fishing day. Each form must be signed and dated by the fishing vessel operator. The original logbook form must be submitted to the National Marine Fisheries Service within 72 hours of each landing of management unit species. (ref. 50 CFR 665.14)

Submit completed logs to:
NOAA Inouye Regional Center
Attn: NMFS/PIFSC/Fishery Monitoring Branch
1845 Wasp Boulevard, Building 176
Honolulu, Hawaii 96818

INSTRUCTIONS FOR PACIFIC ISLANDS LONGLINE FISHING LOGBOOK - AMERICAN SAMOA

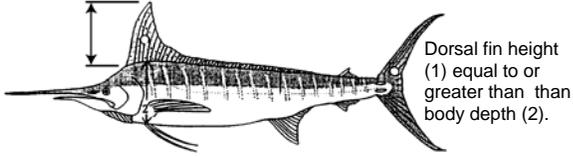

- VESSEL:** Enter name of vessel.
- PERMIT NO.:** Enter Federal longline fishing permit number (vessel's Official Number)
- DATE OF DEPARTURE FROM PORT:** Enter date vessel left port.
- PORT:** Enter port of departure.
- DATE OF RETURN TO PORT:** Enter date vessel returned to port.
- PORT:** Enter port of return.
- SIDE SET:** Check (✓) if gear is set from side of vessel.
- OBSERVER ON BOARD:** Check (✓) if observer on board.
- DATE OF SET:** Enter date (month/day/year) when the longline set began.
- TARGET SPECIES:** Check (✓) which primary species the vessel captain was targeting with the set.
- NO. of HOOKS SET:** Enter total number of hooks set along the entire longline.
- LENGTH OF MAINLINE SET:** Enter length of the mainline set in nautical miles.
- BAIT TYPE:** Enter type of bait used.
- NO. HOOKS/FLOAT:** Enter the minimum and maximum number of hooks used between two floats.
- NO. LIGHT STICKS:** Enter total number of light sticks used along the longline in the set.
- BEGIN SET - Time:** Enter time (using 24 hour clock - Local Time) when setting operation began.
- Position:** Enter latitude and longitude at the beginning of the longline set. Use degree ° and minute ' ; circle N for north and S for south latitude; W for west and E for east longitude, as appropriate.
- END SET - Time:** Enter time (using 24 hour clock - Local Time) when setting of the longline gear was completed.
- Position:** Enter latitude and longitude at the end of the setting operation. Use degree ° and minute ' ; circle N for north and S for south latitude; W for west and E for east longitude, as appropriate.
- DATE OF HAUL:** Enter date (month/day/year) when vessel began to haul in the longline gear.
- BEGIN HAUL - Time:** Enter time (using 24 hour clock - Local Time) when hauling of the longline gear began.
- Position:** Enter latitude and longitude at the beginning of the hauling operation. Use degree ° and minute ' ; circle N for north and S for south latitude; W for west and E for east longitude, as appropriate.
- END HAUL - Time:** Enter time (using 24 hour clock - Local Time) when all longline gear was back on board the vessel.
- Position:** Enter latitude and longitude at the end of the longline gear hauling operation. Use degree ° and minute ' ; circle N for north and S for south latitude; W for west and E for east longitude, as appropriate.
- NUMBER OF HOOKS LOST:** Enter number of hooks lost upon retrieval.
- PELAGIC SPECIES:** Enter the numbers Kept and Released (not kept) for each pelagic species. Note: No tally column is provided in this log sheet. Please enter only the numbers of fish Kept or Released (not kept).
- PROTECTED SPECIES:** Enter the numbers of protected species released uninjured, injured, or dead.
Note: Some species, including the Indo West Pacific Scalloped Hammerhead shark, are listed under the Endangered Species Act (ESA) as distinct population segments that are similar in appearance to other sub-populations that are not ESA-listed. NMFS regulations at 50 CFR 665.14 require that you report all catch and effort. If you are unsure of the species identification, you should record your best judgment and explain any uncertainty in remarks on the back of the form.
- VESSEL CAPTAIN/ OPERATOR:** Print name and enter signature of the captain/operator.
- CML:** Enter Commercial Marine License.
- DATE:** Enter date (month/day/year) when the log sheet was completed and signed by the vessel captain/operator.

WESTERN PACIFIC PELAGIC MANAGEMENT UNIT SPECIES - AMERICAN SAMOA

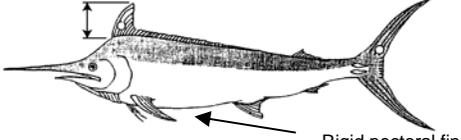

(1) Blue marlin (Sa'ula oso)

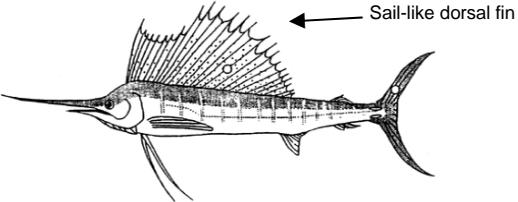

(2) Striped marlin (Saula)

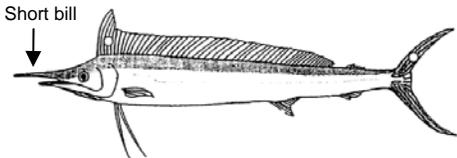

(3) Black marlin (Saula oso)

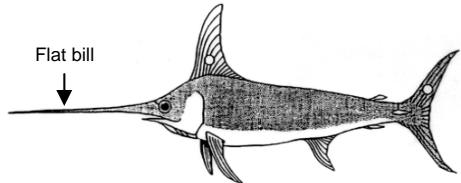

(4) Sailfish (Saula lele)

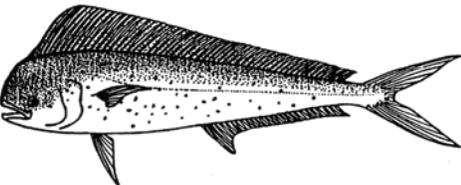

(5) Short-nosed spearfish (Saula gutu puu)

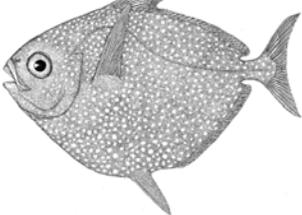

(6) Swordfish (Sa'ula malie)

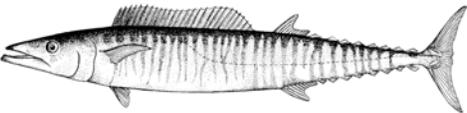

(11) Mahimahi (Masimasi)

(12) Moonfish (Koko)

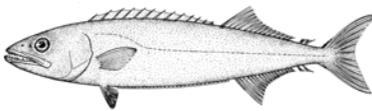

(13) Wahoo (Pa'ala)

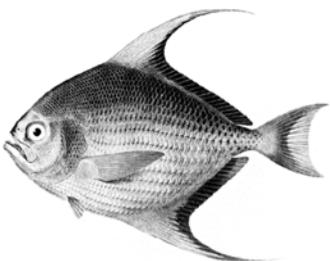

(20) Oilfish (Palu talatala)

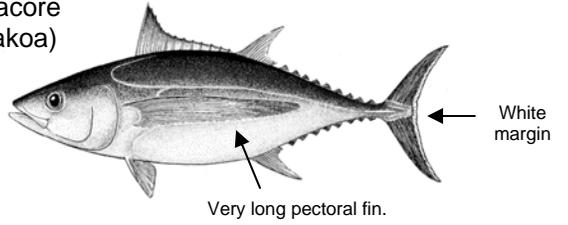

Dark brown coloration.

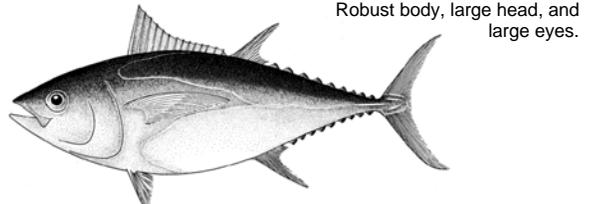

(21) Pomfret (Manifi moana)

(15) Albacore (Apakoa)

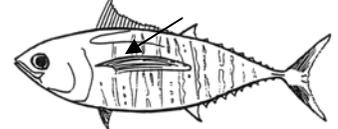

(16) Bigeye tuna (To'u'o)

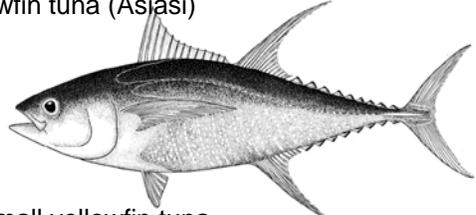

Small bigeye tuna

Bars spaced unevenly with no angles. Fewer bars than in yellowfin.

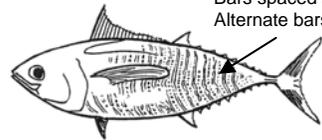

(17) Yellowfin tuna (Asiasi)

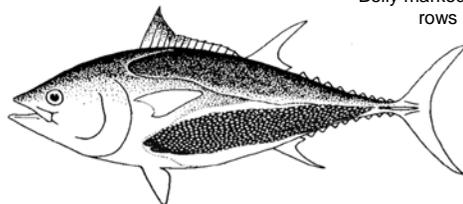

Small yellowfin tuna

Bars spaced evenly and angled. Alternate bars are dotted.

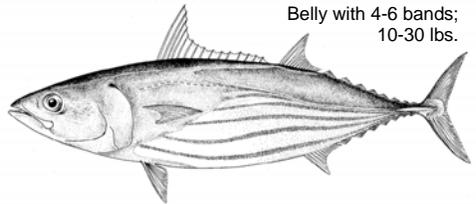

(19) Northern bluefin tuna (Tuna moana)

Belly marked by faint traverse rows of lines and dots.

