

NOTICE OF OFFICE OF MANAGEMENT AND BUDGET ACTION

Date 11/10/2010

Department of Commerce
National Oceanic and Atmospheric Administration
FOR CERTIFYING OFFICIAL: Simon Szykman
FOR CLEARANCE OFFICER: Diana Hynek

In accordance with the Paperwork Reduction Act, OMB has taken action on your request received 11/10/2010

ACTION REQUESTED: Revision of a currently approved collection
TYPE OF REVIEW REQUESTED: Regular
ICR REFERENCE NUMBER: 201011-0648-004
AGENCY ICR TRACKING NUMBER:
TITLE: NMFS Alaska Region Observer Providers
LIST OF INFORMATION COLLECTIONS: See next page

OMB ACTION: Approved without change
OMB CONTROL NUMBER: 0648-0318

The agency is required to display the OMB Control Number and inform respondents of its legal significance in accordance with 5 CFR 1320.5(b).

EXPIRATION DATE: 07/31/2013

DISCONTINUE DATE:

| BURDEN: | RESPONSES | HOURS | COSTS |
|--|-----------|-------|-------|
| Previous | 2,750 | 875 | 854 |
| New | 3,354 | 1,374 | 4,103 |
| Difference | | | |
| Change due to New Statute | 0 | 0 | 0 |
| Change due to Agency Discretion | 604 | 499 | 3,249 |
| Change due to Agency Adjustment | 0 | 0 | 0 |
| Change Due to Potential Violation of the PRA | 0 | 0 | 0 |

TERMS OF CLEARANCE:

OMB Authorizing Official: Kevin F. Neyland
Deputy Administrator,
Office Of Information And Regulatory Affairs

19. Certification for Paperwork Reduction Act Submissions

On behalf of this Federal Agency, I certify that the collection of information encompassed by this request complies with 5 CFR 1320.9

NOTE: The text of 5 CFR 1320.9, and the related provisions of 5 CFR 1320.8(b)(3), appear at the end of the instructions. *The certification is to be made with reference to those regulatory provisions as set forth in the instructions.*

The following is a summary of the topics, regarding the proposed collection of information, that the certification covers:

- (a) It is necessary for the proper performance of agency functions;
- (b) It avoids unnecessary duplication;
- (c) It reduces burden on small entities;
- (d) It used plain, coherent, and unambiguous terminology that is understandable to respondents;
- (e) Its implementation will be consistent and compatible with current reporting and recordkeeping practices;
- (f) It indicates the retention period for recordkeeping requirements;
- (g) It informs respondents of the information called for under 5 CFR 1320.8(b)(3):
 - (i) Why the information is being collected;
 - (ii) Use of information;
 - (iii) Burden estimate;
 - (iv) Nature of response (voluntary, required for a benefit, mandatory);
 - (v) Nature and extent of confidentiality; and
 - (vi) Need to display currently valid OMB control number;
- (h) It was developed by an office that has planned and allocated resources for the efficient and effective management and use of the information to be collected (see note in Item 19 of instructions);
- (i) It uses effective and efficient statistical survey methodology; and
- (j) It makes appropriate use of information technology.

If you are unable to certify compliance with any of the provisions, identify the item below and explain the reason in Item 18 of the Supporting Statement.

**SUPPORTING STATEMENT
NMFS ALASKA REGION OBSERVER PROVIDERS
OMB CONTROL NO. 0648-0318**

INTRODUCTION

The Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) 16 U.S.C. 1801 *et seq.* as amended in 2006 authorizes the North Pacific Fishery Management Council to prepare and amend fishery management plans for any fishery in waters under its jurisdiction. National Marine Fisheries Service (NMFS), Alaska Region manages groundfish in the exclusive economic zone off the coast of Alaska under the Fishery Management Plan (FMP) for the Groundfish Fishery of the Bering Sea and Aleutian Islands (BSAI) Management Area and the Gulf of Alaska (GOA) FMPs. The FMPs are implemented by regulations at 50 CFR part 679.

The Observer Program provides the administrative framework for the collection of data by observers to obtain information necessary for the conservation and management of the groundfish fisheries managed under the FMPs. Regulations implementing the Observer Program at § 679.50 require observer coverage aboard catcher vessels, catcher/processors, motherships, and shoreside and stationary floating processors that participate in the groundfish fisheries off Alaska. These regulations also establish vessel, processor, and observer provider responsibilities relating to the Observer Program.

Observer providers are permitted by NMFS to hire and deploy qualified individuals as observers in the groundfish fisheries of the BSAI and GOA. Observer candidates are required to meet specified criteria in order to qualify as an observer and must successfully complete an initial certification training course, as well as meet other criteria, prior to being certified.

This action is a revision for the observer provider collection-of-information.

JUSTIFICATION

1. Explain the circumstances that make the collection of information necessary.

The Magnuson-Stevens Act authorizes the collection of fees from groundfish fishery participants to pay for implementing a fisheries research plan which would include observer coverage. Information on the cost of the existing observer program is needed to determine appropriate fees and the extent of observer coverage afforded by those fees. Mandatory cost reporting is one approach to meet this need; however, NMFS is not able to assess the various cost components of the existing groundfish observer program with the information currently required through Federal regulations.

2. Explain how, by whom, how frequently, and for what purpose the information will be used. If the information collected will be disseminated to the public or used to support information that will be disseminated to the public, then explain how the collection complies with all applicable Information Quality Guidelines.

a. Observer provider contract copies

Observer providers must submit to NMFS a completed and unaltered copy of each type of signed and valid contract (including all attachments, appendices, addendums, and exhibits incorporated into the contract) between the observer provider and those entities requiring observer services. This action would establish a submission deadline of February 1 of each year to submit copies of contracts, which corresponds with the deadline for submitting certificates of insurance required by 50 CFR §679.50(i)(xi)(F).

No change in burden or cost results from this addition of a submittal deadline (5 responses, 3 hours, \$25 in miscellaneous costs).

b. Copies of invoices

Entities participating in observer activities that require monitoring under § 679.50 currently contract directly with certified observer providers in the private sector. NMFS is not a party to the contracts under the current scheme and therefore lacks detailed information on costs incurred by observer providers and the portion of those costs paid by the various groundfish fishery sectors. This action would require observer providers to submit to NMFS copies of all individual invoices related to north Pacific groundfish fishery observer coverage. Observer providers would be required to submit these invoices for each observer aboard a catcher/processor, catcher vessel, mothership, stationary floating processor, or shoreside processing plant to NMFS on a monthly basis for a full calendar year.

With the submittal of provider invoices, NMFS would obtain independently verifiable information and enhanced analytical flexibility over collecting pre-compiled expense reports from the observer providers. The invoice information would allow NMFS to develop a more accurate assessment of costs and benefits under potential program changes. A more accurate assessment may benefit the groundfish observer program and the fisheries dependent upon observer data for management.

NMFS would enter the raw data from the invoices into a confidential database. Copies of actual invoices to NMFS are preferred because invoices:

- ◆ Are less burdensome to the respondents than summarized expense reports;
- ◆ Allow NMFS to understand the full cost of providing observer coverage in the groundfish fisheries off Alaska;
- ◆ Provide for verifiable data; and
- ◆ Allow for increased flexibility in data analysis over alternatives that requested summarized information from providers.

The Observer Program would dedicate one half-time for a Level ZP-II staff member to these tasks, at a total cost of approximately \$31,250 in salary and fringe benefits per year. There would also be costs associated with the initial design, development, and ground-truthing of the new system and protocols. These, while not readily quantifiable, would largely be “one-time” expenditures by the agency estimated at \$50,000.

NMFS will be able to use existing observer databases to match up the dates of service for each entity as provided on the invoice to the observer’s name.

Invoice copies

- Name of each individual to which the invoice applies (obtained from observer database)
- Dates of service for each observer
- Rate charged in dollars per day for observer services
- Total charge for observer services (number of days multiplied by daily rate)
- Amount charged for air and ground transportation with charges separated out and identified.

| Invoice Copies, Respondent | |
|--|----------------|
| Total number respondents | 5 |
| Total annual responses (5 providers x 120 invoices) | 600 |
| Number of invoices = 10 x 12 months = 120 | |
| Total time burden | 300 |
| Time per response = 30/60 = 0.5 | |
| Total personnel cost | \$7500 |
| Cost per hr = \$25 | |
| Total miscellaneous cost | \$3,625 |
| Cost to submit by fax (\$6 x 6 page x 100= 3600) | |
| Cost to submit by email (0.05 x 500 =25) | |

| Invoice Copies, Federal Government | |
|---|-----------------|
| Total personnel cost , half-time staff member | \$31,250 |
| One-time database design cost, Initial design, development, and groundtruth | \$50,000 |
| Total miscellaneous cost | 0 |

c. Other Reports:

This action would establish a submission deadline of 72 hours for Observer providers to notify NMFS of a breach of the observer provider’s policy on observer conduct within 72 hours, instead of 24 hours, after the provider becomes aware of the alleged violation. No change in burden or cost results from this change to add a submittal deadline (50 responses, 100 hours, \$8 in miscellaneous costs).

Other information requirements unchanged from last submission:

Observer provider permit applications: 1 additional respondent, 1 response, 60 hours and \$1 in miscellaneous costs. *Note: this additional respondent is a prospective provider in addition to the five current providers.*

Candidate college transcripts and statements, observer provider: 5 responses, 45 hours, \$3 miscellaneous costs.

Observer training registration: 10 responses, 10 hours and \$120 in miscellaneous costs.

Observer briefing registration: 300 responses, 36 hours and \$21 n miscellaneous costs.

Projected observer assignments: 900 responses, 108 hours and \$51 in miscellaneous costs.

