

NOTICE OF OFFICE OF MANAGEMENT AND BUDGET ACTION

Date 08/10/2012

Department of Commerce
National Oceanic and Atmospheric Administration
FOR CERTIFYING OFFICIAL: Simon Szykman
FOR CLEARANCE OFFICER: Diana Hynek

In accordance with the Paperwork Reduction Act, OMB has taken action on your request received 05/24/2012

ACTION REQUESTED: Extension without change of a currently approved collection
TYPE OF REVIEW REQUESTED: Regular
ICR REFERENCE NUMBER: 201204-0648-011
AGENCY ICR TRACKING NUMBER:
TITLE: Scientific Research, Exempted Fishing, and Exempted Educational Activity Submissions
LIST OF INFORMATION COLLECTIONS: See next page

OMB ACTION: Approved without change
OMB CONTROL NUMBER: 0648-0309

The agency is required to display the OMB Control Number and inform respondents of its legal significance in accordance with 5 CFR 1320.5(b).

EXPIRATION DATE: 08/31/2015

DISCONTINUE DATE:

BURDEN:	RESPONSES	HOURS	COSTS

PAPERWORK REDUCTION ACT SUBMISSION

Please read the instructions before completing this form. For additional forms or assistance in completing this form, contact your agency's Paperwork Clearance Officer. Send two copies of this form, the collection instrument to be reviewed, the supporting statement, and any additional documentation to: Office of Information and Regulatory Affairs, Office of Management and Budget, Docket Library, Room 10102, 725 17th Street NW, Washington, DC 20503.

1. Agency/Subagency originating request	2. OMB control number b. <input type="checkbox"/> None a. _____ - _____
3. 19. Certification for Paperwork Reduction Act Submissions

On behalf of this Federal Agency, I certify that the collection of information encompassed by this request complies with 5 CFR 1320.9

NOTE: The text of 5 CFR 1320.9, and the related provisions of 5 CFR 1320.8(b)(3), appear at the end of the instructions. *The certification is to be made with reference to those regulatory provisions as set forth in the instructions.*

The following is a summary of the topics, regarding the proposed collection of information, that the certification covers:

- (a) It is necessary for the proper performance of agency functions;
- (b) It avoids unnecessary duplication;
- (c) It reduces burden on small entities;
- (d) It used plain, coherent, and unambiguous terminology that is understandable to respondents;
- (e) Its implementation will be consistent and compatible with current reporting and recordkeeping practices;
- (f) It indicates the retention period for recordkeeping requirements;
- (g) It informs respondents of the information called for under 5 CFR 1320.8(b)(3):
 - (i) Why the information is being collected;
 - (ii) Use of information;
 - (iii) Burden estimate;
 - (iv) Nature of response (voluntary, required for a benefit, mandatory);
 - (v) Nature and extent of confidentiality; and
 - (vi) Need to display currently valid OMB control number;
- (h) It was developed by an office that has planned and allocated resources for the efficient and effective management and use of the information to be collected (see note in Item 19 of instructions);
- (i) It uses effective and efficient statistical survey methodology; and
- (j) It makes appropriate use of information technology.

If you are unable to certify compliance with any of the provisions, identify the item below and explain the reason in Item 18 of the Supporting Statement.

**SUPPORTING STATEMENT
SCIENTIFIC RESEARCH, EXEMPTED FISHING, AND EXEMPTED EDUCATIONAL
ACTIVITY SUBMISSIONS
OMB CONTROL NO. 0648-0309**

This request is for extension of a current information collection.

A. JUSTIFICATION

1. Explain the circumstances that make the collection of information necessary.

a. Scientific research plan. The [Magnuson-Stevens Fishery Conservation and Management Act](#) (16 U.S.C. 1801 *et seq.*) (MSA), as amended in 2006, authorizes the Secretary of Commerce to conserve and manage fishery resources in the exclusive economic zone (EEZ) by regulating “fishing.” Most such regulatory functions have been delegated to the National Marine Fisheries Service (NMFS). Section 3 of the MSA, defines “fishing” as the catching, taking, or harvesting of fish; the attempted catching, taking, or harvesting of fish; any other activity that can reasonably be expected to result in the catching, taking, or harvesting of fish; or any other operations at sea in support of, or in preparation for, any of the aforementioned activities. “Fish” includes finfish, mollusks, crustaceans, and all other forms of marine life other than marine mammals and birds.