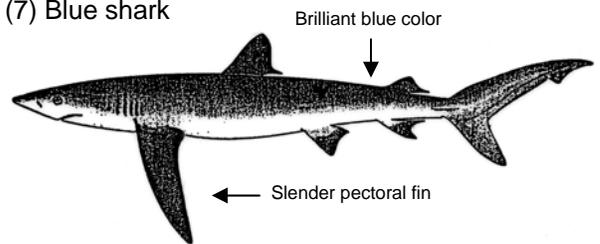

(22) Skipjack tuna (Atu)

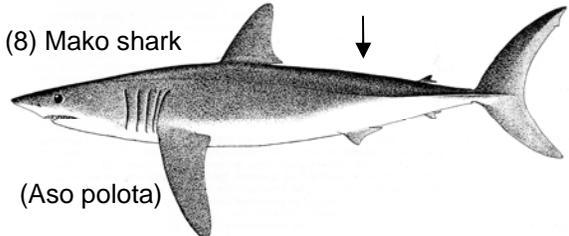

Belly with 4-6 bands; 10-30 lbs.

(7) Blue shark

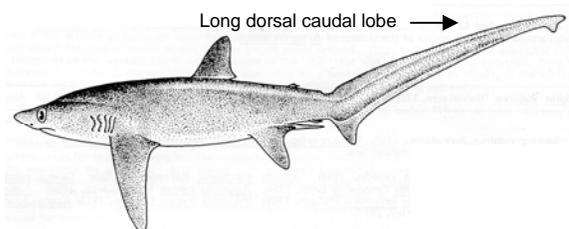

(8) Mako shark

(Aso polota)

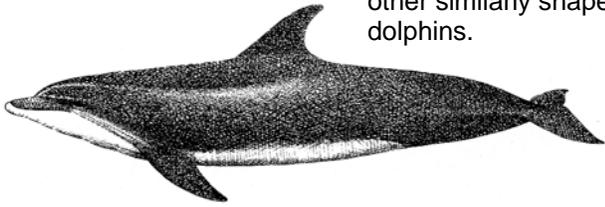

(9) Thresher shark

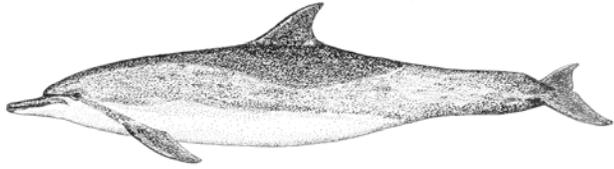

PACIFIC ISLANDS PROTECTED SPECIES – AMERICAN SAMOA

DOLPHINS (Mumua)
(70) Bottle-nose dolphin

Round-shaped body when compared with other similarly shaped dolphins.

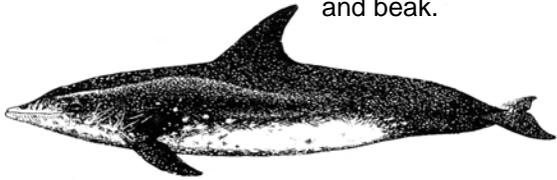

(71) Spinner dolphin

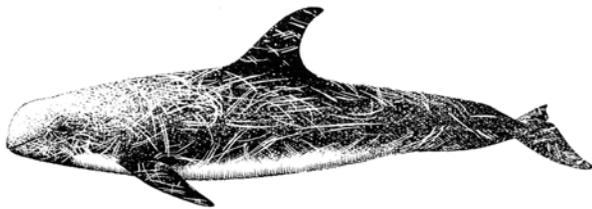

(76) Rough-toothed dolphin

“Steno”; no distinct break between the forehead and beak.

(68) Risso’s dolphin

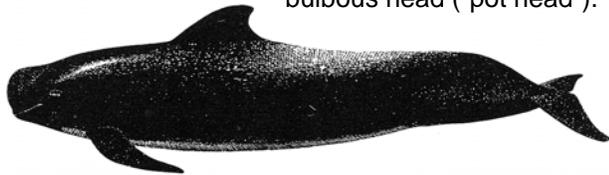

Distinct melon-shaped forehead; no beak; mature animals often scarred over much of their backs.

WHALES

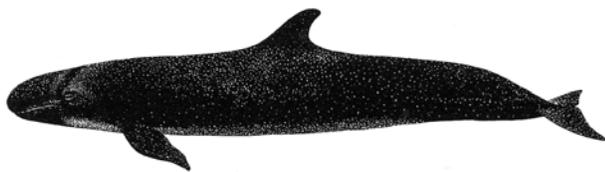

(67) Pilot whale

Large black dolphin; rounded bulbous head (“pot head”).

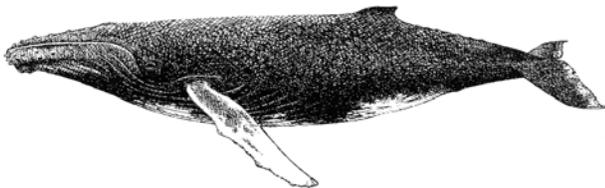

(52) False killer whale

Large black dolphin; head is bullet-shaped.

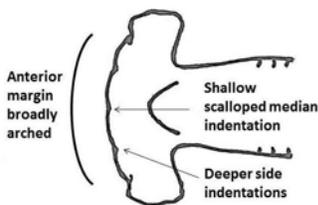

(66) Humpback whale (Tafola)

Long flippers (about 1/3 of body length).

SHARKS

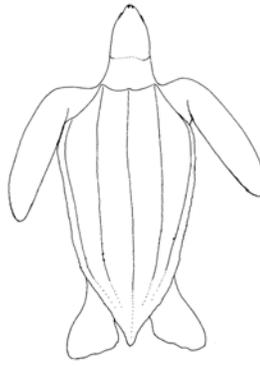

(77) Scalloped Hammerhead Shark (mataitaliga)

TURTLES

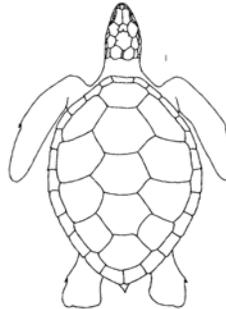

(54) Leatherback (softshell) (Tuaosi)

Black leathery shell with distinct ridges along the back; often has white spots on flippers and underside; largest sea turtle (4-6 ft).

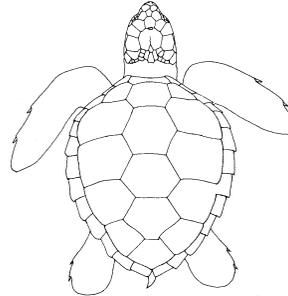

(53) Green turtle (Laumei meamata)

Dark brown to olive with lighter stripes and spots; head small in comparison to body size; blunt beak; only sea turtle with serrated jaw.

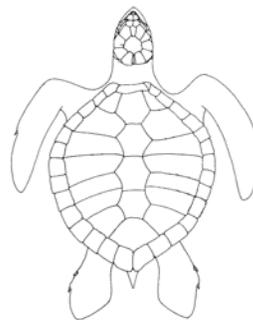

(60) Loggerhead turtle (Ululaau)

Reddish-brown shell and flippers; head large in relation to body.

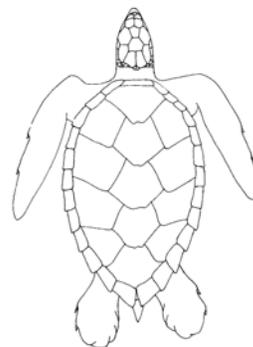

(59) Olive ridley turtle (Tuaoso)

Slate gray to olive brown; width of shell usually equal to or greater than length.

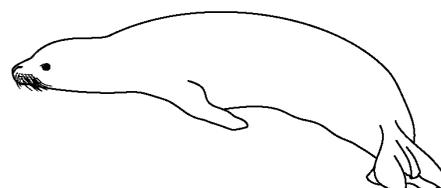

(64) Hawksbill turtle (Laumei faiuga)

Elongated shell often with overlapping scales; usually dark brown with yellow streaks and spots (“tortoise-shell”); head relatively small with long neck; long and narrow hawk-like beak.

(51) Monk seal

Light brown to silver gray in coloration; 3 - 8 ft in length; 150 - 600 lbs.

PACIFIC ISLANDS PELAGIC FISHERIES LONGLINE FISHING LOGBOOK

NAME OF VESSEL _____

PERMIT NUMBER _____

TO

Paperwork Reduction Act Information

Public reporting burden for this collection is estimated to vary from 5 minutes to 2 hours per response, with an average of about 35 minutes, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Regional Administrator, National Marine Fisheries Service, Pacific Islands Region, 1845 Wasp Blvd., Bldg. 176, Honolulu, Hawaii 96818.

This information is being collected to ensure accurate and timely records about the fishing activity of persons licensed to participate in fisheries under Federal regulations in the Pacific Islands Region. This will enable the National Marine Fisheries Service and the Western Pacific Fishery Management Council to (a) determine how those persons would be affected by changes in management; (b) ensure that they are informed about prospective changes in fishery regulations and the analysis of estimated impacts; and (c) determine whether the objectives of the fishery program are being achieved by monitoring the fishery and evaluating the impacts on stocks and the fishery participants and related businesses. Responses to the collection are required to obtain the benefit of a license for the fishery involved (ref. 50 CFR 665.13 and 665.14). Data provided concerning the activities and business of the respondents are handled as confidential under the Magnuson-Stevens Fishery Conservation and Management Act (Sec. 402(b)). Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.