Physical examination verification: 300 responses, 24 hours and \$21 in miscellaneous costs.

Observer deployment/logistics report: 260 responses, 31 hours and \$19 in miscellaneous costs.

Observer debriefing registration: 900 responses, 450 hours and \$51 in miscellaneous costs.

Certificates of Insurance: 5 responses, 1 hours and \$12 in miscellaneous costs.

Industry Request for Assistance in Improving Observer Data Quality Issues: 10 responses, 5 hours and \$20 in miscellaneous costs.

Update to provider information, 3 responses, 1 hour, \$1 in miscellaneous costs.

d. Appeals for Observer Provider Permit Expiration or Denial of Permit [Removed]

Current regulations allow an observer provider applicant who is denied an observer provider permit to appeal that decision. Because there is no statutory entitlement to receiving an observer provider permit, the granting or denial of observer provider permits are discretionary agency actions. Thus, there is no requirement that a new observer provider applicant be provided an appeals process. Because of the discretionary nature of granting observer provider permits, NMFS would remove the appeal rights granted to observer provider applicants whose permit application is denied.

e. Observer conduct and behavior policy.

An observer provider must develop and maintain a policy addressing observer conduct and behavior while under contract with said provider. This policy shall include:

- ◆ Observer use of drugs and alcohol;
- ◆ Observer use, possession, or distribution of illegal drugs, and;
- ◆ Physical sexual contact with personnel of the vessel or processing facility to which the observer is assigned, or with any vessel or processing plant personnel who may be substantially affected by the performance or non-performance of the observer's official duties.

Observer providers shall provide a copy of their current conduct and behavior policy to:

- ◆ Observer candidates and contractors, and;
- ◆ The Observer Program Office.

| Observer conduct and behavior policy, Respondent | |
|--|----------------|
| Total number respondents | 5 |
| Total annual responses (5 providers x 1) Number of annual policies = 1 | 5 |
| Total time burden Time per response = 40 hr | 200 |
| Total personnel cost Cost per hr = \$25 | \$5,000 |
| Total miscellaneous cost (125.20) Cost to submit by fax (\$6 x 20 page x 1= 120) Cost to submit by email (0.05 x 4 = 0.20) Photocopy (0.05 x 20 pages x 5 = 5) | \$125 |

| Observer conduct and behavior policy, Federal Government | |
|---|------------|
| Total annual responses | 5 |
| Total time burden Time per response = 1 hr | 5 |
| Total personnel cost (\$25/hr) | 125 |
| Total miscellaneous cost | 0 |

It is anticipated that the information collected will be disseminated to the public or used to support publicly disseminated information. As explained in the preceding paragraphs, the information gathered has utility. NMFS will retain control over the information and safeguard it from improper access, modification, and destruction, consistent with National Oceanic and Atmospheric Administration (NOAA) standards for confidentiality, privacy, and electronic information. See response to Question 10 of this Supporting Statement for more information on confidentiality and privacy. The information collection is designed to yield data that meet all applicable information quality guidelines. Prior to dissemination, the information will be subjected to quality control measures and a pre-dissemination review pursuant to Section 515 of Public Law 106-554.

3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological techniques or other forms of information technology.

The copies of invoices and of the Observer Conduct and Behavior policy may be submitted as attachments to email to the Observer Program's web site at <http://www.afsc.noaa.gov/refm/observers/default.htm>; by fax 206-526-4066; or by mail to: NMFS Observer Program Office, P.O. Box 15700, Seattle, WA 98115-0070.

4. Describe efforts to identify duplication.

None of the information collected as part of this information collection duplicates other collections. This information collection is part of a specialized and technical program that is not like any other.

5. If the collection of information involves small businesses or other small entities, describe the methods used to minimize burden.

Five observer provider companies are currently permitted and active in the exclusive economic zone (EEZ) off the coast of Alaska. All of the current observer provider companies are considered small entities. This collection-of-information does not impose a significant impact on small entities.

6. Describe the consequences to the Federal program or policy activities if the collection is not conducted or is conducted less frequently.

NMFS has relied on rough estimates of the average daily cost of observer coverage across all north Pacific groundfish fisheries to assess economic effects of various management regimes on impacted entities. This approach has required NMFS to estimate observer transportation and incidental costs and apply many assumptions to estimate average daily and annual observer costs. Several factors affect the daily cost of observer coverage; and daily costs can be highly variable among sectors. Deploying observers to remote locations for short periods of time, for example, results in higher costs per day than deploying observers to ports with regularly scheduled air service and/or in fisheries of substantial duration. NMFS is unable to analyze observer coverage cost disparities of the baseline observer program among fishery sectors with the information currently available. The need to require cost data from observer providers stems from the need to estimate net benefits and understand the effects of various management actions. Without the revisions to this collection-of-information, NMFS lacks detailed, quantitative information on the costs incurred by observer providers.

7. Explain any special circumstances that require the collection to be conducted in a manner inconsistent with OMB guidelines.

No special circumstances exist.

8. Provide information on the PRA Federal Register Notice that solicited public comments on the information collection prior to this submission. Summarize the public comments received in response to that notice and describe the actions taken by the agency in response to those comments. Describe the efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instructions and recordkeeping, disclosure, or reporting format (if any), and on the data elements to be recorded, disclosed, or reported.

The NMFS Alaska Region will submit a proposed rule, RIN 0648-AW24, coincident with this submission, requesting comments from the public.

9. Explain any decisions to provide payments or gifts to respondents, other than remuneration of contractors or grantees.

No payment or gift to respondents is provided under this program.

10. Describe any assurance of confidentiality provided to respondents and the basis for assurance in statute, regulation, or agency policy.

The information collected is confidential under section 402(b) of the Magnuson-Stevens Act (16 U.S.C. 1881a, *et seq.*). The information is also confidential under NOAA Administrative Order 216-100, which sets forth procedures to protect confidentiality of fishery statistics. Information on confidentiality is included on the forms and in the applicable regulations.

11. Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

This information collection does not involve information of a sensitive nature.

12. Provide an estimate in hours of the burden of the collection of information.

Estimated total respondents: 6. Estimated total responses: 3,354, increased from 2,750. Total estimated burden hours: 1,374, increased from 875. Estimated total personnel cost: \$34,350, increased from \$21,875.

Note: Information collection hours unchanged from the previous submission total 874. The 875 above includes the one hour appeal for observer provider permit expiration or denial of permit, deleted as noted in Question 15.

13. Provide an estimate of the total annual cost burden to the respondents or record-keepers resulting from the collection (excluding the value of the burden hours in Question 12 above).

Estimated total miscellaneous costs: \$4,103, increased from \$854.

14. Provide estimates of annualized cost to the Federal government.

Estimated total burden hours: 964, increased from 810. Estimated total personnel cost: \$51,600, increased from \$20,350.

Requiring observer providers to report cost information would necessitate development of a reporting and database system estimated to be a one-time cost of \$50,000.

15. Explain the reasons for any program changes or adjustments.

Program changes are created by a rule to revise the Observer Program. These changes are described below:

Observer provider permit appeals process is removed.
a decrease of 1 respondents, 0 instead of 1
a decrease of 1 response, 0 instead of 1
a decrease of 1 hr burden, 0 hr instead of 1 hr

a decrease of \$25 personnel costs, \$0 instead of \$25
a decrease of \$501 miscellaneous costs, \$0 instead of \$501

Copies of observer provider invoices is added.

an increase of 5 respondents, 5 instead of 0
an increase of 600 responses, 600 instead of 0
an increase of 300 hr burden, 300 hr instead of 0 hr
an increase of \$7,500 personnel costs, \$7,500 instead of \$0
an increase of \$3,625 miscellaneous costs, \$3,625 instead of \$0

Observer conduct and behavior policy is added.

an increase of 5 respondents, 5 instead of 0
an increase of 5 responses, 5 instead of 0
an increase of 200 hr burden, 200 hr instead of 0 hr
an increase of \$5,000 personnel costs, \$5,000 instead of \$0
an increase of \$125 miscellaneous costs, \$125 instead of \$0.

Other information collections in OMB Control No. 0648-0318 are unchanged.

There is no change in unduplicated respondents. There is a net increase of 604 responses; 499 hours, \$12,475 in personnel costs and \$3,249 in miscellaneous costs.

16. For collections whose results will be published, outline the plans for tabulation and publication.

NMFS has no plans to publish the results of this information collection.

17. If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons why display would be inappropriate.

No forms are available in this collection.

18. Explain each exception to the certification statement.

No forms are available in this collection.

B. COLLECTIONS OF INFORMATION EMPLOYING STATISTICAL METHODS

This collection does not employ statistical methods.

(a) FINDINGS.—The Congress finds and declares the following:

(1) The fish off the coasts of the United States, the highly migratory species of the high seas, the species which dwell on or in the Continental Shelf appertaining to the United States, and the anadromous species which spawn in United States rivers or estuaries, constitute valuable and renewable natural resources. These fishery resources contribute to the food supply, economy, and health of the Nation and provide recreational opportunities.

104-297

(2) Certain stocks of fish have declined to the point where their survival is threatened, and other stocks of fish have been so substantially reduced in number that they could become similarly threatened as a consequence of (A) increased fishing pressure, (B) the inadequacy of fishery resource conservation and management practices and controls, or (C) direct and indirect habitat losses which have resulted in a diminished capacity to support existing fishing levels.

(3) Commercial and recreational fishing constitutes a major source of employment and contributes significantly to the economy of the Nation. Many coastal areas are dependent upon fishing and related activities, and their economies have been badly damaged by the overfishing of fishery resources at an ever-increasing rate over the past decade. The activities of massive foreign fishing fleets in waters adjacent to such coastal areas have contributed to such damage, interfered with domestic fishing efforts, and caused destruction of the fishing gear of United States fishermen.