Excluded expressly from the definition of fishing, and therefore from the MSA purview, is “scientific research activity which is conducted by a scientific research vessel.” The MSA does not, however, define “scientific research activity” or “scientific research vessel.” NMFS defines “scientific research activity” and “scientific research vessel” based on review of a research plan, in order to reduce the potential for abuse by using the exemption to obtain marketable fish outside of established fishing seasons or areas, or to otherwise avoid applicable regulations. An accepted convention of any *bona fide* scientific research project is the advance preparation of a written research plan that guides the conduct of the research. NMFS requests the voluntary submission of a scientific research plan, which is acknowledged by a letter of acknowledgment (LOA) from the appropriate NMFS official, to establish a basis for a presumption that an activity in the EEZ is scientific research, and unregulated, as opposed to regulated fishing. Enforcement officers may verify activities outside the research plan or by a vessel without an LOA on site. Researchers following the recommendations of the regulations for scientific research vessels at 50 CFR 600.745 may also avoid occasional confusion and delay caused when a research vessel conducting unannounced research in the EEZ is boarded by enforcement officers to determine whether the vessel is fishing illegally. The determination of an activity as scientific research requires an acceptable standard of reference for researchers and regulators.

The regulations at [50 CFR 600.745\(c\)](#) request (but do not require) that the researcher provide a copy of any cruise report or publication related to the research to help determine the amount of catch. The amount of fish taken in scientific research is of increasing importance. Because these fish are taken outside the regulatory regime, these catches are not considered as part of any quota, harvest guideline, days-at-sea, or other allocation scheme. However, it is important, especially in

the case of overfished and/or rebuilding stocks to take the research catch into account as part of the mortality in the fishery. This mortality can then be used as part of the inputs in determining the status of the fishery and the allowable catch in the fishery, as well as determining the cumulative effects of research on the fishery for purposes of analysis under the National Environmental Policy Act ([NEPA](#)).

b. Exempted fishing and exempted educational activities. Section 301 of the MSA sets out national standards for fishery management plans and regulations. Standard one requires that “Conservation and management measures shall prevent overfishing while achieving, on a continuing basis, the optimum yield from each fishery...” To comply with this standard and effectively manage a fishery, NMFS needs to know the amount and species of fish caught, where caught, and the catch disposition. Exempted fishing, by definition, is fishing outside of the standard regulations. To control this fishing and determine the extent of this fishing, NMFS needs information to determine the justification of granting an exempted fishing permit (EFP) or exempted educational activity authorization (EEAA), and documentation of catches landed as a result of granting the permit/authorization. A NMFS Regional Administrator or Director may authorize, for limited testing, public display, data collection, exploratory fishing, compensation fishing, conservation engineering, health and safety surveys, environmental cleanup, and/or hazard removal purposes, the target or incidental harvest of species managed under an FMP or fishery regulations that would otherwise be prohibited. These regulations at [50 CFR 600.745\(b\)](#) supplement existing information collections required by the various fishery management plans establishing minimum standards for these activities. The regulations dealing with specific fisheries may impose additional requirements.

c. Temporary possession. Eligible researchers on board federally permitted fishing vessels that plan to temporarily possess fish in a manner not compliant with applicable fishing regulations for the purpose of collecting scientific data on catch may submit a request for a temporary possession letter of authorization. The researchers are requested to submit reports of their scientific research activity after its completion. The regulations at [50 CFR 648.12\(d\)](#) have similar information collection requirements to scientific research LOAs.

2. Explain how, by whom, how frequently, and for what purpose the information will be used. If the information collected will be disseminated to the public or used to support information that will be disseminated to the public, then explain how the collection complies with all applicable Information Quality Guidelines.

a. Scientific Research Plan. NMFS Regions, Fishery Science Centers, and NMFS and Coast Guard enforcement use information obtained from voluntarily submitted research plans and subsequent reports in monitoring such activities to ensure they are *bona fide* scientific research activities. NMFS reviews each scientific research plan submitted to establish that the sponsoring organization and personnel involved are recognized scientific investigators, that the specific project contemplated appears to be scientific research and not fishing, and that the vessel or vessels to be used are or will be used exclusively for research for the duration of the scientific research cruise. The information collected, which is likely to include confidential research catch statistics and proprietary research information, will not be disseminated to the public except in aggregate as part of the total mortality in the fishery. Total mortality is part of a routine NMFS

determination of the status of the effected stocks and is subject to quality control measures and a pre-dissemination review pursuant to [Section 515 of Public Law 106-554](#) whenever conducted. NMFS also uses any reports or articles, voluntarily submitted, to confirm that the activities conducted were scientific research, and to consider the appropriateness of acknowledging future requests.