Vessel Reporting Requirements

The operator of any fishing vessel operating under a Federal Pacific Islands Region longline permit must maintain onboard the vessel an accurate and complete record of catch, effort, and other data on report forms provided by the Regional Administrator, and must record the information on the forms within 24 hours after the completion of each fishing day. Each form must be signed and dated by the fishing vessel operator. The original logbook form must be submitted to the National Marine Fisheries Service within 72 hours of each landing of management unit species. (ref. 50 CFR 665.14)

Mail completed logs to:
NOAA Inouye Regional Center
Attn: NMFS/PIFSC/Fishery Monitoring Branch
1845 Wasp Boulevard, Building 176
Honolulu, Hawaii 96818

For additional logbooks call: (808) 725-5325

INSTRUCTIONS FOR PACIFIC ISLANDS LONGLINE FISHING LOGBOOK

- VESSEL:** Enter name of vessel.
- PERMIT NO.:** Enter Federal longline fishing permit number (vessel's Official No.)
- DATE OF DEPARTURE FROM PORT:** Enter date vessel left port.
- PORT:** Enter port of departure.
- DATE OF RETURN TO PORT:** Enter date vessel returned to port.
- PORT:** Enter port of return.
- SIDE SET:** Check (✓) if gear is set from side of vessel.
- OBSERVER ON BOARD:** Check (✓) if observer on board.
- DATE OF SET:** Enter date (month/day/year) when the longline set began.
- TARGET SPECIES:** Check (✓) which primary species the vessel captain was targeting with the set.
- NO. of HOOKS SET:** Enter total number of hooks set along the entire longline.
- LENGTH OF MAINLINE SET:** Enter length of the mainline set in nautical miles.
- BAIT TYPE:** Enter type of bait used.
- NO. HOOKS/FLOAT:** Enter the minimum and maximum number of hooks used between two floats.
- NO. LIGHT STICKS:** Enter total number of light sticks used along the longline in the set.
- BEGIN SET - Time:** Enter time (using 24 hour clock - Local Time) when setting operation began.
- Position:** Enter latitude and longitude at the beginning of the longline set. Use degree ° and minute ' ; circle N for north and S for south latitude; W for west and E for east longitude, as appropriate.
- END SET - Time:** Enter time (using 24 hour clock - Local Time) when setting of the longline gear was completed.
- Position:** Enter latitude and longitude at the end of the setting operation. Use degree ° and minute ' ; circle N for north and S for south latitude; W for west and E for east longitude, as appropriate.
- DATE OF HAUL:** Enter date (month/day/year) when vessel began to haul in the longline gear.
- BEGIN HAUL - Time:** Enter time (using 24 hour clock - Local Time) when hauling of the longline gear began.
- Position:** Enter latitude and longitude at the beginning of the hauling operation. Use degree ° and minute ' ; circle N for north and S for south latitude; W for west and E for east longitude, as appropriate.
- END HAUL - Time:** Enter time (using 24 hour clock - Local Time) when all longline gear was back on board the vessel.
- Position:** Enter latitude and longitude at the end of the longline gear hauling operation. Use degree ° and minute ' ; circle N for north and S for south latitude; W for west and E for east longitude, as appropriate.
- NUMBER OF HOOKS LOST:** Enter number of hooks lost upon retrieval.
- PELAGIC SPECIES:** Enter the numbers Kept and Released (not kept) for each pelagic species. Note: No tally column is provided in this logsheet. Please enter only the numbers of fish Kept or Released (not kept).
- PROTECTED SPECIES:** Enter the numbers of protected species released uninjured, injured, or dead.
Note: Some species, including the Indo West Pacific Scalloped Hammerhead shark, are listed under the Endangered Species Act (ESA) as distinct population segments that are similar in appearance to other sub-populations that are not ESA-listed. Paperwork Reduction Act Information

Public reporting burden for this collection is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Regional Administrator, Pacific Islands Regional Office, National Marine Fisheries Service, 1845 Wasp Blvd. Bldg. 176, Honolulu, Hawaii 96818.

This information is being collected to provide information needed by NMFS to regulate and monitor bottomfish management unit species under the Fishery Ecosystem Plan (FEP) for the Mariana Archipelago and to evaluate the effectiveness of management by assessing the status of stocks and the status of the fisheries. The information will provide a basis for determining whether changes in management are needed to sustain the productivity of the stocks or to respond to interactions between fishing vessels and protected species and to address economic problems in the fishery. The information also is used to provide a basis for evaluating the magnitude and distribution of impacts resulting from changes to the regulations. Responses to the collection are required under 50 CFR 665.14. Propriety data provided concerning the vessel and/or business of the respondents are handled as confidential under the Magnuson-Stevens Fishery Conservation and Management Act (Sec. 402(b)). Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.

Vessel Reporting Requirements

The operator of any fishing vessel operating under a Federal Pacific Islands Region bottomfish permit must maintain onboard the vessel an accurate and complete record of catch, effort, and other data on report forms provided by the Regional Administrator, and must record the information on the forms within 24 hours after the completion of each fishing day. Each form must be signed and dated by the fishing vessel operator. The original logbook form must be submitted to the National Marine Fisheries Service within 72 hours of each landing of management unit species. (ref. 50 CFR 665.14)

PACIFIC ISLAND CRUSTACEAN DAILY CATCH REPORT LOG

INSTRUCTION PAGE

General Trip Information

Name of Vessel: name of fishing vessel.

Crustacean Permit No.: Pacific Islands Crustacean Permit Number.

Number of Crew: number of crewmen onboard.

Start Latitude: input start latitude. Use decimal format from GPS. Circle N or S.

Start Longitude: input start longitude. Use decimal format from GPS. Circle E or W.

Wave Height: check box that best approximates the fishing conditions.

Depth of set (fathoms): starting depth in fathoms.

Sea Surface Temp.: sea surface temp in Fahrenheit.

Wind Speed (kts): wind speed in knots.

Bait type: list bait used.

of Trap strings: If setting traps in strings record the total number of strings of traps used.

Date Gear Set: set date of gear, mm/dd/yyyy.

Time Begin Set (24 hr clock): time the setting of gear began, 24 hour clock (XXXX).

Traps Set: total number of traps set on this fishing day.

Date Gear Haul: haul date of gear, mm/dd/yyyy.

Time End Haul (24 hr clock): time at the completion of gear haul, 24 hour clock (XXXX).

Traps Haul: total number of traps hauled on this fishing day.

traps Lost: number of traps lost. # traps set - # traps haul = # traps lost.

Catch Information

IMPORTANT NOTE:

Species: input your catch information by species. Write in any species caught that is not listed on the form.

Number kept: Optional for shrimp catch. List number kept.

Pounds kept: **Mandatory**. List pounds kept.

Number discarded: Optional for shrimp catch. List estimated number discarded.

Pounds discarded: **Mandatory**. List estimated pounds discarded.

Protected Species Information

Fill in appropriate # of protected species as applicable. Identify/circle species.

Note: Some species, including the Indo West Pacific Scalloped Hammerhead shark, are listed under the Endangered Species Act (ESA) as distinct population segments that are similar in appearance to other sub-populations that are not ESA-listed. NMFS regulations at 50 CFR 665.14 require that you report all catch and effort. If you are unsure of the species identification, you should record your best judgment and explain any uncertainty in remarks on the back of the form.

Date: date of form completion.

Print Name: print Captain name.

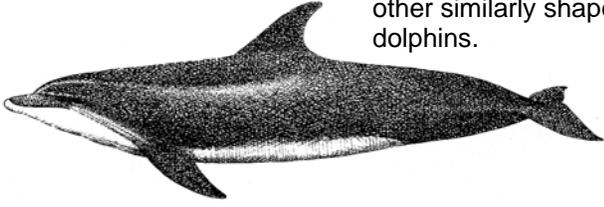

Signature: Captain's Signature.

PACIFIC ISLANDS PROTECTED SPECIES

DOLPHINS

(70) Bottle-nose dolphin

Round-shaped body when compared with other similarly shaped dolphins.

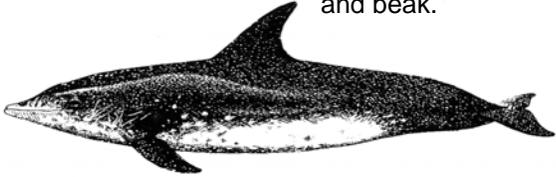

(71) Spinner dolphin

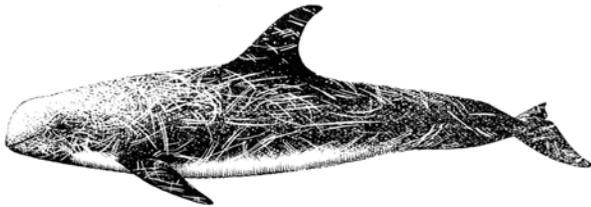

(76) Rough-toothed dolphin

“Steno”; no distinct break between the forehead and beak.

(68) Risso’s dolphin

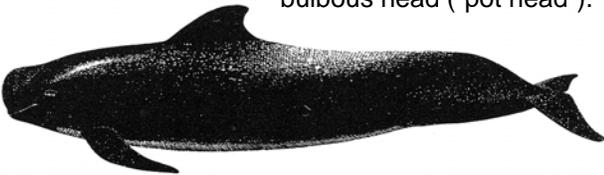

Distinct melon-shaped forehead; no beak; mature animals often scarred over much of their backs.

WHALES

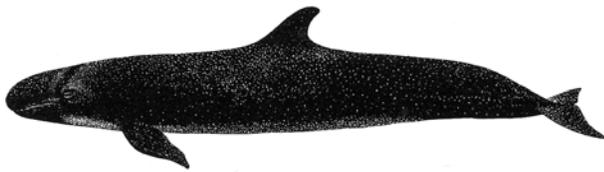

(67) Pilot whale

Large black dolphin; rounded bulbous head (“pot head”).

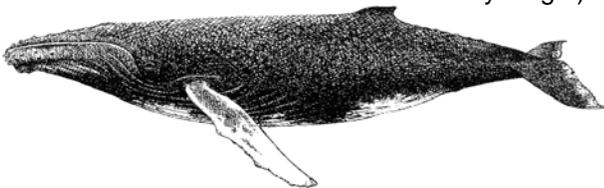

(52) False killer whale

Large black dolphin; head is bullet-shaped.