(4) International fishery agreements have not been effective in preventing or terminating the overfishing of these valuable fishery resources. There is danger that irreversible effects from overfishing will take place before an effective international agreement on fishery management jurisdiction can be negotiated, signed, ratified, and implemented.

(5) Fishery resources are finite but renewable. If placed under sound management before overfishing has caused irreversible effects, the fisheries can be conserved and maintained so as to provide optimum yields on a continuing basis.

104-297

(6) A national program for the conservation and management of the fishery resources of the United States is necessary to prevent overfishing, to rebuild overfished stocks, to insure conservation, to facilitate long-term protection of essential fish habitats, and to realize the full potential of the Nation's fishery resources.

95-354

(7) A national program for the development of fisheries which are underutilized or not utilized by the United States fishing industry, including bottom fish off Alaska, is necessary to assure that our citizens benefit from the employment, food supply, and revenue which could be generated thereby.

16 U.S.C. 1801
MSA § 2

101-627

(8) The collection of reliable data is essential to the effective conservation, management, and scientific understanding of the fishery resources of the United States.

104-297

(9) One of the greatest long-term threats to the viability of commercial and recreational fisheries is the continuing loss of marine, estuarine, and other aquatic habitats. Habitat considerations should receive increased attention for the conservation and management of fishery resources of the United States.

104-297

(10) Pacific Insular Areas contain unique historical, cultural, legal, political, and geographical circumstances which make fisheries resources important in sustaining their economic growth.

109-479

(11) A number of the Fishery Management Councils have demonstrated significant progress in integrating ecosystem considerations in fisheries management using the existing authorities provided under this Act.

109-479

(12) International cooperation is necessary to address illegal, unreported, and unregulated fishing and other fishing practices which may harm the sustainability of living marine resources and disadvantage the United States fishing industry.

(b) PURPOSES.—It is therefore declared to be the purposes of the Congress in this Act—

99-659, 101-627, 102-251

(1) to take immediate action to conserve and manage the fishery resources found off the coasts of the United States, and the anadromous species and Continental Shelf fishery resources of the United States, by exercising (A) sovereign rights for the purposes of exploring, exploiting, conserving, and managing all fish within the exclusive economic zone established by Presidential Proclamation 5030, dated March 10, 1983, and (B) exclusive fishery management authority beyond the exclusive economic zone over such anadromous species and Continental Shelf fishery resources[, and fishery resources in the special areas]*;

(2) to support and encourage the implementation and enforcement of international fishery agreements for the conservation and management of highly migratory species, and to encourage the negotiation and implementation of additional such agreements as necessary;

104-297

(3) to promote domestic commercial and recreational fishing under sound conservation and management principles, including the promotion of catch and release programs in recreational fishing;

(4) to provide for the preparation and implementation, in accordance with national standards, of fishery management plans which will achieve and maintain, on a continuing basis, the optimum yield from each fishery;

101-627

(5) to establish Regional Fishery Management Councils to exercise sound judgment in the stewardship of fishery resources through the preparation, monitoring, and revision of such plans under circumstances (A) which will enable the States, the fishing industry, consumer and environmental organizations, and other interested persons to participate in, and advise on, the establishment and administration of such plans, and (B) which take into account the social and economic needs of the States;

95-354, 96-561, 104-297

(6) to encourage the development by the United States fishing industry of fisheries which are currently underutilized or not utilized by United States fishermen, including bottom fish off Alaska, and to that end, to ensure that optimum yield determinations promote such development in a non-wasteful manner; and

104-297

(7) to promote the protection of essential fish habitat in the review of projects conducted under Federal permits, licenses, or other authorities that affect or have the potential to affect such habitat.

(c) POLICY.—It is further declared to be the policy of the Congress in this Act—

(1) to maintain without change the existing territorial or other ocean jurisdiction of the United States for all purposes other than the conservation and management of fishery resources, as provided for in this Act;

(2) to authorize no impediment to, or interference with, recognized legitimate uses of the high seas, except as necessary for the conservation and management of fishery resources, as provided for in this Act;

101-627, 104-297

(3) to assure that the national fishery conservation and management program utilizes, and is based upon, the best scientific information available; involves, and is responsive to the needs of, interested and affected States and citizens; considers efficiency; draws upon Federal, State, and academic capabilities in carrying out research, administration, management, and enforcement; considers the effects of fishing on immature fish and encourages development of practical measures that minimize bycatch and avoid unnecessary waste of fish; and is workable and effective;

(4) to permit foreign fishing consistent with the provisions of this Act;

16 U.S.C. 1801-1802
MSA §§ 2-3

99-659, 101-627

(5) to support and encourage active United States efforts to obtain internationally acceptable agreements which provide for effective conservation and management of fishery resources, and to secure agreements to regulate fishing by vessels or persons beyond the exclusive economic zones of any nation;

101-627

(6) to foster and maintain the diversity of fisheries in the United States; and

104-297

(7) to ensure that the fishery resources adjacent to a Pacific Insular Area, including resident or migratory stocks within the exclusive economic zone adjacent to such areas, be explored, developed, conserved, and managed for the benefit of the people of such area and of the United States.

SEC. 3. DEFINITIONS

16 U.S.C. 1802

As used in this Act, unless the context otherwise requires—

(1) The term "anadromous species" means species of fish which spawn in fresh or estuarine waters of the United States and which migrate to ocean waters.

104-297

(2) The term "bycatch" means fish which are harvested in a fishery, but which are not sold or kept for personal use, and includes economic discards and regulatory discards. Such term does not include fish released alive under a recreational catch and release fishery management program.

104-297

(3) The term "charter fishing" means fishing from a vessel carrying a passenger for hire (as defined in section 2101(21a) of title 46, United States Code) who is engaged in recreational fishing.

104-297

(4) The term "commercial fishing" means fishing in which the fish harvested, either in whole or in part, are intended to enter commerce or enter commerce through sale, barter or trade.

SEC. 303. CONTENTS OF FISHERY MANAGEMENT PLANS 16 U.S.C. 1853

95-354, 99-659, 101-627, 104-297

(a) **REQUIRED PROVISIONS.**—Any fishery management plan which is prepared by any Council, or by the Secretary, with respect to any fishery, shall—

(1) contain the conservation and management measures, applicable to foreign fishing and fishing by vessels of the United States, which are—

(A) necessary and appropriate for the conservation and management of the fishery to prevent overfishing and rebuild overfished stocks, and to protect, restore, and promote the long-term health and stability of the fishery;

(B) described in this subsection or subsection (b), or both; and

(C) consistent with the national standards, the other provisions of this Act, regulations implementing recommendations by international organizations in which the United States participates (including but not limited to closed areas, quotas, and size limits), and any other applicable law;

(2) contain a description of the fishery, including, but not limited to, the number of vessels involved, the type and quantity of fishing gear used, the species of fish involved and their location, the cost likely to be incurred in management, actual and potential revenues from the fishery, any recreational interest in the fishery, and the nature and extent of foreign fishing and Indian treaty fishing rights, if any;

(3) assess and specify the present and probable future condition of, and the maximum sustainable yield and optimum yield from, the fishery, and include a summary of the information utilized in making such specification;

(4) assess and specify—

(A) the capacity and the extent to which fishing vessels of the United States, on an annual basis, will harvest the optimum yield specified under paragraph (3),

(B) the portion of such optimum yield which, on an annual basis, will not be harvested by fishing vessels of the United States and can be made available for foreign fishing, and

(C) the capacity and extent to which United States fish processors, on an annual basis, will process that portion of such optimum yield that will be harvested by fishing vessels of the United States;

109-479

(5) specify the pertinent data which shall be submitted to the Secretary with respect to commercial, recreational, charter fishing, and fish processing in the fishery, including, but not limited to, information regarding the type and quantity of fishing gear used, catch by species in numbers of fish or weight thereof, areas in which fishing was engaged in, time of fishing, number of hauls, economic information necessary to meet the requirements of this Act, and the estimated processing capacity of, and the actual processing capacity utilized by, United States fish processors;

(6) consider and provide for temporary adjustments, after consultation with the Coast Guard and persons utilizing the fishery, regarding access to the fishery for vessels otherwise prevented from harvesting because of weather or other ocean conditions affecting the safe conduct of the fishery; except that the adjustment shall not adversely affect conservation efforts in other fisheries or discriminate among participants in the affected fishery;

(7) describe and identify essential fish habitat for the fishery based on the guidelines established by the Secretary under section 305(b)(1)(A), minimize to the extent practicable adverse effects on such habitat caused by fishing, and identify other actions to encourage the conservation and enhancement of such habitat;

(8) in the case of a fishery management plan that, after January 1, 1991, is submitted to the Secretary for review under section 304(a) (including any plan for which an amendment is submitted to the Secretary for such review) or is prepared by the Secretary, assess and specify the nature and extent of scientific data which is needed for effective implementation of the plan;

109-479

(9) include a fishery impact statement for the plan or amendment (in the case of a plan or amendment thereto submitted to or prepared by the Secretary after October 1, 1990) which shall assess, specify, and analyze the likely effects, if any, including the cumulative conservation, economic, and social impacts, of the conservation and management measures on, and possible mitigation measures for—

(A) participants in the fisheries and fishing communities affected by the plan or amendment;

(B) participants in the fisheries conducted in adjacent areas under the authority of another Council, after consultation with such Council and representatives of those participants; and

(C) the safety of human life at sea, including whether and to what extent such measures may affect the safety of participants in the fishery;