b. Exempted fishing and exempted educational activities. Regulations at [50 CFR 600.745\(b\)\(2\) and \(d\)\(2\)](#) identify the information that an applicant must submit to receive an EFP or EEAA. This information includes:

(i). The date of the application.

(ii). The applicant's name, mailing address, and telephone number.

(iii). A statement of the purposes and goals of the exempted fishery for which an EFP/EEAA is needed, including justification for issuance of the EFP/EEAA. For EEAA, evidence the sponsoring institution is a valid educational institution.

(iv). For each vessel to be covered by the EFP/EEAA, as soon as the information is available and before operations begin under the EFP:

(a) A copy of the United States Coast Guard (USCG) documentation, state license, or registration of each vessel, or the information contained on the appropriate document.

(b) The current name, address, and telephone number of the owner and master, if not included on the document provided for the vessel.

(v). The species (target and incidental) expected to be harvested under the EFP, the amount(s) of such harvest necessary to conduct the exempted fishing, the arrangements for disposition of all regulated species harvested under the EFP, and any anticipated impacts on marine mammals or endangered species. Note: Since the last renewal request for this collection, we have begun requiring an explanation in detail of any anticipated impacts, rather than a "yes" or "no" and a simple explanation. See (viii) for authorization.

(vi). For each vessel covered by the EFP, the approximate time(s) and place(s) fishing will take place, and the type, size, and amount of gear to be used.

(vii). The signature of the applicant.

(viii). The Regional Administrator or Director, as appropriate, may request from an applicant additional information necessary to make the determinations required under this section. NMFS Regions, and NMFS and USCG enforcement use EFP and EEAA applications to identify the entities and vessels involved and ensure the applicant carries out activities within the restraints of the permit.

NMFS Regions, Regional Fishery Management Councils, Fishery Science Centers, and NMFS and USCG enforcement use the EFP application statement of purpose and goals in evaluating proposals to determine their usefulness to the overall goals of the applicable fishery management plan and for issuance of permits, and evaluate them comparatively with other applicants for the same fishery.

NMFS evaluates EEAA applications to confirm their educational value and determine their usefulness to the overall goals of the applicable fishery management plan and for issuance of permits.

NMFS Regions use the species (including marine mammals and endangered species) and amounts to be caught, the time and location of the projected catch, and any additional information requested to be provided to analyze the impact of the activity on the fishery stocks, endangered species, marine mammals and cumulative effects on the environment for the purposes of compliance with NEPA. NMFS has required more detailed information as EFPs have become more numerous and complex, with greater associated impacts on the fisheries and other parts of the environment.

NMFS Regions, Centers, and enforcement use exempted fishing and exempted educational activity reports to ensure activities are carried out as described in the permit, document the catch for inclusion in the total catch, and consider the permittee for future permits.

NMFS anticipates that the information collected, which is likely to include confidential fish catch statistics and proprietary fishing practice and strategy information, will not be disseminated to the public unless specifically authorized as part of the EFP or EEAA. If NMFS makes public non-confidential information, then prior to dissemination, the information will be subjected to quality control measures and a pre-dissemination review pursuant to [Section 515 of Public Law 106-554](#).

c. Temporary possession. The regulations at [50 CFR 648.12\(d\)\(3\)](#) have similar information collection requirements to scientific research plans (as outlined above).

3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological techniques or other forms of information technology.

This collection involves no use of forms, but copies of the relevant regulations with the application requirements can be found on the Internet at the links listed above.

Documents may be submitted via e-mail.

4. Describe efforts to identify duplication.

To the extent that scientific research organizations are required to submit scientific research plans to the sponsor(s) of their research, those same plans would be acceptable for the purposes of this information collection. Copies of any scientific cruise report or research documentation required to be submitted by a scientific research organization would be acceptable as a voluntary report

for the purposes of this collection. The requirements for an EFP or EEAA and associated reports are the minimum requirements. The EFP or EEAA may have additional requirements as specified by the regulations of the fishery in which the activity is authorized. The Regional Administrator will specify all applicable reporting requirements as part of issuing the EFP or EEAA.