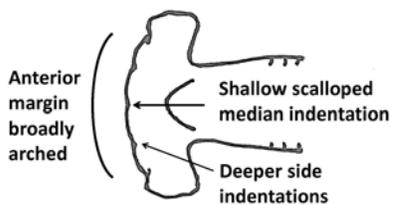

(66) Humpback whale

Long flippers (about 1/3 of body length).

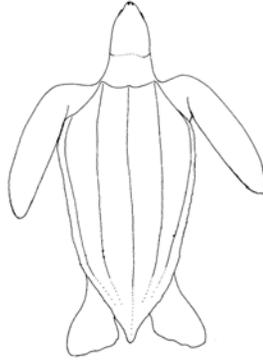

SHARKS

(77) Scalloped Hammerhead Shark

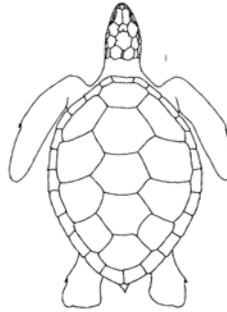

TURTLES

(54) Leatherback (softshell)

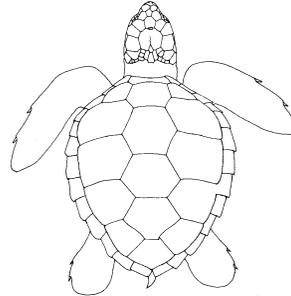

Black leathery shell with distinct ridges along the back; often has white spots on flippers and underside; largest sea turtle (4-6 ft).

(53) Green turtle

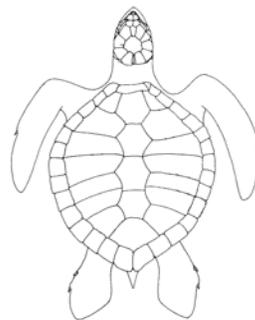

Dark brown to olive with lighter stripes and spots; head small in comparison to body size; blunt beak; only sea turtle with serrated jaw.

(60) Loggerhead turtle

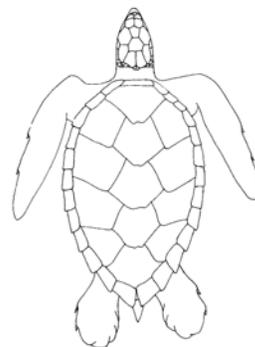

Reddish-brown shell and flippers; head large in relation to body.

(59) Olive ridley turtle

Slate gray to olive brown; width of shell usually equal to or greater than length.

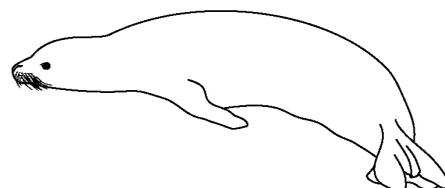

(64) Hawksbill turtle

Elongated shell often with overlapping scales; usually dark brown with yellow streaks and spots (“tortoise-shell”); head relatively small with long neck; long and narrow hawk-like beak.

(51) Monk seal

Light brown to silver gray in coloration; 3 - 8 ft in length; 150 - 600 lbs.

Paperwork Reduction Act Information

Public reporting burden for this collection is estimated at 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Regional Administrator, NMFS Pacific Islands Region, Pacific Islands Regional Office, National Marine Fisheries Service, 1845 Wasp Blvd. Bldg. 176, Honolulu, Hawaii 96818.

This information is being collected to ensure accurate and timely records about the fishing activity of persons licensed to participate in fisheries under Federal regulations in the Pacific Islands region. This will enable the National Marine Fisheries Service and the Western Pacific Fishery Management Council to (a) determine how those persons would be affected by changes in management; (b) ensure that they are informed about prospective changes in fishery regulations and the analysis of estimated impacts; and (c) determine whether the objectives of the fishery program are being achieved by monitoring the fishery and evaluating the impacts on stocks, the fishery participants, and related businesses. Responses to the collection are required to obtain the benefit of a license for the fishery involved (ref. 50 CFR 665.13 and 665.14). Data provided concerning the activities and business of the respondents are handled as confidential under the Magnuson-Stevens Fishery Conservation and Management Act (Sec. 402(b)). Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.

Vessel Reporting Requirements

The operator of any fishing vessel operating under a Federal Pacific Islands Region lobster or shrimp permit must submit an accurate and complete report of sales to the National Marine Fisheries Service within 72 hours of each landing of management unit species, except for fishing in the Pacific Remote Islands Areas, where it is required that the forms be submitted to the Regional Administrator within 30 days of the end of each fishing trip. Each form must be signed and dated by the fishing vessel operator. The original form must be submitted (ref. 50 CFR 665.14)

Submit completed logs to:
NOAA Inouye Regional Center
Attn: NMFS/PIFSC/Fishery Monitoring Branch
1845 Wasp Boulevard, Building 176
Honolulu, Hawaii 96818

For questions or additional forms call: (808) 725-5326

INSTRUCTIONS FOR COMPLETING THE WESTERN PACIFIC CRUSTACEAN SALES REPORT

VESSEL NAME: Name of fishing vessel.

PERMIT NUMBER: Western Pacific Crustacean Fishery Permit number.

NAME OF FIRST LEVEL BUYER: Name of the first level buyer, i.e. initial buyer of the product from the permit holder.

First level buyer means:(1) The first person who purchases, with the intention to resell, management unit species, or portions thereof, that were harvested by a vessel that holds a permit or is otherwise regulated under crustacean fisheries in subparts B through E of this part (50 CFR 665); or (2) A person who provides recordkeeping, purchase, or sales assistance in the first transaction involving MUS (such as the services provided by a wholesale auction facility).

BUSINESS ADDRESS: Address of first level buyer.

TELEPHONE NUMBER: Business or other contact telephone number of *first level buyer*

FAX NUMBER: FAX number of the first level buyer.

E-MAIL ADDRESS: e-mail address of first level buyer.

ALL LOBSTERS/SHRIMP OFFLOADED TO THIS BUYER: Yes or No.

PORT OF LANDING: Port of vessel return (e.g., Honolulu, Hilo, Kodiak, Los Angeles, etc.).

DATE OF RETURN: Date of vessel return to port.

LOCATION OF OFF-LOAD: Port of off-load (e.g., Honolulu, Hilo, Kodiak, Los Angeles, etc.).

DATE ALL LOBSTERS/SHRIMP OFF-LOADED: Date of completion of offloading.

SALES INFORMATION

Values should be input into the correct column matching the species and product form.

SPECIES: If species is not listed then fill in the species in the "Other (specify)" box.

Sold (circle one) No. or Wt. (lbs): List total number or weight **sold**, circle No. or Wt. to indicate unit of measure.

Not Sold (circle one) No. or Wt. (lbs): List total number or weight **not sold**, circle unit i.e. No. or Wt. to indicate unit of measure.

Value: Total **value** (\$) of the product.

PACKING/WEIGHOUT DOCUMENTATION ATTACHED TO THIS REPORT: Circle Yes or No. If yes, then attach the packing/weighout documentation to this form.

VESSEL CAPTAIN/OPERATOR: Print full name, sign on signature line, date of report completion.

Instructions - PACIFIC ISLANDS DAILY SQUID FISHING LOG

VESSELNAME: Enter name of vessel.

PERMIT NUMBER: Enter squid fishing permit number (vessel's Official Number)

DATE OF DEPARTURE FROM PORT(mm/dd/yyyy): Enter date vessel left port (month/day/year).

DEPARTURE PORT: Enter port of departure.

DATE OF RETURN TO PORT (mm/dd/yyyy): Enter date vessel returned to port (month/day/year).

LANDING PORT: Enter port of return.

OBSERVER ON BOARD: Check (✓) if observer on board.

TARGET SPECIES: Enter the name of the species targeted.

SEA SURFACE TEMP(C): Enter the sea surface temperature in degrees centigrade.

NUMBER OF CREW: Enter the number of crew including the captain.

DATE FISHED-start/end: Enter start and end date (month/day/year) of **daily** fishing activity.

AREA FISHED: Enter name of area fished.

TIME STARTED/ENDED FISHING (24 hour clock): Enter the time (using 24 hour clock - Local Time) the **daily** fishing activity started and ended.

BEGIN FISHING LOCATION: Enter latitude and longitude. Use degree ° and minute ' ; circle N for north or S for south latitude; circle W for west or E for east longitude, as appropriate.

END FISHING LOCATION: Enter latitude and longitude. Use degree ° and minute ' ; circle N for north or S for south latitude; circle W for west or E for east longitude, as appropriate.

DEPTH FISHED DAY(m):
DEPTH FISHED NIGHT(m): Enter the depth (in meters) fished during the day time hours and the night time hours.

NUMBER OF JIG STATIONS FISHED(day/night): Total number of jigging stations fished during the day and total number of jigging stations fished at night.

NUMBER OF HOOKS/JIGS PER STATION(day/night): Enter the number of hooks or jigs used per station during the day and the number of hooks or jigs used per station at night. Circle hooks or jigs as appropriate.

OTHER GEAR USED (describe): Enter description of any other gear used.

CATCH INFORMATION: Number kept + number released = total catch.
Species released = number released alive + number released dead .

NUMBER KEPT: Enter the number Kept for each species. Note: No tally column is provided in this logsheet. Please enter only the numbers of individuals Kept.

ESTIMATED TOTAL WEIGHT KEPT: Estimate to the best of your ability the cumulative weight in pounds or kilograms by species of the associated number listed in the kept column. **Indicate weight measure by circling lb or kg.**

NUMBER RELEASED ALIVE: Enter the numbers released alive by species. Injured organisms that are believed to be able to survive should be included in this count.

NUMBER RELEASED DEAD: Enter the numbers released dead by species. Injured organisms that do not look like they will survive should be included in this count.