(10) specify objective and measurable criteria for identifying when the fishery to which the plan applies is overfished (with an analysis of how the criteria were determined and the relationship of the criteria to the reproductive potential of stocks of fish in that fishery) and, in the case of a fishery which the Council or the Secretary has determined is approaching an overfished condition or is overfished, contain conservation and management measures to prevent overfishing or end overfishing and rebuild the fishery;

(11) establish a standardized reporting methodology to assess the amount and type of bycatch occurring in the fishery, and include conservation and management measures that, to the extent practicable and in the following priority—

(A) minimize bycatch; and

(B) minimize the mortality of bycatch which cannot be avoided;

16 U.S.C. 1853
MSA § 303

(12) assess the type and amount of fish caught and released alive during recreational fishing under catch and release fishery management programs and the mortality of such fish, and include conservation and management measures that, to the extent practicable, minimize mortality and ensure the extended survival of such fish;

109-479

(13) include a description of the commercial, recreational, and charter fishing sectors which participate in the fishery, including its economic impact, and, to the extent practicable, quantify trends in landings of the managed fishery resource by the commercial, recreational, and charter fishing sectors;

109-479

(14) to the extent that rebuilding plans or other conservation and management measures which reduce the overall harvest in a fishery are necessary, allocate, taking into consideration the economic impact of the harvest restrictions or recovery benefits on the fishery participants in each sector, any harvest restrictions or recovery benefits fairly and equitably among the commercial, recreational, and charter fishing sectors in the fishery and;

109-479

(15) establish a mechanism for specifying annual catch limits in the plan (including a multiyear plan), implementing regulations, or annual specifications, at a level such that overfishing does not occur in the fishery, including measures to ensure accountability.

97-453, 99-659, 101-627, 102-251, 104-297

(b) DISCRETIONARY PROVISIONS.—Any fishery management plan which is prepared by any Council, or by the Secretary, with respect to any fishery, may—

(1) require a permit to be obtained from, and fees to be paid to, the Secretary, with respect to—

(A) any fishing vessel of the United States fishing, or wishing to fish, in the exclusive economic zone [or special areas,]* or for anadromous species or Continental Shelf fishery resources beyond such zone [or areas]*;

(B) the operator of any such vessel; or

(C) any United States fish processor who first receives fish that are subject to the plan;

109-479

(2)(A) designate zones where, and periods when, fishing shall be limited, or shall not be permitted, or shall be permitted only by specified types of fishing vessels or with specified types and quantities of fishing gear;

(B) designate such zones in areas where deep sea corals are identified under section 408, to protect deep sea corals from physical damage from fishing gear or to prevent loss or damage to such fishing gear from interactions with deep sea corals, after considering long-term sustainable uses of fishery resources in such areas; and

(C) with respect to any closure of an area under this Act that prohibits all fishing, ensure that such closure—

- (i) is based on the best scientific information available;
- (ii) includes criteria to assess the conservation benefit of the closed area;
- (iii) establishes a timetable for review of the closed area's performance that is consistent with the purposes of the closed area; and
- (iv) is based on an assessment of the benefits and impacts of the closure, including its size, in relation to other management measures (either alone or in combination with such measures), including the benefits and impacts of limiting access to: users of the area, overall fishing activity, fishery science, and fishery and marine conservation;

(3) establish specified limitations which are necessary and appropriate for the conservation and management of the fishery on the—

- (A) catch of fish (based on area, species, size, number, weight, sex, bycatch, total biomass, or other factors);
- (B) sale of fish caught during commercial, recreational, or charter fishing, consistent with any applicable Federal and State safety and quality requirements; and
- (C) transshipment or transportation of fish or fish products under permits issued pursuant to section 204;

(4) prohibit, limit, condition, or require the use of specified types and quantities of fishing gear, fishing vessels, or equipment for such vessels, including devices which may be required to facilitate enforcement of the provisions of this Act;

109-479

(5) incorporate (consistent with the national standards, the other provisions of this Act, and any other applicable law) the relevant fishery conservation and management measures of the coastal States nearest to the fishery and take into account the different circumstances affecting fisheries from different States and ports, including distances to fishing grounds and proximity to time and area closures;

109-479

(6) establish a limited access system for the fishery in order to achieve optimum yield if, in developing such system, the Council and the Secretary take into account—

- (A) present participation in the fishery;
- (B) historical fishing practices in, and dependence on, the fishery;
- (C) the economics of the fishery;
- (D) the capability of fishing vessels used in the fishery to engage in other fisheries;
- (E) the cultural and social framework relevant to the fishery and any affected fishing communities;
- (F) the fair and equitable distribution of access privileges in the fishery; and
- (G) any other relevant considerations;

16 U.S.C. 1853
MSA § 303

(7) require fish processors who first receive fish that are subject to the plan to submit data which are necessary for the conservation and management of the fishery;

(8) require that one or more observers be carried on board a vessel of the United States engaged in fishing for species that are subject to the plan, for the purpose of collecting data necessary for the conservation and management of the fishery; except that such a vessel shall not be required to carry an observer on board if the facilities of the vessel for the quartering of an observer, or for carrying out observer functions, are so inadequate or unsafe that the health or safety of the observer or the safe operation of the vessel would be jeopardized;

(9) assess and specify the effect which the conservation and management measures of the plan will have on the stocks of naturally spawning anadromous fish in the region;

(10) include, consistent with the other provisions of this Act, conservation and management measures that provide harvest incentives for participants within each gear group to employ fishing practices that result in lower levels of bycatch or in lower levels of the mortality of bycatch;

(11) reserve a portion of the allowable biological catch of the fishery for use in scientific research;

109-479

(12) include management measures in the plan to conserve target and non-target species and habitats, considering the variety of ecological factors affecting fishery populations; and

(14)[sic]¹⁵ prescribe such other measures, requirements, or conditions and restrictions as are determined to be necessary and appropriate for the conservation and management of the fishery.

97-453, 104-297

(c) PROPOSED REGULATIONS.—Proposed regulations which the Council deems necessary or appropriate for the purposes of—

(1) implementing a fishery management plan or plan amendment shall be submitted to the Secretary simultaneously with the plan or amendment under section 304; and

(2) making modifications to regulations implementing a fishery management plan or plan amendment may be submitted to the Secretary at any time after the plan or amendment is approved under section 304.

¹⁵ So in original.

P.L. 109-479, sec. 104(b), MSA § 303 note

16 U.S.C. 1853 note

EFFECTIVE DATES; APPLICATION TO CERTAIN SPECIES.—The amendment made by subsection (a)(10)¹⁶—

(1) shall, unless otherwise provided for under an international agreement in which the United States participates, take effect—

(A) in fishing year 2010 for fisheries determined by the Secretary to be subject to overfishing; and

(B) in fishing year 2011 for all other fisheries; and

(2) shall not apply to a fishery for species that have a life cycle of approximately 1 year unless the Secretary has determined the fishery is subject to overfishing of that species; and

(3) shall not limit or otherwise affect the requirements of section 301(a)(1) or 304(e) of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1851(a)(1) or 1854(e), respectively).

109-479

SEC. 303A. LIMITED ACCESS PRIVILEGE PROGRAMS.

16 U.S.C. 1853a

(a) **IN GENERAL.**—After the date of enactment of the Magnuson-Stevens Fishery Conservation and Management Reauthorization Act of 2006, a Council may submit, and the Secretary may approve, for a fishery that is managed under a limited access system, a limited access privilege program to harvest fish if the program meets the requirements of this section.

(b) **NO CREATION OF RIGHT, TITLE, OR INTEREST.**—Limited access privilege, quota share, or other limited access system authorization established, implemented, or managed under this Act—

(1) shall be considered a permit for the purposes of sections 307, 308, and 309;

(2) may be revoked, limited, or modified at any time in accordance with this Act, including revocation if the system is found to have jeopardized the sustainability of the stock or the safety of fishermen;

(3) shall not confer any right of compensation to the holder of such limited access privilege, quota share, or other such limited access system authorization if it is revoked, limited, or modified;

(4) shall not create, or be construed to create, any right, title, or interest in or to any fish before the fish is harvested by the holder; and

(5) shall be considered a grant of permission to the holder of the limited access privilege or quota share to engage in activities permitted by such limited access privilege or quota share.

¹⁶ Section 104(a)(10) of P.L. 109-479 added section 303(a)(15).

(c) REQUIREMENTS FOR LIMITED ACCESS PRIVILEGES.—

(1) IN GENERAL.—Any limited access privilege program to harvest fish submitted by a Council or approved by the Secretary under this section shall—

(A) if established in a fishery that is overfished or subject to a rebuilding plan, assist in its rebuilding;

(B) if established in a fishery that is determined by the Secretary or the Council to have over-capacity, contribute to reducing capacity;

(C) promote—

(i) fishing safety;

(ii) fishery conservation and management; and

(iii) social and economic benefits;

(D) prohibit any person other than a United States citizen, a corporation, partnership, or other entity established under the laws of the United States or any State, or a permanent resident alien, that meets the eligibility and participation requirements established in the program from acquiring a privilege to harvest fish, including any person that acquires a limited access privilege solely for the purpose of perfecting or realizing on a security interest in such privilege;

(E) require that all fish harvested under a limited access privilege program be processed on vessels of the United States or on United States soil (including any territory of the United States);

(F) specify the goals of the program;

(G) include provisions for the regular monitoring and review by the Council and the Secretary of the operations of the program, including determining progress in meeting the goals of the program and this Act, and any necessary modification of the program to meet those goals, with a formal and detailed review 5 years after the implementation of the program and thereafter to coincide with scheduled Council review of the relevant fishery management plan (but no less frequently than once every 7 years);

(H) include an effective system for enforcement, monitoring, and management of the program, including the use of observers or electronic monitoring systems;

(I) include an appeals process for administrative review of the Secretary's decisions regarding initial allocation of limited access privileges;

(J) provide for the establishment by the Secretary, in consultation with appropriate Federal agencies, for an information collection and review process to provide any additional information needed to determine whether any illegal acts of anti-competition, anti-trust, price collusion, or price fixing have occurred among regional fishery associations or persons receiving limited access privileges under the program; and

(K) provide for the revocation by the Secretary of limited access privileges held by any person found to have violated the antitrust laws of the United States.