5. If the collection of information involves small businesses or other small entities, describe the methods used to minimize burden.

Respondents to this information collection vary from large research organizations to individual fishermen or educators. Many respondents are categorized as small businesses or entities. These regulations were drafted with the consideration that the typical respondent would be a small entity, with the requirement made flexible enough that the Regional Administrator can tailor them to the scope of the project.

6. Describe the consequences to the Federal program or policy activities if the collection is not conducted or is conducted less frequently.

If the information requested in the scientific research plan is not obtained, enforcement of violations of the MSA where the violator asserts he/she was conducting scientific research and not fishing will continue to be difficult to prove. Legitimate researchers will continue to be inconvenienced and enforcement units will continue to conduct needless and inappropriate boardings of scientific research vessels whose activities are confused with fishing. If the information requested by exempted fishing and exempted educational activity permits is not obtained, there will be no standard way of dealing with these activities from Region to Region, there will be more incidents of persons who believe they are conducting scientific research being found in violation of the MSA, and the catches of some activities taking large amounts of fish currently considered scientific research may go unrecorded, possibly contributing to overfishing.

7. Explain any special circumstances that require the collection to be conducted in a manner inconsistent with OMB guidelines.

There are no special circumstances involved with this action.

8. Provide information on the PRA Federal Register Notice that solicited public comments on the information collection prior to this submission. Summarize the public comments received in response to that notice and describe the actions taken by the agency in response to those comments. Describe the efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instructions and recordkeeping, disclosure, or reporting format (if any), and on the data elements to be recorded, disclosed, or reported.

A Federal Register Notice published on February 9, 2012 (77 FR 6784) solicited public comment.

One substantive comment in support of this information collection was received:

Although catch for scientific purposes is typically inconsequential relative to commercial and recreation catch, in some circumstances it has the potential to affect significantly the abundance and/or age structure of small or local populations of fish and/or to create a potentially significant threat to marine mammals. Therefore, it is crucial that these activities are brought to the attention of the Service so that they can be assessed and permitted. For that reason, the Marine Mammal Commission supports the collection of the described information.

9. Explain any decisions to provide payments or gifts to respondents, other than remuneration of contractors or grantees.

There are no payments or gifts.

10. Describe any assurance of confidentiality provided to respondents and the basis for assurance in statute, regulation, or agency policy.

As stated in the applicable regulations, it is NMFS policy not to release confidential data, other than in aggregate form, as the MSA, Section 402b, protects (in perpetuity) the confidentiality of those submitting data. Whenever data are requested, the NMFS ensures that information identifying the pecuniary business activity of a particular vessel operator is not identified.

11. Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

No sensitive questions are asked.

12. Provide an estimate in hours of the burden of the collection of information.

NMFS recently re-surveyed all Regions and Science Centers for the annual and projected annual number of scientific research letters of acknowledgment, exempted fishing, and exempted educational activity authorization requests they processed. The number of respondents is now estimated to be 129 (previously 91) with correspondingly higher responses, 258 (previously 182). While the estimated number of respondents and number of responses increased, the estimated burden hours decreased from 11,003 to 6,073. See the table below, with previous response numbers and response times in parentheses.

2012 Annual PRA Burden Hour Estimates					
Requirement	Number of Respondents	Frequency of Response	Total Responses (2008 responses in parentheses)	Avg. Hrs. per Response (2008 response times in parentheses)	Total Annual Burden
Scientific Research Plans	66	1	66 (58)	37 (113)	2,442
Scientific Research Reports	66	1	66 (58)	3 (3)	198
EFP Requests	47	1	47 (30)	56 (95)	2,632
EFP Reports	47	1	47 (30)	15 (47)	705
Exempted Educational Requests	16	1	16(3)	4 (3)	64
Exempted Educational Reports	16	1	16 (3)	2(2)	32
Totals	129*		258		6,073

* Unduplicated respondents; the same respondents appear multiple times (applications and reports)

Estimate of annualized labor cost to respondents:

\$32.97/hr. (GS-12/1 equivalent – using Rest of U.S. locality pay) x 6,073 hrs = \$200,226.81

13. Provide an estimate of the total annual cost burden to the respondents or record-keepers resulting from the collection (excluding the value of the burden hours in Question 12 above).