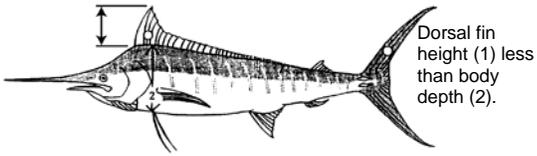

PROTECTED SPECIES INFORMATION: Enter the numbers of protected species released uninjured, injured, or dead. Some species, including the Indo West Pacific Scalloped Hammerhead shark, are listed under the Endangered Species Act (ESA) as distinct population segments that are similar in appearance to other sub-populations that are not ESA-listed. NMFS regulations at 50 CFR 665.14 require that you report all catch and effort. If you are unsure of the species identification, you should record your best judgment and explain any uncertainty in remarks on the back of the form.

VESSEL CAPTAIN/ OPERATOR: Print name and provide signature of the captain/operator.

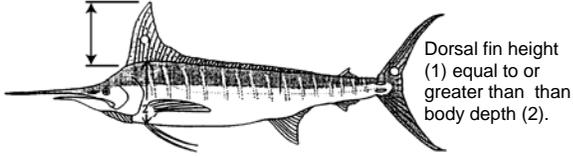

DATE: Enter date (month/day/year) when the log sheet was "completed and signed" by the vessel captain/operator.

PACIFIC ISLANDS PELAGIC MANAGEMENT UNIT SPECIES

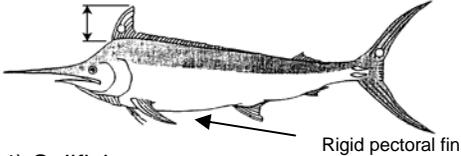

(1) Blue marlin (Kajiki)

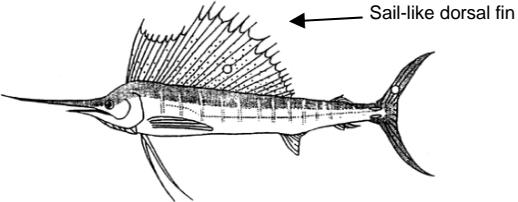

(2) Striped marlin (Nairagi)

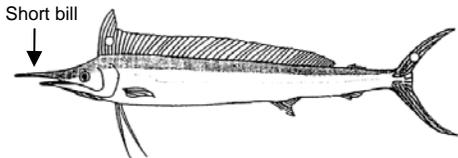

(3) Black marlin (Hida)

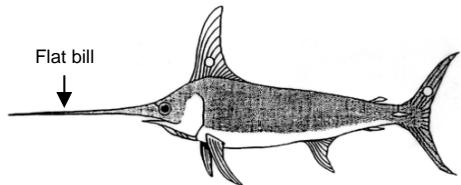

(4) Sailfish

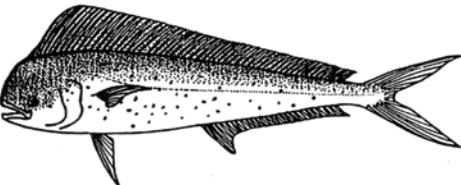

(5) Short-nosed spearfish (Hebi)

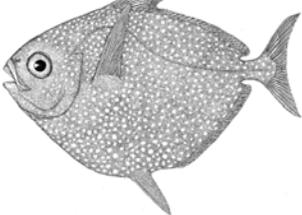

(6) Swordfish (Broadbill)

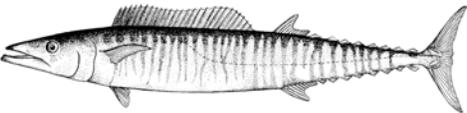

(11) Mahimahi

(12) Moonfish (Opah)

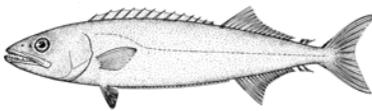

(13) Wahoo (Ono)

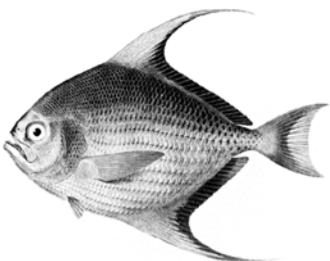

(20) Oilfish (Walu)

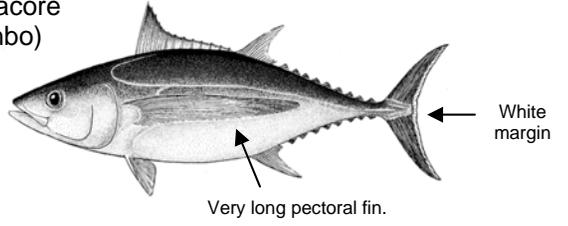

Dark brown coloration.

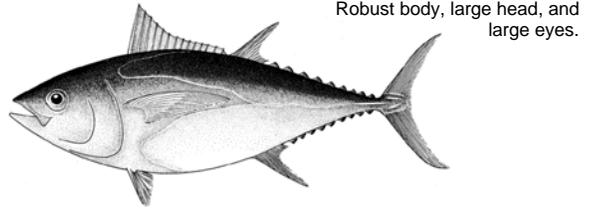

(21) Pomfret (Monchong)

(15) Albacore (Tonbo)

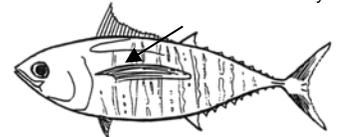

(16) Bigeye tuna

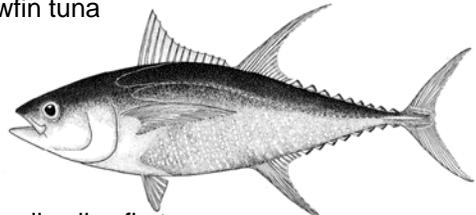

Small bigeye tuna

Bars spaced unevenly with no angles. Fewer bars than in yellowfin.

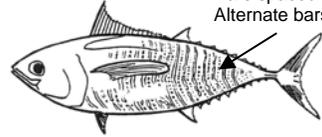

(17) Yellowfin tuna

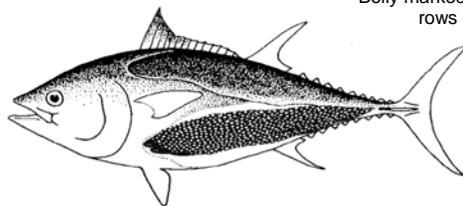

Small yellowfin tuna

Bars spaced evenly and angled. Alternate bars are dotted.

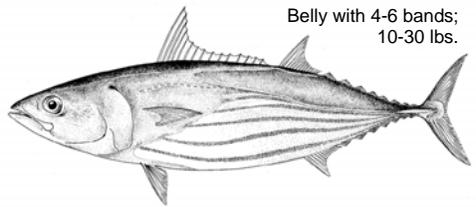

(19) Northern bluefin tuna

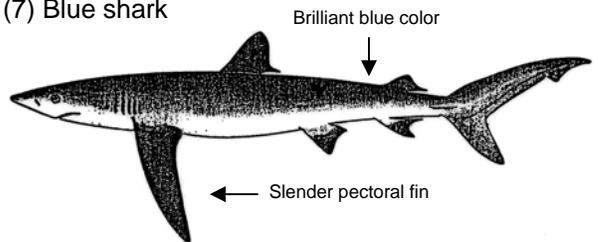

Belly marked by faint traverse rows of lines and dots.

(22) Skipjack tuna (Aku)

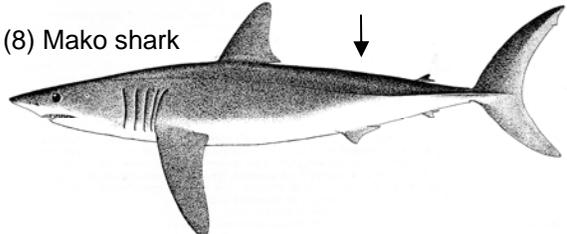

Belly with 4-6 bands; 10-30 lbs.

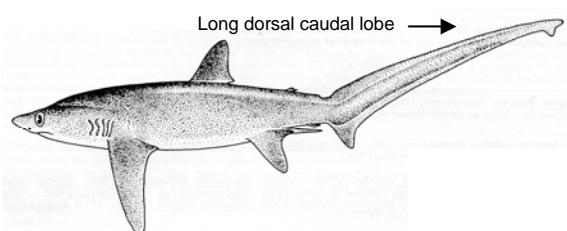

(7) Blue shark

(8) Mako shark

(9) Thresher shark

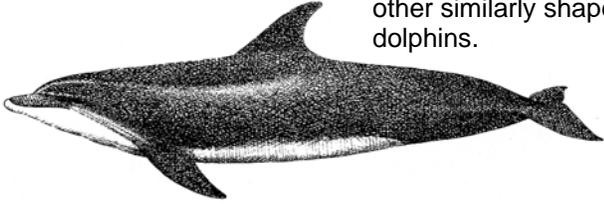

PACIFIC ISLANDS PROTECTED SPECIES

DOLPHINS

(70) Bottle-nose dolphin

Round-shaped body when compared with other similarly shaped dolphins.

Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.

Vessel Reporting Requirement

The operator of any fishing vessel holding a current Pacific Islands Federal precious coral permit must submit an accurate and complete sales report to the National Marine Fisheries Service on a form provided by the Regional Administrator within 72 hours of each landing of management unit species, except for fishing in the Pacific Remote Islands Areas, where it is required that the forms be submitted within 30 days of the end of each fishing trip. The form must be signed and dated by the fishing vessel operator. (ref. 50 CFR 665.14)

Upon request any first level buyer must allow an authorized officer of the National Marine Fisheries Service or designee of the Regional Administrator to access, inspect, and copy all records relating to the harvest, sale, or transfer of any product taken by a vessel that has permits issued under 50 CFR 665.162, 665.262, 665.462, or 665.662.

Submit report to: NOAA Inouye Regional Center (IRC), NMFS/PIFSC/Fishery Monitoring Branch, 1845 Wasp Blvd., Bldg 176, Honolulu, HI 96818. For additional logbooks or information call (808) 725-5326.

INSTRUCTIONS FOR COMPLETING THE WESTERN PACIFIC PRECIOUS CORAL SALES REPORT

Seller Information

Collector/Company name: Individual name (black coral diver), company name of submersible/ROV.