(2) WAIVER.—The Secretary may waive the requirement of paragraph (1)(E) if the Secretary determines that—

- (A) the fishery has historically processed the fish outside of the United States; and
- (B) the United States has a seafood safety equivalency agreement with the country where processing will occur.

(3) FISHING COMMUNITIES.—

(A) IN GENERAL.—

(i) ELIGIBILITY.—To be eligible to participate in a limited access privilege program to harvest fish, a fishing community shall—

- (I) be located within the management area of the relevant Council;
- (II) meet criteria developed by the relevant Council, approved by the Secretary, and published in the Federal Register;
- (III) consist of residents who conduct commercial or recreational fishing, processing, or fishery-dependent support businesses within the Council's management area; and
- (IV) develop and submit a community sustainability plan to the Council and the Secretary that demonstrates how the plan will address the social and economic development needs of coastal communities, including those that have not historically had the resources to participate in the fishery, for approval based on criteria developed by the Council that have been approved by the Secretary and published in the Federal Register.

(ii) FAILURE TO COMPLY WITH PLAN.—The Secretary shall deny or revoke limited access privileges granted under this section for any person who fails to comply with the requirements of the community sustainability plan. Any limited access privileges denied or revoked under this section may be reallocated to other eligible members of the fishing community.

- (B) PARTICIPATION CRITERIA.—In developing participation criteria for eligible communities under this paragraph, a Council shall consider—
- (i) traditional fishing or processing practices in, and dependence on, the fishery;
 - (ii) the cultural and social framework relevant to the fishery;
 - (iii) economic barriers to access to fishery;
 - (iv) the existence and severity of projected economic and social impacts associated with implementation of limited access privilege programs on harvesters, captains, crew, processors, and other businesses substantially dependent upon the fishery in the region or subregion;
 - (v) the expected effectiveness, operational transparency, and equitability of the community sustainability plan; and
 - (vi) the potential for improving economic conditions in remote coastal communities lacking resources to participate in harvesting or processing activities in the fishery.

(4) REGIONAL FISHERY ASSOCIATIONS.—

(A) IN GENERAL.—To be eligible to participate in a limited access privilege program to harvest fish, a regional fishery association shall—

- (i) be located within the management area of the relevant Council;
- (ii) meet criteria developed by the relevant Council, approved by the Secretary, and published in the Federal Register;
- (iii) be a voluntary association with established by-laws and operating procedures;
- (iv) consist of participants in the fishery who hold quota share that are designated for use in the specific region or subregion covered by the regional fishery association, including commercial or recreational fishing, processing, fishery-dependent support businesses, or fishing communities;
- (v) not be eligible to receive an initial allocation of a limited access privilege but may acquire such privileges after the initial allocation, and may hold the annual fishing privileges of any limited access privileges it holds or the annual fishing privileges that is [sic]¹⁷ members contribute; and
- (vi) develop and submit a regional fishery association plan to the Council and the Secretary for approval based on criteria developed by the Council that have been approved by the Secretary and published in the Federal Register.

(B) FAILURE TO COMPLY WITH PLAN.—The Secretary shall deny or revoke limited access privileges granted under this section to any person participating in a regional fishery association who fails to comply with the requirements of the regional fishery association plan.

¹⁷ So in original.

(C) PARTICIPATION CRITERIA.—In developing participation criteria for eligible regional fishery associations under this paragraph, a Council shall consider—

- (i) traditional fishing or processing practices in, and dependence on, the fishery;
- (ii) the cultural and social framework relevant to the fishery;
- (iii) economic barriers to access to fishery;
- (iv) the existence and severity of projected economic and social impacts associated with implementation of limited access privilege programs on harvesters, captains, crew, processors, and other businesses substantially dependent upon the fishery in the region or subregion;
- (v) the administrative and fiduciary soundness of the association; and
- (vi) the expected effectiveness, operational transparency, and equitability of the fishery association plan.

(5) ALLOCATION.—In developing a limited access privilege program to harvest fish a Council or the Secretary shall—

(A) establish procedures to ensure fair and equitable initial allocations, including consideration of—

- (i) current and historical harvests;
- (ii) employment in the harvesting and processing sectors;
- (iii) investments in, and dependence upon, the fishery; and
- (iv) the current and historical participation of fishing communities;

(B) consider the basic cultural and social framework of the fishery, especially through—

- (i) the development of policies to promote the sustained participation of small owner-operated fishing vessels and fishing communities that depend on the fisheries, including regional or port-specific landing or delivery requirements; and
- (ii) procedures to address concerns over excessive geographic or other consolidation in the harvesting or processing sectors of the fishery;

(C) include measures to assist, when necessary and appropriate, entry-level and small vessel owner-operators, captains, crew, and fishing communities through set-asides of harvesting allocations, including providing privileges, which may include set-asides or allocations of harvesting privileges, or economic assistance in the purchase of limited access privileges;

(D) ensure that limited access privilege holders do not acquire an excessive share of the total limited access privileges in the program by—

- (i) establishing a maximum share, expressed as a percentage of the total limited access privileges, that a limited access privilege holder is permitted to hold, acquire, or use; and
- (ii) establishing any other limitations or measures necessary to prevent an inequitable concentration of limited access privileges; and

(E) authorize limited access privileges to harvest fish to be held, acquired, used by, or issued under the system to persons who substantially participate in the fishery, including in a specific sector of such fishery, as specified by the Council.

(6) PROGRAM INITIATION.—

(A) LIMITATION.—Except as provided in subparagraph (D), a Council may initiate a fishery management plan or amendment to establish a limited access privilege program to harvest fish on its own initiative or if the Secretary has certified an appropriate petition.

(B) PETITION.—A group of fishermen constituting more than 50 percent of the permit holders, or holding more than 50 percent of the allocation, in the fishery for which a limited access privilege program to harvest fish is sought, may submit a petition to the Secretary requesting that the relevant Council or Councils with authority over the fishery be authorized to initiate the development of the program. Any such petition shall clearly state the fishery to which the limited access privilege program would apply. For multispecies permits in the Gulf of Mexico, only those participants who have substantially fished the species proposed to be included in the limited access program shall be eligible to sign a petition for such a program and shall serve as the basis for determining the percentage described in the first sentence of this subparagraph.

(C) CERTIFICATION BY SECRETARY.—Upon the receipt of any such petition, the Secretary shall review all of the signatures on the petition and, if the Secretary determines that the signatures on the petition represent more than 50 percent of the permit holders, or holders of more than 50 percent of the allocation in the fishery, as described by subparagraph (B), the Secretary shall certify the petition to the appropriate Council or Councils.

(D) NEW ENGLAND AND GULF REFERENDUM.—

(i) Except as provided in clause (iii) for the Gulf of Mexico commercial red snapper fishery, the New England and Gulf Councils may not submit, and the Secretary may not approve or implement, a fishery management plan or amendment that creates an individual fishing quota program, including a Secretarial plan, unless such a system, as ultimately developed, has been approved by more than 2/3 of those voting in a referendum among eligible permit holders, or other persons described in clause (v), with respect to the New England Council, and by a majority of those voting in the referendum among eligible permit holders with respect to the Gulf Council. For multispecies permits in the Gulf of Mexico, only those participants who have substantially fished the species proposed to be included in the individual fishing quota program shall be eligible to vote in such a referendum. If an individual fishing quota program fails to be approved by the requisite number of those voting, it may be revised and submitted for approval in a subsequent referendum.

(ii) The Secretary shall conduct a referendum under this subparagraph, including notifying all persons eligible to participate in the referendum and making available to them information concerning the schedule, procedures, and eligibility requirements for the referendum process and the proposed individual fishing quota program. Within 1 year after the date of enactment of the Magnuson-Stevens Fishery Conservation and Management Reauthorization Act of 2006, the Secretary shall publish guidelines and procedures to determine procedures and voting eligibility requirements for referenda and to conduct such referenda in a fair and equitable manner.

(iii) The provisions of section 407(c) of this Act shall apply in lieu of this subparagraph for an individual fishing quota program for the Gulf of Mexico commercial red snapper fishery.

(iv) Chapter 35 of title 44, United States Code, (commonly known as the Paperwork Reduction Act) does not apply to the referenda conducted under this subparagraph.

(v) The Secretary shall promulgate criteria for determining whether additional fishery participants are eligible to vote in the New England referendum described in clause (i) in order to ensure that crew members who derive a significant percentage of their total income from the fishery under the proposed program are eligible to vote in the referendum.

(vi) In this subparagraph, the term ‘individual fishing quota’ does not include a sector allocation.

(7) TRANSFERABILITY.—In establishing a limited access privilege program, a Council shall—

(A) establish a policy and criteria for the transferability of limited access privileges (through sale or lease), that is consistent with the policies adopted by the Council for the fishery under paragraph (5); and

(B) establish, in coordination with the Secretary, a process for monitoring of transfers (including sales and leases) of limited access privileges.

(8) PREPARATION AND IMPLEMENTATION OF SECRETARIAL PLANS.—This subsection also applies to a plan prepared and implemented by the Secretary under section 304(c) or 304(g).