The costs for postage, envelopes, and copying are estimated at \$387.00, based on the following: \$1.50 (stamps (2 @ \$.045 = \$0.90) + envelopes (1 at \$0.10) + copying (10 pages at \$.05 = \$0.50)) x 258 applications/reports = \$387 (rounded up to \$388 in ROCIS).

14. Provide estimates of annualized cost to the Federal government.

The estimated annual Federal cost of this information collection is \$85,663, based on the following:

Scientific research activities:

(\$13.18/hr (GS-6 equivalent) for letter preparation and report filing x 2.4 hrs/request = \$31.63) + (\$36.04/hr (GS-13/6 equivalent) for final review of LOA x 3.8 hrs/request = \$136.95) = 168.58 x 66 LOAs = \$11,126.28 (**\$11,126**).

EFPs:

(\$17.62/hr (GS-9 equivalent) for research and analysis, permit preparation, and report filing x 66.5 hrs/application = \$1,171.73) +
(\$36.04/hr (GS-13/6 equivalent) for final review of EFP x 4.1 hrs/application = \$147.76) =
\$1,319.49 x 47 EFPs = \$62,016.03 (**\$62,016**).

EEAAs:

(\$17.62/hr (GS-9 equivalent) for research and analysis, permit preparation, and report filing x 39.3 hrs/application = \$692.47) +
(\$36.04/hr (GS-13/6 equivalent) for final review of EFP x 2.5 hrs/application = \$90.10) =
\$782.57 x 16 EEAAs = \$12,521.12 (**\$12,521**).

Total government cost: \$11,126 + \$62,016 + 12,521 = \$85,663.

15. Explain the reasons for any program changes or adjustments.

Adjustments:

An increase of 76 responses, plus adjusting most response times down, per regional feedback, resulted in a net decrease in burden hours of 4,930:

- A decrease of 6,538 hours due to adjusted response time estimates, plus
- An increase of 1,608 hours due to the 76 additional responses.

Both the added responses and increased postage costs contributed to an increase of \$126 in recordkeeping/reporting costs.

16. For collections whose results will be published, outline the plans for tabulation and publication.

The results of this collection will not be published.

17. If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons why display would be inappropriate.

There are no forms, therefore display of the OMB approval of the information collection is N/A.

18. Explain each exception to the certification statement.

There are no exceptions to the certification statement.

B. COLLECTIONS OF INFORMATION EMPLOYING STATISTICAL METHODS

This collection does not employ statistical methods.

energy and energy efficiency companies, and to review subcommittee work on recommendations related to the development and administration of programs and policies to enhance the competitiveness of the U.S. renewable energy and energy efficiency industries, including specific challenges associated with exporting.

DATES: February 23, 2012, from 8:30 a.m. to 3:30 p.m. Eastern Standard Time (EST).

ADDRESSES: The meeting will be held at the U.S. Department of Commerce, Room 4830, 1401 Constitution Avenue NW., Washington, DC 20230. The meeting will also be available via conference call.

FOR FURTHER INFORMATION CONTACT: Jennifer Derstine, Office of Energy and Environmental Technologies Industries (OEEI), International Trade Administration, U.S. Department of Commerce at (202) 482-3889; email: jennifer.derstine@trade.gov. This meeting is physically accessible to people with disabilities. Requests for auxiliary aids should be directed to OEEI at (202) 482-3889.

SUPPLEMENTARY INFORMATION:

Background: The Secretary of Commerce established the RE&EEAC pursuant to his discretionary authority and in accordance with the Federal Advisory Committee Act (5 U.S.C. App.) on July 14, 2010. The RE&EEAC provides the Secretary of Commerce with consensus advice from the private sector on the development and administration of programs and policies to enhance the international competitiveness of the U.S. renewable energy and energy efficiency industries. The RE&EEAC held its first meeting on December 7, 2010 and several subsequent meetings throughout 2011.