VESSEL NAME: Name of support vessel.

PERMIT NUMBER: Western Pacific Precious Coral Permit number.

DATE OF LANDING: Date of vessel return to port.

PORT OF LANDING: Port of vessel return (e.g., Honolulu, Hilo, Kodiak, Los Angeles, etc.).

Buyer Information

NAME OF BUYER: Name of the first level buyer, i.e. initial buyer of the product from the permit holder. *Fill out separate Sales Form for each buyer.*

BUSINESS ADDRESS: Address of first level buyer.

TELEPHONE: Business or other contact telephone number of *first level buyer*

First level buyer means:(1) The first person who purchases, with the intention to resell, management unit species, or portions thereof, that were harvested by a vessel that holds a permit or is otherwise regulated under precious coral fisheries in subparts B through E of this part (50 CFR 665); or (2) A person who provides recordkeeping, purchase, or sales assistance in the first transaction involving MUS (such as the services provided by a wholesale auction facility).

FAX: FAX number of the first level buyer.

E-MAIL: e-mail address of first level buyer.

SALES INFORMATION

Values should be input into the correct column matching the species and product form.

SPECIES NAME: If species is not listed then fill in the species in the "Other (specify)" box.

NUMBER OF CORAL TREES SOLD: Number of live coral colonies removed from the bottom.

WEIGHT SOLD (lb): List total weight sold in pounds.

REVENUE: Total value (\$) of the product.

DATE OF SALE: Date of product sale.

CAPTAIN/OPERATOR/AGENT: Print full name, sign on signature line, date of report completion.

Submit report to: NOAA Inouye Regional Center (IRC), NMFS/PIFSC/Fishery Monitoring Branch, 1845 Wasp Blvd., Bldg 176, Honolulu, HI 96818. For additional logbooks or information call (808) 725-5326.

PACIFIC ISLANDS PROTECTED SPECIES

DOLPHINS

(70) Bottle-nose dolphin

Round-shaped body when compared with other similarly shaped dolphins.

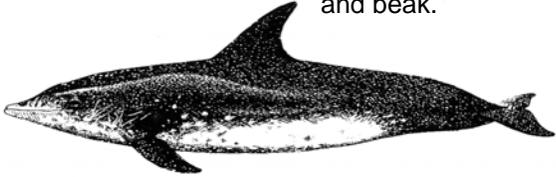

(71) Spinner dolphin

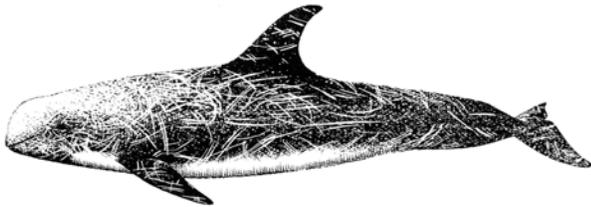

(76) Rough-toothed dolphin

“Steno”; no distinct break between the forehead and beak.

(68) Risso’s dolphin

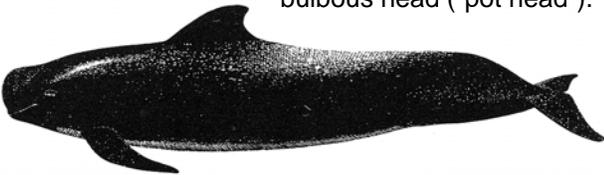

Distinct melon-shaped forehead; no beak; mature animals often scarred over much of their backs.

WHALES

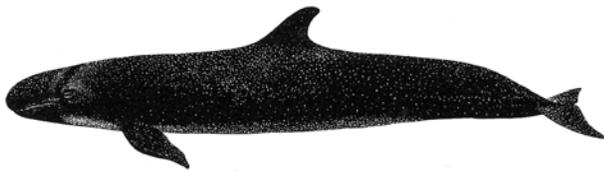

(67) Pilot whale

Large black dolphin; rounded bulbous head (“pot head”).

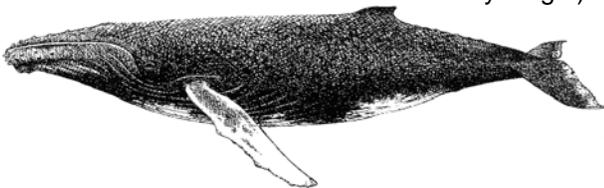

(52) False killer whale

Large black dolphin; head is bullet-shaped.

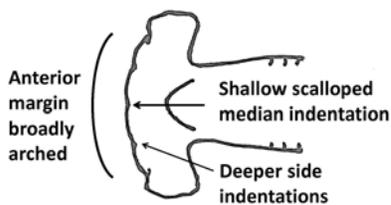

(66) Humpback whale

Long flippers (about 1/3 of body length).

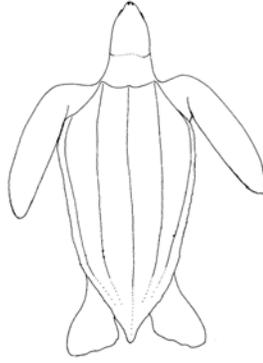

SHARKS

(77) Scalloped Hammerhead Shark

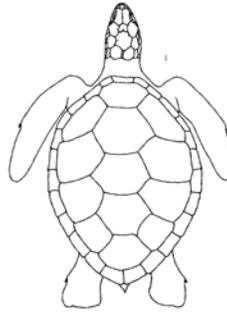

TURTLES

(54) Leatherback (softshell)

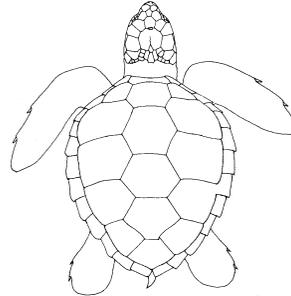

Black leathery shell with distinct ridges along the back; often has white spots on flippers and underside; largest sea turtle (4-6 ft).

(53) Green turtle

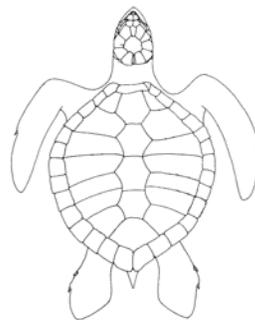

Dark brown to olive with lighter stripes and spots; head small in comparison to body size; blunt beak; only sea turtle with serrated jaw.

(60) Loggerhead turtle

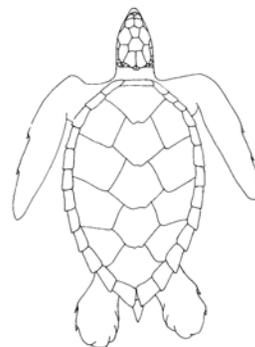

Reddish-brown shell and flippers; head large in relation to body.

(59) Olive ridley turtle

Slate gray to olive brown; width of shell usually equal to or greater than length.

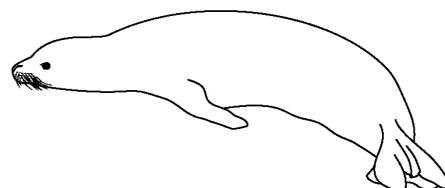

(64) Hawksbill turtle

Elongated shell often with overlapping scales; usually dark brown with yellow streaks and spots (“tortoise-shell”); head relatively small with long neck; long and narrow hawk-like beak.

(51) Monk seal

Light brown to silver gray in coloration; 3 - 8 ft in length; 150 - 600 lbs.

Paperwork Reduction Act Information

Public reporting burden for this collection is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Regional Administrator, Pacific Islands Regional Office, National Marine Fisheries Service, 1845 Wasp Blvd. Bldg. 176, Honolulu, Hawaii 96818.

This information is being collected to provide information needed by NMFS to regulate and monitor bottomfish management unit species under the Fishery Ecosystem Plan (FEP) for the Pacific Remote Island Areas and to evaluate the effectiveness of management by assessing the status of stocks and the status of the fisheries. The information will provide a basis for determining whether changes in management are needed to sustain the productivity of the stocks or to respond to interactions between fishing vessels and protected species and to address economic problems in the fishery. The information is also used to provide a basis for evaluating the magnitude and distribution of impacts resulting from changes to the regulations. Responses to the collection are required under 50 CFR 665.14. Propriety data provided concerning the vessel and/or business of the respondents are handled as confidential under the Magnuson-Stevens Fishery Conservation and Management Act (Sec. 402(b)). Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.

Pacific Remote Island Areas (PRIA) include Howland and Baker, Jarvis, Wake, Kingman, Palmyra, and Johnston.