(9) ANTITRUST SAVINGS CLAUSE.—Nothing in this Act shall be construed to modify, impair, or supersede the operation of any of the antitrust laws. For purposes of the preceding sentence, the term ‘antitrust laws’ has the meaning given such term in subsection (a) of the first section of the Clayton Act, except that such term includes section 5 of the Federal Trade Commission Act to the extent that such section 5 applies to unfair methods of competition.

16 U.S.C. 1853a
MSA § 303A

(d) AUCTION AND OTHER PROGRAMS.—In establishing a limited access privilege program, a Council shall consider, and may provide, if appropriate, an auction system or other program to collect royalties for the initial, or any subsequent, distribution of allocations in a limited access privilege program if—

(1) the system or program is administered in such a way that the resulting distribution of limited access privilege shares meets the program requirements of this section; and

(2) revenues generated through such a royalty program are deposited in the Limited Access System Administration Fund established by section 305(h)(5)(B) and available subject to annual appropriations.

(e) COST RECOVERY.—In establishing a limited access privilege program, a Council shall—

(1) develop a methodology and the means to identify and assess the management, data collection and analysis, and enforcement programs that are directly related to and in support of the program; and

(2) provide, under section 304(d)(2), for a program of fees paid by limited access privilege holders that will cover the costs of management, data collection and analysis, and enforcement activities.

(f) CHARACTERISTICS.—A limited access privilege established after the date of enactment of the Magnuson-Stevens Fishery Conservation and Management Reauthorization Act of 2006 is a permit issued for a period of not more than 10 years that—

(1) will be renewed before the end of that period, unless it has been revoked, limited, or modified as provided in this subsection;

(2) will be revoked, limited, or modified if the holder is found by the Secretary, after notice and an opportunity for a hearing under section 554 of title 5, United States Code, to have failed to comply with any term of the plan identified in the plan as cause for revocation, limitation, or modification of a permit, which may include conservation requirements established under the plan;

(3) may be revoked, limited, or modified if the holder is found by the Secretary, after notice and an opportunity for a hearing under section 554 of title 5, United States Code, to have committed an act prohibited by section 307 of this Act; and

(4) may be acquired, or reacquired, by participants in the program under a mechanism established by the Council if it has been revoked, limited, or modified under paragraph (2) or (3).

(g) LIMITED ACCESS PRIVILEGE ASSISTED PURCHASE PROGRAM.—

(1) IN GENERAL.—A Council may submit, and the Secretary may approve and implement, a program which reserves up to 25 percent of any fees collected from a fishery under section 304(d)(2) to be used, pursuant to section 53706(a)(7) of title 46, United States Code, to issue obligations that aid in financing—

(A) the purchase of limited access privileges in that fishery by fishermen who fish from small vessels; and

(B) the first-time purchase of limited access privileges in that fishery by entry level fishermen.

(2) ELIGIBILITY CRITERIA.—A Council making a submission under paragraph (1) shall recommend criteria, consistent with the provisions of this Act, that a fisherman must meet to qualify for guarantees under subparagraphs (A) and (B) of paragraph (1) and the portion of funds to be allocated for guarantees under each subparagraph.

(h) EFFECT ON CERTAIN EXISTING SHARES AND PROGRAMS.—Nothing in this Act, or the amendments made by the Magnuson-Stevens Fishery Conservation and Management Reauthorization Act of 2006, shall be construed to require a reallocation or a reevaluation of individual quota shares, processor quota shares, cooperative programs, or other quota programs, including sector allocation in effect before the date of enactment of the Magnuson-Stevens Fishery Conservation and Management Reauthorization Act of 2006.

(i) TRANSITION RULES.—

(1) IN GENERAL.—The requirements of this section shall not apply to any quota program, including any individual quota program, cooperative program, or sector allocation for which a Council has taken final action or which has been submitted by a Council to the Secretary, or approved by the Secretary, within 6 months after the date of enactment of the Magnuson-Stevens Fishery Conservation and Management Reauthorization Act of 2006, except that—

(A) the requirements of section 303(d) of this Act in effect on the day before the date of enactment of that Act shall apply to any such program;

(B) the program shall be subject to review under subsection (c)(1)(G) of this section not later than 5 years after the program implementation; and

(C) nothing in this subsection precludes a Council from incorporating criteria contained in this section into any such plans.

(2) PACIFIC GROUND FISH PROPOSALS.—The requirements of this section, other than subparagraphs (A) and (B) of subsection (c)(1) and subparagraphs (A), (B), and (C) of paragraph (1) of this subsection, shall not apply to any proposal authorized under section 302(f) of the Magnuson-Stevens Fishery Conservation and Management Reauthorization Act of 2006 that is submitted within the timeframe prescribed by that section.

P.L. 109-479, sec. 106(e), MSA § 303A note

16 U.S.C. 1853a note

APPLICATION WITH AMERICAN FISHERIES ACT.—Nothing in section 303A of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.), as added by subsection (a) [P.L. 109-479], shall be construed to modify or supersede any provision of the American Fisheries Act (46 U.S.C. 12102 note; 16 U.S.C. 1851 note; et alia).

P.L. 104-297, sec. 108(i), MSA § 303 note

EXISTING QUOTA PLANS.—Nothing in this Act [P.L.104-297] or the amendments made by this Act shall be construed to require a reallocation of individual fishing quotas under any individual fishing quota program approved by the Secretary before January 4, 1995.

SEC. 304. ACTION BY THE SECRETARY

16 U.S.C. 1854

104-297

(a) **REVIEW OF PLANS.**—

(1) Upon transmittal by the Council to the Secretary of a fishery management plan or plan amendment, the Secretary shall—

(A) immediately commence a review of the plan or amendment to determine whether it is consistent with the national standards, the other provisions of this Act, and any other applicable law; and

(B) immediately publish in the Federal Register a notice stating that the plan or amendment is available and that written information, views, or comments of interested persons on the plan or amendment may be submitted to the Secretary during the 60-day period beginning on the date the notice is published.

(2) In undertaking the review required under paragraph (1), the Secretary shall—

(A) take into account the information, views, and comments received from interested persons;

(B) consult with the Secretary of State with respect to foreign fishing; and

(C) consult with the Secretary of the department in which the Coast Guard is operating with respect to enforcement at sea and to fishery access adjustments referred to in section 303(a)(6).

(3) The Secretary shall approve, disapprove, or partially approve a plan or amendment within 30 days of the end of the comment period under paragraph (1) by written notice to the Council. A notice of disapproval or partial approval shall specify—

(A) the applicable law with which the plan or amendment is inconsistent;

(B) the nature of such inconsistencies; and

(C) recommendations concerning the actions that could be taken by the Council to conform such plan or amendment to the requirements of applicable law.

If the Secretary does not notify a Council within 30 days of the end of the comment period of the approval, disapproval, or partial approval of a plan or amendment, then such plan or amendment shall take effect as if approved.

104-297

SEC. 402. INFORMATION COLLECTION

16 U.S.C. 1881a

109-479

(a) COLLECTION PROGRAMS.—

(1) COUNCIL REQUESTS.—If a Council determines that additional information would be beneficial for developing, implementing, or revising a fishery management plan or for determining whether a fishery is in need of management, the Council may request that the Secretary implement an information collection program for the fishery which would provide the types of information specified by the Council. The Secretary shall undertake such an information collection program if he determines that the need is justified, and shall promulgate regulations to implement the program within 60 days after such determination is made. If the Secretary determines that the need for an information collection program is not justified, the Secretary shall inform the Council of the reasons for such determination in writing. The determinations of the Secretary under this paragraph regarding a Council request shall be made within a reasonable period of time after receipt of that request.

(2) SECRETARIAL INITIATION.—If the Secretary determines that additional information is necessary for developing, implementing, revising, or monitoring a fishery management plan, or for determining whether a fishery is in need of management, the Secretary may, by regulation, implement an information collection or observer program requiring submission of such additional information for the fishery.

109-479

(b) CONFIDENTIALITY OF INFORMATION.—

(1) Any information submitted to the Secretary, a State fishery management agency, or a marine fisheries commission by any person in compliance with the requirements of this Act shall be confidential and shall not be disclosed except—

(A) to Federal employees and Council employees who are responsible for fishery management plan development, monitoring, or enforcement;

(B) to State or Marine Fisheries Commission employees as necessary to further the Department's mission, subject to a confidentiality agreement that prohibits public disclosure of the identity of business of any person;

(C) to State employees who are responsible for fishery management plan enforcement, if the States employing those employees have entered into a fishery enforcement agreement with the Secretary and the agreement is in effect;

(D) when required by court order;

(E) when such information is used by State, Council, or Marine Fisheries Commission employees to verify catch under a limited access program, but only to the extent that such use is consistent with subparagraph (B);

(F) when the Secretary has obtained written authorization from the person submitting such information to release such information to persons for reasons not otherwise provided for in this subsection, and such release does not violate other requirements of this Act;

(G) when such information is required to be submitted to the Secretary for any determination under a limited access program; or

(H) in support of homeland and national security activities, including the Coast Guard's homeland security missions as defined in section 888(a)(2) of the Homeland Security Act of 2002 (6 U.S.C. 468(a)(2)).

(2) Any observer information shall be confidential and shall not be disclosed, except in accordance with the requirements of subparagraphs (A) through (H) of paragraph (1), or—

(A) as authorized by a fishery management plan or regulations under the authority of the North Pacific Council to allow disclosure to the public of weekly summary bycatch information identified by vessel or for haul-specific bycatch information without vessel identification;

(B) when such information is necessary in proceedings to adjudicate observer certifications; or

(C) as authorized by any regulations issued under paragraph (3) allowing the collection of observer information, pursuant to a confidentiality agreement between the observers, observer employers, and the Secretary prohibiting disclosure of the information by the observers or observer employers, in order—

(i) to allow the sharing of observer information among observers and between observers and observer employers as necessary to train and prepare observers for deployments on specific vessels; or

(ii) to validate the accuracy of the observer information collected.