The meeting is open to the public and the room is disabled-accessible. Public seating is limited and available on a first-come, first-served basis. Members of the public wishing to attend the meeting, either in person or through participation in the conference call, must notify Ms. Derstine at the contact information above by 5 p.m. EST on Friday, February 17, in order to pre-register. Registered members of the public who wish to participate in the conference call will receive call-in instructions. Please specify any request for reasonable accommodation by Friday, February 17. Last minute requests will be accepted, but may be impossible to fill. A limited amount of time, from 3 p.m. until 3:30 p.m., will be available for pertinent brief oral comments from members of the public attending the meeting.

Any member of the public may submit pertinent written comments concerning the RE&EEAC's affairs at any time before or after the meeting. Comments may be submitted to jennifer.derstine@trade.gov or to the Renewable Energy and Energy Efficiency Advisory Committee, Office of Energy and Environmental Technologies Industries (OEEI), International Trade Administration, Room 4053; 1401 Constitution Avenue NW., Washington, DC 20230. To be considered during the meeting, comments must be received no later than 5 p.m. EST on Friday, February 17, 2012, to ensure transmission to the Committee prior to the meeting. Comments received after that date will be distributed to the members but may not be considered at the meeting.

Copies of RE&EEAC meeting minutes will be available within 30 days of the meeting.

Edward A. O'Malley,

Director, Office of Energy and Environmental Industries.

[FR Doc. 2012-3008 Filed 2-8-12; 8:45 am]

BILLING CODE 3510-DR-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Scientific Research, Exempted Fishing, and Exempted Activity Submissions

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before April 9, 2012.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at Jjessup@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be

directed to Jason Blackburn, (301) 427-8555 or Jason.Blackburn@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for revision and extension of a current information collection. Fishery regulations do not generally affect scientific research activities conducted by a scientific research vessel. Persons planning to conduct such research are encouraged to submit a scientific research plan to ensure that the activities are considered research and not fishing. The researchers are requested to submit reports of their scientific research activity after its completion. The National Marine Fisheries Service (NMFS) may also grant exemptions from fishery regulations for educational or other activities (e.g., using non-regulation gear). The applications for these exemptions must be submitted, as well as reports on activities.

Revision: Eligible researchers on board federally permitted fishing vessels that plan to temporarily possess fish in a manner not compliant with applicable fishing regulations for the purpose of collecting scientific data on catch may submit a request for a temporary possession letter of authorization. The researchers are requested to submit reports of their scientific research activity after its completion.

II. Method of Collection

Information may be submitted on paper or electronically, and in some cases by telephone.

III. Data

OMB Control Number: 0648-0309.

Form Number: None.

Type of Review: Regular submission (revision and extension of a current information collection).

Affected Public: Business or other for-profit organizations; individuals or households; not for profit organizations; state, local or tribal governments.

Estimated Number of Respondents: 129.

Estimated Time per Response: Scientific research plans, 37 hours; scientific research reports, 3 hours; exempted fishing permit requests, 56 hours; exempted fishing permit reports, 15 hours; exempted educational requests, 4 hours; exempted educational reports, 2 hours.

Estimated Total Annual Burden Hours: 6,073.

Estimated Total Annual Cost to Public: \$387.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information

is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: February 3, 2012.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Feedback Survey for Annual Tsunami Warning Communications Tests

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before April 9, 2012.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at Jjessup@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Jeff Lorens, (801) 524-4000 or Jeffrey.Lorens@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of this information collection.

This information collection supports the Tsunami Warning and Education Act, Public Law 109-424. To assess the effectiveness of NOAA/National Weather Service's (NWS) Tsunami Warning System, this survey is needed to gather specific feedback information following testing of the associated NWS communications systems. The tests are planned annually, in March/April and again in September. Post-test feedback information will be requested from emergency managers, the media, law enforcement officials, local government agencies/officials, and the general public. The responses will be solicited for a limited period immediately following completion of the tests, not to exceed seven days. This will be a Web-based survey and will allow for efficient collection of information regarding the effectiveness of the Tsunami Warning System.

II. Method of Collection

A Web-based survey will be used for electronic submission.

III. Data

OMB Control Number: 0648-0539.

Form Number: None.

Type of Review: Regular submission (extension of a current information collection).

Affected Public: Individuals or households, Federal Government, and State, local or tribal governments.

Estimated Number of Respondents: 300.

Estimated Time per Response: 5 minutes.

Estimated Total Annual Burden Hours: 25.

Estimated Total Annual Cost to Public: \$0 in recordkeeping/reporting costs.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: February 6, 2012.