Vessel Reporting Requirements

The operator of any fishing vessel operating under a Federal Pacific Islands Region bottomfish permit must maintain onboard the vessel an accurate and complete record of catch, effort, and other data on report forms provided by the Regional Administrator, and must record the information on the forms within 24 hours after the completion of each fishing day. Each form must be signed and dated by the fishing vessel operator. The original logbook form must be submitted to the National Marine Fisheries Service within 72 hours of each landing of management unit species, except for fishing in the Pacific Remote Island Areas, where it is required that the forms be submitted to the Regional Administrator within 30 days of the end of each fishing trip. (ref. 50 CFR 665.14)

Submit completed logs to:
NOAA Inouye Regional Center
Attn: NMFS/PIFSC/Fishery Monitoring Branch
1845 Wasp Boulevard, Building 176
Honolulu, Hawaii 96818

For additional logbooks call: (808) 725-5326

Signature: _____ Date: _____

INSTRUCTIONS FOR PRIA DAILY BOTTOMFISH FISHING LOGBOOK FORM

- VESSEL:** Enter name of vessel.
- PERMIT NUMBER:** Enter Federal PRIA Bottomfish fishing permit number.
- DATE OF DEPARTURE FROM PORT/PORT:** Enter date vessel left port. Enter port of departure.
- DATE OF RETURN TO PORT/PORT:** Enter date vessel returned to port. Enter port of return.
- OBSERVER ON BOARD:** Check (✓) if observer is on board for this trip.
- FISHING DATE:** Enter date (month/day/year) of fishing.
- NUM. OF LINES:** Enter number of fishing lines/line haulers.
- NUM. of HOOKS/LINE:** Enter typical number of hooks on each fishing line/rig.
- FISHING AREA/BANK:** Enter name of fishing area/bank.
- FISHING LOCATION:** Enter latitude and longitude of the fishing area/bank. Use degree ° and minute ‘; circle N for north or S for south latitude; circle W for west or E for east longitude, as appropriate.
- HOURS FISHED:** Enter the total number of hours fished.
- BEGIN TIME:** Enter time (using 24 hour clock - Local Time) of start of fishing.
- END TIME:** Enter time (using 24 hour clock - Local Time) of end of fishing.
- ANCHOR/DRIFT:** Circle the major type of bottomfishing activity whether anchored or drifting.
- FISHING DEPTH RANGE (fathom):** Enter the depth of fishing in fathoms. If the depth varies while using a drift method of fishing then the range of depths fished should be entered.
- WIND SPEED(knots) /DIRECTION:** Enter the estimated wind speed in knots. Enter the estimated wind direction-E, NE, N, NW, W, SW, S, SE.
- WAVE HEIGHT (feet):** Enter the estimated wave height in feet.
- CURRENT SPEED(knots)/DIRECTION:** Enter the estimated current speed in knots. Enter the estimated current direction- E, NE, N, NW, W, SW, S, SE.
- BAIT TYPE:** Enter the type(s) of bait used.
- CHUM USED:** Circle ‘Yes’ if chum was used and ‘No’ if chum was not used.
- BOTTOMFISH SPECIES CATCH information:** Enter the total Pounds Kept, Number Kept, and Number Release (*dead/alive*) by species for all fish caught. If the species is not listed write the species name in the OTHER(specify) box and fill in the required information.
- Additional information must be filled in when using a gear type other than bottomfish gear. Enter date of fishing, specify type of gear used, number of lines/gear, fishing area/bank, fishing location, hours fished, begin time, and end time. Catch should be listed in the “CATCH FROM OTHER METHODS USED” section of the logbook page. Catch information instructions are identical to those required for the bottomfish species (see above).
- INFORMATION ON OTHER FISHING METHODS:**
- PROTECTED SPECIES:** Enter the numbers of protected species released uninjured, injured, or dead.
- Note:** Some species, including the Indo West Pacific Scalloped Hammerhead shark, are listed under the Endangered Species Act (ESA) as distinct population segments that are similar in appearance to other sub-populations that are not ESA-listed. NMFS regulations at 50 CFR 665.14 require that you report all catch and effort. If you are unsure of the species identification, you should record your best judgment and explain any uncertainty in remarks on the back of the form.
- VESSEL CAPTAIN/ OPERATOR/DATE:** Print and sign name of the captain/operator. Enter date (month/day/year) when the log sheet was completed by the vessel captain/operator.

COMMONLY CAUGHT PRIA BOTTOMFISH SPECIES
 (Some Chamorro and Carolinian names in parentheses)

Snappers (Buninas, Moos)

ONAGA
 (Buninas agaga, Taighlupegh)
Etelis coruscans

EHU
 (Buninas)
Etelis carbunculus

LEHI
 (Buninas, Marõöbw)
Aphareus rutilans

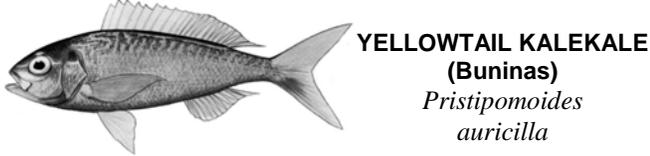

OPAKAPAKA
 (Buninas)
Pristipomoides filamentosus

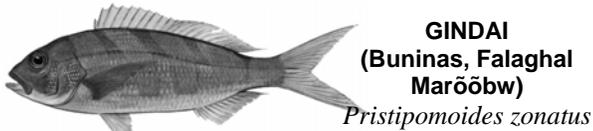

YELLOWEYE OPAKAPAKA
 (Buninas)
Pristipomoides flavipinnis

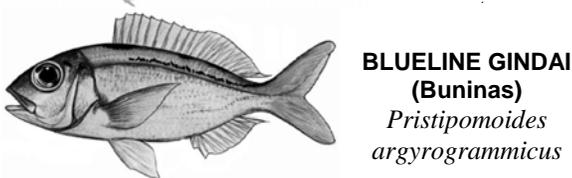

KALEKALE
 (Buninas)
Pristipomoides sieboldii

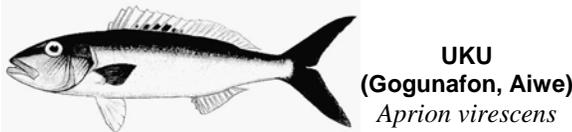

YELLOWTAIL KALEKALE
 (Buninas)
Pristipomoides auricilla

GINDAI
 (Buninas, Falaghal Marõöbw)
Pristipomoides zonatus

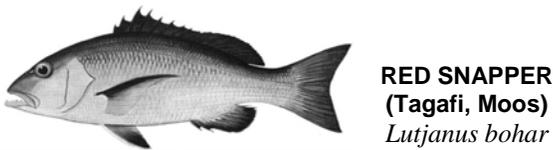

BLUELINE GINDAI
 (Buninas)
Pristipomoides argyrogrammicus

UKU
 (Gogunafon, Aiwe)
Aprion virescens

TA'APE BLUELINE SNAPPER
 (Funai, Sas)
Lutjanus kasmira

RED SNAPPER
 (Tagafi, Moos)
Lutjanus bohar

Other Species

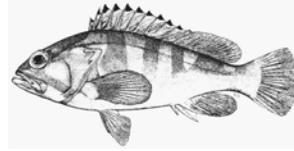

DOGTOOTH TUNA
 (White tuna, Ayúúl)
Gymnosarda unicolor

Paperwork Reduction Act Information

Public reporting burden for this collection is estimated at 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Regional Administrator, NMFS Pacific Islands Regional Office, 1845 Wasp Blvd. Bldg. 176, Honolulu, Hawaii 96818.

This information is being collected to ensure accurate and timely records about the fishing activity of persons licensed to participate in fisheries under Federal regulations in the Pacific Islands region. This will enable the National Marine Fisheries Service and the Western Pacific Fishery Management Council to (a) determine how those persons would be affected by changes in management; (b) ensure that they are informed about prospective changes in fishery regulations and the analysis of estimated impacts; and (c) determine whether the objectives of the fishery program are being achieved by monitoring the fishery and evaluating the impacts on stocks, the fishery participants, and related businesses. Responses to the collection are required to obtain the benefit of a license for the fishery involved (ref. 50 CFR 665.13). Data provided concerning the activities and business of the respondents are handled as confidential under the Magnuson-Stevens Fishery Conservation and Management Act (Sec. 402(b)). Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.

Pacific Remote Island Areas (PRIA) include Howland and Baker, Jarvis, Wake, Kingman, Palmyra, and Johnston.

Vessel Reporting Requirements

The operator of any fishing vessel operating under a Federal Pacific Islands Region PRIA troll and handline permit must maintain onboard the vessel an accurate and complete record of catch, effort, and other data on report forms provided by the Regional Administrator, and must record the information on the forms within 24 hours after the completion of each fishing day. Each form must be signed and dated by the fishing vessel operator. The original logbook form must be submitted to the National Marine Fisheries Service within 30 days of the end of each fishing trip. (ref. 50 CFR 665.14)

Submit completed logs to:

NOAA Inouye Regional Center
Attn: NMFS/PIFSC/Fishery Monitoring Branch
1845 Wasp Boulevard, Building 176
Honolulu, Hawaii 96818

For additional logbooks call: (808) 725-5326

Instructions for the NMFS PRIA DAILY TROLL AND HANDLINE FISHING LOGBOOK

<u>VESSELNAME:</u>	Enter name of vessel.
<u>PERMIT NUMBER:</u>	Enter Federal WP PRIA Troll and Handline fishing permit number.
<u>DATE OF DEPARTURE FROM PORT:</u>	Enter date vessel left port (month/day/year).
<u>DEPARTURE PORT:</u>	Enter port of departure.
<u>DATE OF RETURN TO PORT:</u>	Enter date vessel returned to port (month/day/year).
<u>RETURN PORT:</u>	Enter port of return.
<u>OBSERVER ON BOARD:</u>	Check (✓) if observer is on board for the trip.
<u>DATE FISHED:</u>	Enter date (month/day/year) of fishing activity.
<u>PRIA (area) FISHED:</u>	Enter name of area fished. If fishing more than a single discrete island or bank in a day use a separate log sheet for each discrete bank or island.
<u>TIME STARTED/ENDED FISHING (24 hour clock):</u>	Enter the time (using 24 hour clock - Local Time) the fishing activity started and ended.
<u>BEGIN FISHING LOCATION:</u>	Enter latitude and longitude. Use degree ° and minute ' ; circle N for north or S for south latitude; circle W for west or E for east longitude, as appropriate.
<u>END FISHING LOCATION:</u>	Enter latitude and longitude. Use degree ° and minute ' ; circle N for north or S for south latitude; circle W for west or E for east longitude, as appropriate.
<u>TARGET SPECIES:</u>	Enter the name of the species of fish targeted.
<u>TOTAL NUMBER OF HOURS FISHED:</u>	Total number of hours fished for the day. May be less than the sum of hours fished by method since some methods may be used simultaneously.
<u>FISHING EFFORT by GEAR:</u>	Enter the number of hours fished using each individual gear type. The sum may be more hours than the total hours fished.
<u>AMOUNT OF GEAR:</u>	Enter the number of lines or amount of gear used for each method.
<u>FISH CATCH INFORMATION:</u>	NUMBER OF FISH KEPT + NUMBER OF FISH RELEASED = TOTAL NUMBER OF CATCH. FISH RELEASED = FISH RELEASED ALIVE + FISH RELEASED DEAD.
<u>NUMBER OF FISH KEPT:</u>	Enter the numbers for Kept for each species. Note: No tally column is provided in this logsheet. Please enter only the numbers of fish Kept.
<u>ESTIMATED TOTAL WEIGHT OF FISH KEPT:</u>	Estimate to the best of your ability the cumulative weight by species of the associated number of fish listed in the kept column.
<u>NUMBER OF FISH RELEASED ALIVE:</u>	Enter the numbers of fish released alive by species. Injured fish that are believed to be able to survive should be included in this count.
<u>NUMBER OF FISH RELEASED DEAD:</u>	Enter the number of fish released dead by species. Injured fish that do not look like they will survive should be included in this count.
<u>PROTECTED SPECIES INFORMATION:</u>	Enter the numbers of protected species released uninjured, injured, or dead. Note: Some species, including the Indo West Pacific Scalloped Hammerhead shark, are listed under the Endangered Species Act (ESA) as distinct population segments that are similar in appearance to other sub-populations that are not ESA-listed. NMFS regulations at 50 CFR 665.14 require that you report all catch and effort. If you are unsure of the species identification, you should record your best judgment and explain any uncertainty in remarks on the back of the form.
<u>VESSEL CAPTAIN/ OPERATOR:</u>	Print name and provide signature of the captain/operator.
<u>DATE:</u>	Enter date (month/day/year) when the log sheet was "completed and signed" by the vessel captain/operator.