(3) The Secretary shall, by regulation, prescribe such procedures as may be necessary to preserve the confidentiality of information submitted in compliance with any requirement or regulation under this Act, except that the Secretary may release or make public any such information in any aggregate or summary form which does not directly or indirectly disclose the identity or business of any person who submits such information. Nothing in this subsection shall be interpreted or construed to prevent the use for conservation and management purposes by the Secretary, or with the approval of the Secretary, the Council, of any information submitted in compliance with any requirement or regulation under this Act or the use, release, or publication of bycatch information pursuant to paragraph (2)(A).

(c) RESTRICTION ON USE OF CERTAIN INFORMATION.—

(1) The Secretary shall promulgate regulations to restrict the use, in civil enforcement or criminal proceedings under this Act, the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361 et seq.), and the Endangered Species Act (16 U.S.C. 1531 et seq.), of information collected by voluntary fishery data collectors, including sea samplers, while aboard any vessel for conservation and management purposes if the presence of such a fishery data collector aboard is not required by any of such Acts or regulations thereunder.

(2) The Secretary may not require the submission of a Federal or State income tax return or statement as a prerequisite for issuance of a permit until such time as the Secretary has promulgated regulations to ensure the confidentiality of information contained in such return or statement, to limit the information submitted to that necessary to achieve a demonstrated conservation and management purpose, and to provide appropriate penalties for violation of such regulations.

16 U.S.C. 1881a-1881b
MSA §§ 402-403

(d) **CONTRACTING AUTHORITY.**—Notwithstanding any other provision of law, the Secretary may provide a grant, contract, or other financial assistance on a sole-source basis to a State, Council, or Marine Fisheries Commission for the purpose of carrying out information collection or other programs if—

(1) the recipient of such a grant, contract, or other financial assistance is specified by statute to be, or has customarily been, such State, Council, or Marine Fisheries Commission; or

(2) the Secretary has entered into a cooperative agreement with such State, Council, or Marine Fisheries Commission.

(e) **RESOURCE ASSESSMENTS.**—

(1) The Secretary may use the private sector to provide vessels, equipment, and services necessary to survey the fishery resources of the United States when the arrangement will yield statistically reliable results.

(2) The Secretary, in consultation with the appropriate Council and the fishing industry--

(A) may structure competitive solicitations under paragraph (1) so as to compensate a contractor for a fishery resources survey by allowing the contractor to retain for sale fish harvested during the survey voyage;

(B) in the case of a survey during which the quantity or quality of fish harvested is not expected to be adequately compensatory, may structure those solicitations so as to provide that compensation by permitting the contractor to harvest on a subsequent voyage and retain for sale a portion of the allowable catch of the surveyed fishery; and

(C) may permit fish harvested during such survey to count toward a vessel's catch history under a fishery management plan if such survey was conducted in a manner that precluded a vessel's participation in a fishery that counted under the plan for purposes of determining catch history.

(3) The Secretary shall undertake efforts to expand annual fishery resource assessments in all regions of the Nation.

104-297

SEC. 403. OBSERVERS

16 U.S.C. 1881b

(a) **GUIDELINES FOR CARRYING OBSERVERS.**—Within one year after the date of enactment of the Sustainable Fisheries Act, the Secretary shall promulgate regulations, after notice and opportunity for public comment, for fishing vessels that carry observers. The regulations shall include guidelines for determining—

(1) when a vessel is not required to carry an observer on board because the facilities of such vessel for the quartering of an observer, or for carrying out observer functions, are so inadequate or unsafe that the health or safety of the observer or the safe operation of the vessel would be jeopardized; and

(2) actions which vessel owners or operators may reasonably be required to take to render such facilities adequate and safe.

Title 50: Wildlife and Fisheries

PART 679—FISHERIES OF THE EXCLUSIVE ECONOMIC ZONE OFF ALASKA

Subpart E—Groundfish Observer Program

§ 679.50 Groundfish Observer Program.

(a) *General.* Operators of vessels possessing a Federal fisheries permit under §679.4(b)(1) and processors that possess a Federal processor permit under §679.4(f)(1), must comply with this section. The owner of a fishing vessel or a processor subject to this part must ensure that the operator or manager complies with this section and is jointly and severally liable for such compliance. The following table provides a reference to the paragraphs in this section that contain observer coverage requirements for vessels, shoreside processors, and stationary floating processors participating in certain fishery programs or fishing in certain areas. Observer coverage for the CDQ fisheries obtained in compliance with paragraphs (c)(4) and (d)(5) of this section may not be used to comply with observer coverage requirements for non-CDQ groundfish fisheries specified in this section.

| Program | Catcher/processors | Catcher vessels | Motherships | Shoreside and stationary floating processors |
|---|---------------------------------|------------------------|--------------------|---|
| (1) CDQ Program | (c)(4) | (c)(4) | (c)(4) | (d)(5). |
| (2) AFA pollock | (c)(5)(i)(A) and (B) | (c)(1) through (3) | (c)(5)(i)(A) | (d)(6). |
| (3) Aleutian Islands pollock | (c)(5)(i)(C) | (c)(1) through (3) | (c)(5)(i)(C) | (d)(1) through (4). |
| (4) Rockfish Program | (c)(7)(i) | (c)(7)(ii) | N/A | (d)(7). |
| (5) Vessels fishing in the Red King Crab Savings Area | (c)(1)(vii) | (c)(1)(viii) | N/A | N/A. |
| (6) Vessels fishing in the Nearshore Bristol Bay Trawl Closure Area | (c)(1)(ix) | (c)(1)(ix) | N/A | N/A. |
| (7) Vessels fishing in the HLA for Atka mackerel | (c)(1)(x) | (c)(1)(x) | N/A | N/A. |
| (8) Amendment 80 vessels and Non-AFA trawl C/Ps fishing in the BSAI | (c)(6) | N/A | N/A | N/A. |
| (9) Vessels and processors participating in all other BSAI and GOA groundfish fisheries | (c)(1) through (3), in GOA only | (c)(1) through (3) | (c)(1) through (3) | (d)(1) through (4). |

(b) *Purpose.* The purpose of the Groundfish Observer Program is to allow observers to collect Alaska fisheries data deemed by the Regional Administrator to be necessary and appropriate for management, compliance monitoring, and research of groundfish fisheries and for the conservation of marine resources or their environment.

(c) *Observer requirements for vessels.* (1) Observer coverage is required as follows:

(i) A mothership of any length that processes 1,000 mt or more in round-weight equivalent of groundfish during a calendar month is required to have an observer aboard the vessel each day it receives or processes groundfish during that month.

(ii) A mothership of any length that processes from 500 mt to 1,000 mt in round-weight equivalent of groundfish during a calendar month is required to have an observer aboard the vessel at least 30 percent of the days it receives or processes groundfish during that month.

(iii) Each mothership that receives pollock harvested by catcher vessels in the catcher vessel operational area during the second pollock season that starts on September 1 under §679.23(e)(2) is required to have a second observer aboard, in addition to the observer required under paragraphs (c)(1) (i) and (ii) of this section, for each day of the second pollock season until the chum salmon savings area is closed under §679.21(e)(7)(vii), or October 15, whichever occurs first.

(iv) A catcher/processor or catcher vessel 125 ft (38.1 m) LOA or longer must carry an observer during 100 percent of its fishing days except for a vessel fishing for groundfish with pot gear as provided in paragraph (c)(1)(vii) of this section.

(v) A catcher/processor or catcher vessel equal to or greater than 60 ft (18.3 m) LOA, but less than 125 ft (38.1 m) LOA, that participates for more than 3 fishing days in a directed fishery for groundfish in a calendar quarter must carry an observer during at least 30 percent of its fishing days in that calendar quarter and at all times during at least one fishing trip in that calendar quarter for each of the groundfish fishery categories defined under paragraph (c)(2) of this section in which the vessel participates.

(vi) A catcher/processor or catcher vessel fishing with hook-and-line gear that is required to carry an observer under paragraph (c)(1)(v) of this section must carry an observer during at least one entire fishing trip using hook-and-line

gear in the Eastern GOA regulatory area during each calendar quarter in which the vessel participates in a directed fishery for groundfish in the Eastern Regulatory Area using hook-and-line gear.

(vii) *Vessels using pot gear.* (A) A catcher/processor or catcher vessel equal to or greater than 60 ft (18.3 m) LOA fishing with pot gear that participates for more than 3 fishing days in a directed fishery for groundfish in a calendar quarter must carry an observer:

(1) For at least 30 percent of the total number of pot retrievals for that calendar quarter, and

(2) For at least one entire fishing trip using pot gear in a calendar quarter, for each of the groundfish fishery categories defined under paragraph (c)(2) of this section in which the vessel participates.

(B) Groundfish are required to be retained each day that pot gear is retrieved in order for gear retrieved that day to count toward observer coverage requirements for all catcher vessels and catcher/processors using pot gear and required to carry observers.

(viii) *Red King Crab Savings Area.* (A) Any catcher/processor or catcher vessel used to fish for groundfish in the Red King Crab Savings area must carry an observer during 100 percent of its fishing days in which the vessel uses pelagic trawl gear, pot, jig, or longline gear.

(B) Any catcher/processor or catcher vessel used to fish for groundfish in the Red King Crab Savings Subarea and subject to this subarea being open to vessels fishing for groundfish with non-pelagic trawl gear under §679.21(e)(3)(ii)(B), must carry an observer during 100 percent of its fishing days in which the vessel uses non-pelagic trawl gear.