NMFS Pacific Islands Region - Pacific Remote Island Area (PRIA)

SHARKS

(77) Scalloped Hammerhead Shark

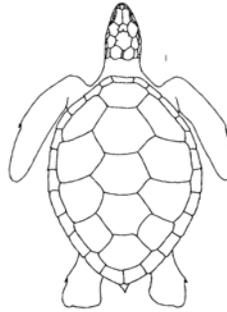

TURTLES

(54) Leatherback (softshell)

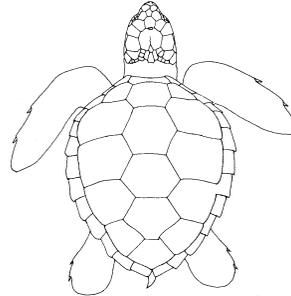

Black leathery shell with distinct ridges along the back; often has white spots on flippers and underside; largest sea turtle (4-6 ft).

(53) Green turtle

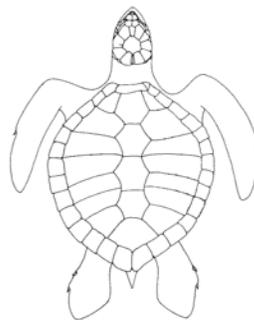

Dark brown to olive with lighter stripes and spots; head small in comparison to body size; blunt beak; only sea turtle with serrated jaw.

(60) Loggerhead turtle

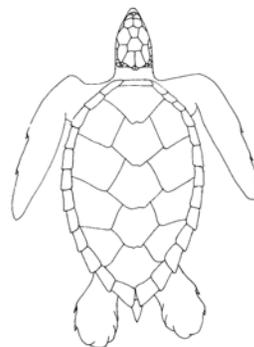

Reddish-brown shell and flippers; head large in relation to body.

(59) Olive ridley turtle

Slate gray to olive brown; width of shell usually equal to or greater than length.

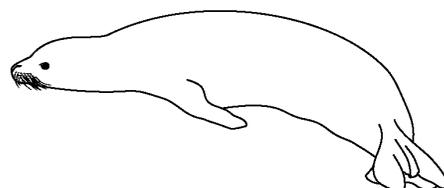

(64) Hawksbill turtle

Elongated shell often with overlapping scales; usually dark brown with yellow streaks and spots (“tortoise-shell”); head relatively small with long neck; long and narrow hawk-like beak.

(51) Monk seal

Light brown to silver gray in coloration; 3 - 8 ft in length; 150 - 600 lbs.

Paperwork Reduction Act Information

Public reporting burden for this collection is estimated to average 10 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Regional Administrator, Pacific Islands Region, NMFS, 1845 Wasp Blvd., Bldg. 176, Honolulu, HI 96818.

This information is being collected to provide information needed by NMFS to regulate and monitor bottomfish management unit species under the Fishery Ecosystem Plan (FEP) for the Mariana Archipelago and to evaluate the effectiveness of management by assessing the status of stocks and the status of the fisheries. The information will provide a basis for determining whether changes in management are needed to sustain the productivity of the stocks or to respond to interactions between fishing vessels and protected species and to address economic problems in the fishery. The information also is used to provide a basis for evaluating the magnitude and distribution of impacts resulting from changes to the regulations. Responses to the collection are required under 50 CFR 665.14. Propriety data provided concerning the vessel and/or business of the respondents are handled as confidential under the Magnuson-Stevens Fishery Conservation and Management Act (Sec. 402(b)). Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.

Vessel Reporting Requirement

The owner of a medium or large fishing vessel (>= 40 ft. length overall) who holds a Commonwealth of Northern Mariana Islands Commercial Bottomfish Permit must submit a complete and accurate trip sales report to the Regional Administrator within 72 hours of landing bottomfish management unit species, signed and dated by the vessel operator. (50 CFR 665.14).

Submit sales report to:
NOAA Inouye Regional Center
NMFS/PIFSC/Fishery Monitoring Branch
1845 Wasp Blvd., Building. 176
Honolulu, HI 96818

**INSTRUCTIONS FOR PACIFIC ISLANDS
BOTTOMFISH TRIP SALES REPORT
(Mariana Islands)**

BOTTOMFISH TRIP SALES REPORT INFORMATION

PERMIT HOLDER: Enter the name of the person (or business entity) holding the Federal Bottomfishing Permit.

PERMIT NUMBER: Enter the Federal Bottomfish Permit Number.

VESSEL NAME: Enter the name of the vessel used for this fishing trip. If vessel has no name, enter its vessel registration numbers.

PORT OF LANDING: Enter the name of the port of return for offloading the catch.

DATE OF SALE: Enter date fish were sold. (If fish were sold on multiple days, enter a date range.)

TRIP START DATE: Enter date vessel left port. (This should be the same date as reported on each of the daily catch and effort logsheets for this trip).

TRIP END DATE: Enter date vessel returned to port. (This should be the same date as reported on each of the daily catch and effort logsheets for this trip).

SPECIES CAUGHT INFORMATION: On the appropriate line for each species sold enter: the Number Sold, Pounds Sold, and Value (dollars). For species not specifically listed on the form, write the species name in one of the "OTHER (specify)" boxes and fill in the required Number, Pounds, and Value information.

TO WHOM SOLD: For each sale enter the name(s) of the company/person to whom the fish were sold. If fish were sold retail to numerous customers enter "retail".

**VESSEL CAPTAIN/
OPERATOR:** Print and sign name of the captain/operator.

COMPLETE ONE TRIP SALES REPORT FOR EACH BOTTOMFISHING TRIP

Dated: March 25, 2015.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Pacific Islands Logbook Family of Forms

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before June 1, 2015.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at Jjessup@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Walter Ikehara, (808) 725-5175 or Walter.Ikehara@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a currently approved information collection.

Fishermen in Federally-managed fisheries in the western Pacific region are required to provide certain information about their fishing activities, catch, and interactions with protected species by submitting reports to National Marine Fisheries Service (NMFS), per 50 CFR part 665. These data are needed to determine the condition of the stocks and whether the current management measures are having the intended effects, to evaluate the benefits and costs of changes in management measures, and to monitor and respond to accidental takes of endangered and threatened species,

including seabirds, sea turtles, and marine mammals.

II. Method of Collection

Respondents have a choice of either electronic or paper forms. Methods of submittal include email of electronic forms, submission via Vessel Monitoring System device or online, and mail and facsimile transmission of paper forms.

III. Data

OMB Control Number: 0648-0214.

Form Number: None.

Type of Review: Regular submission (extension of a currently approved collection).

Affected Public: Businesses or other for-profit organizations; individuals or households.

Estimated Number of Respondents: 280.

Estimated Time per Response: Logbooks and sales reports, 5-35 minutes based on fishery, entry/exit and landing notices, Protected Species Zone entry/exit notices, 5 minutes; landing/offloading notices, 3 minutes.

Estimated Total Annual Burden Hours: 14,867.

Estimated Total Annual Cost to Public: \$1,300 in recordkeeping/reporting costs.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: March 25, 2015.

Sarah Brabson,

NOAA PRA Clearance Officer.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[B-16-2015]

Notification of Proposed Production Activity; Xylem Water Systems USA LLC, Subzone 37D (Centrifugal and Submersible Pumps), Auburn, New York

Xylem Water Systems USA LLC (Xylem), operator of Subzone 37D, submitted a notification of proposed production activity to the FTZ Board for its facilities located in Auburn, New York. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on March 23, 2015.

Xylem already has authority to produce centrifugal and submersible pumps and related controllers. The current request would add a finished product (pump demonstration cutaways) and certain foreign-status materials and components to the scope of authority. Pursuant to 15 CFR 400.14(b), additional FTZ authority would be limited to the specific foreign-status materials and components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Xylem from customs duty payments on the foreign status components used in export production. On its domestic sales, Xylem would be able to choose the duty rates during customs entry procedures that apply to centrifugal and submersible pumps (free), pump demonstration cutaways (free), and controllers (1.5%) for the foreign status components and materials noted below and in the existing scope of authority.

Customs duties also could possibly be deferred or reduced on foreign status production equipment.

The components and materials sourced from abroad include: strainer parts; shaft coupling parts; cast iron bases; non-asbestos gaskets; plastic resins; electric current filtration devices; polyester rope; pressure transducers; and, fluid sight glasses (duty rate ranges from free to 6.5%).

Public comment is invited from interested parties. Submissions shall be addressed to the FTZ Board's Executive Secretary at the address below. The closing period for their receipt is May 11, 2015.

A copy of the notification will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room