(ix) *Nearshore Bristol Bay Trawl Closure.* Any catcher/processor or catcher vessel used to fish for groundfish in the Nearshore Bristol Bay Trawl Closure area must carry an observer during 100 percent of its fishing days in which the vessel uses trawl gear.

(x) A vessel directed fishing with trawl gear for Atka mackerel in the Aleutian Islands subarea must carry two NMFS-certified observers at all times while directed fishing for Atka mackerel in the HLA directed fishery, as specified in §679.20(a)(8).

(2) *Groundfish fishery categories requiring separate coverage.* Directed fishing for groundfish, during any fishing trip, that results:

(i) *Pollock fishery.* In a retained catch of pollock that is greater than the retained catch of any other groundfish species or species group that is specified as a separate groundfish fishery under this paragraph (c)(2) and in a retained catch of pollock harvested in the AI directed pollock fishery.

(ii) *Pacific cod fishery.* In a retained catch of Pacific cod that is greater than the retained catch of any other groundfish species or species group that is specified as a separate groundfish fishery under this paragraph (c)(2).

(iii) *Sablefish fishery.* In a retained catch of sablefish that is greater than the retained catch of any other groundfish species or species group that is specified as a separate groundfish fishery under this paragraph (c)(2).

(iv) *Rockfish fishery.* In a retained aggregate catch of rockfish that is greater than the retained catch of any other groundfish species or species group that is specified as a separate groundfish fishery under this paragraph (c)(2).

(v) *Flatfish fishery.* In a retained aggregate catch of all flatfish species, except Pacific halibut, that is greater than the retained catch of any other groundfish species or species group that is specified as a separate groundfish fishery under this paragraph (c)(2).

(vi) *Other species fishery.* In a retained catch of groundfish that does not qualify as a pollock, Pacific cod, sablefish, rockfish, or flatfish fishery as defined under paragraphs (c)(2) (i) through (v) of this section.

(vii) *Rockfish Program.* In retained catch from Rockfish Program fisheries.

(3) *Assignment of vessels to fisheries.* At the end of any fishing trip, a vessel's retained catch of groundfish species or species groups for which a TAC has been specified under §679.20, in round-weight equivalent, will determine to which fishery category listed under paragraph (c)(2) of this section the vessel is assigned.

(i) *Catcher/processors.* A catcher/processor will be assigned to a fishery category based on the retained groundfish catch composition reported on the vessel's production report submitted to the Regional Administrator under §679.5(e)(10).

(ii) *Catcher vessel delivery in Federal waters.* A catcher vessel that delivers to a mothership in Federal waters will be assigned to a fishery category based on the retained groundfish catch composition reported on the production reports submitted to the Regional Administrator under §679.5(e)(10).

(iii) *Catcher vessel delivery in Alaska State waters.* A catcher vessel that delivers groundfish to a shoreside processor or stationary floating processor will be assigned to a fishery category based on the retained groundfish catch composition reported on one or more ADF&G fish tickets as required under Alaska Statutes at A.S. 16.05.690.

(4) *Groundfish and halibut CDQ fisheries.* The owner or operator of a vessel groundfish CDQ fishing or halibut CDQ fishing as defined at §679.2 must comply with the following minimum observer coverage requirements each day that the vessel is used to transport (catcher vessels only), harvest, process, deliver or take delivery of CDQ or PSQ species. The time required for the level 2 observer to complete sampling, data recording, and data communication

duties shall not exceed 12 hours in each 24-hour period, and, the level 2 observer is required to sample no more than 9 hours in each 24-hour period.

(i) *Motherships or catcher/processors using trawl gear*—(A) *CDQ groundfish fisheries (effective January 20, 2008)*—
(1) *Catcher/processors using trawl gear*. A catcher/processor not listed in §679.4(1)(2)(i) using trawl gear and groundfish CDQ fishing, except catcher/processors directed fishing for pollock CDQ, must comply with the observer coverage requirements at paragraph (c)(6)(i) of this section and the catch monitoring requirements in §679.93(c).

(2) *Motherships*. A mothership that receives groundfish from catcher vessels using trawl gear and groundfish CDQ fishing, except catcher vessels directed fishing for pollock CDQ, must have at least two level 2 observers as described at paragraphs (j)(1)(v)(D) and (E) of this section onboard the vessel, at least one of whom must be endorsed as a lead level 2 observer.

(B) *Pollock CDQ fishery*. A mothership or catcher/processor using trawl gear to participate in a directed fishery for pollock CDQ must have at least two NMFS-certified observers aboard the vessel, at least one of whom must be certified as a lead level 2 observer.

(ii) *Catcher/processors using hook-and-line gear*. A catcher/processor using hook-and-line gear must have at least two level 2 observers as described at paragraphs (j)(1)(v)(D) and (E) of this section aboard the vessels, unless NMFS approves an alternative fishing plan under §679.32(e)(3) authorizing the vessel to carry only one lead level 2 observer. At least one of the level 2 observers must be certified as a lead level 2 observer. NMFS may approve an alternative fishing plan authorizing the vessel to carry only one lead level 2 observer if the CDQ group supplies vessel logbook or observer data that demonstrates that one level 2 observer can sample each CDQ set for species composition in one 12-hour shift per fishing day. NMFS will not approve an alternative fishing plan that would require the observer to divide a 12-hour shift into shifts of less than 6 hours.

(iii) *Catcher/processors using pot gear*. A catcher/processor using pot gear must have at least one lead level 2 observer as described at paragraph (j)(1)(v)(E) of this section aboard the vessel.

(iv) *Catcher vessel using trawl gear*. A catcher vessel equal to or greater than 60 ft (18.3 m) LOA using trawl gear, except a catcher vessel that delivers only unsorted codends to a processor or another vessel, must have at least one level 2 observer as described at paragraph (j)(1)(v)(D) of this section aboard the vessel.

(v) *Catcher vessel using nontrawl gear*. A catcher vessel equal to or greater than 60 ft (18.3 m) LOA using nontrawl gear must meet the following observer coverage requirements:

(A) *Option 1*. If the vessel operator selected Option 1 (as described at §679.32(d)(2)(ii)(A)) for CDQ catch accounting, then at least one level 2 observer as described at paragraph (j)(1)(v)(D) of this section must be aboard the vessel.

(B) *Option 2*. If the vessel operator selected Option 2 (as described at §679.32(d)(2)(ii)(B)) for CDQ catch accounting, then at least one lead level 2 observer as described at paragraph (j)(1)(v)(E) of this section must be aboard the vessel.

(5) [Reserved]

(6) *Amendment 80 vessels and non-AFA trawl catcher/processors (effective January 20, 2008)*—(i) *Amendment 80 vessels and catcher/processors not listed in §679.4(1)(2)(i) and using trawl gear in the BSAI*. All Amendment 80 vessels using any gear but dredge gear while directed fishing for scallops and catcher/processors not listed in §679.4(1)(2)(i) and using trawl gear in the BSAI must have onboard at least two NMFS-certified observers for each day that the vessel is used to harvest, receive, or process groundfish in the BSAI or adjacent waters open by the State of Alaska for which it adopts a Federal fishing season.

(A) *Observer lead level 2 requirements*. At least one of the observers required under this paragraph (c)(6)(i) must be endorsed as a lead level 2 observer. More than two observers are required if the observer workload restriction at paragraph (c)(6)(i)(B) of this section would otherwise preclude sampling as required.

(B) *Observer workload*. The time required for the observer to complete sampling, data recording, and data communication duties must not exceed 12 consecutive hours in each 24-hour period.

(ii) *Amendment 80 vessels in the GOA*. Except for the F/V GOLDEN FLEECE (USCG Documentation Number 609951), all Amendment 80 vessels, except when directed fishing for scallops using dredge gear, in the GOA must have onboard at least one NMFS-certified observer for each day that the vessel is used to harvest, receive, or process groundfish in the GOA management areas or adjacent waters open by the State of Alaska for which it adopts a Federal fishing season.

(7) *Rockfish Program*—(i) *Catcher/processor vessel*—(A) *Rockfish cooperative*. A catcher/processor vessel that is named on an LLP license that is assigned to a rockfish cooperative and is fishing under a CQ permit must have onboard at least two NMFS-certified observers for each day that the vessel is used to harvest or process in the Central GOA from May 1 through the earlier of:

(1) November 15; or

(2) The effective date and time of an approved rockfish cooperative termination of fishing declaration.

(B) *Rockfish limited access fishery*. A catcher/processor vessel harvesting fish allocated to the rockfish limited access fishery for the catcher/processor sector must have onboard at least two NMFS-certified observers for each day that the vessel is used to harvest or process in the Central GOA from July 1 through the earlier of:

(1) November 15; or

(2) The date and time NMFS closes all directed fishing for all primary rockfish species in the rockfish limited access fishery for the catcher/processor sector.

(C) *Sideboard fishery*. A catcher/processor vessel, other than a catcher/processor vessel assigned to the opt-out fishery, that is subject to a sideboard limit as described under §679.82(d) through (h), as applicable, must have onboard at least two NMFS-certified observers for each day that the vessel is used to harvest or process from July 1 through July 31 while harvesting fish in the West Yakutat District, Central GOA, or Western GOA management areas.

(D) *Observer lead level 2 requirements*. At least one of these observers must be endorsed as a lead level 2 observer. More than two observers are required if the observer workload restriction at paragraph (c)(7)(i)(E) of this section would otherwise preclude sampling as required.

(E) *Observer workload*. The time required for the observer to complete sampling, data recording, and data communication duties may not exceed 12 consecutive hours in each 24-hour period.

(F) *Sideboard fishery for catcher/processor vessels in the opt-out fishery*. (i) A catcher/processor vessel assigned to the opt-out fishery, that is subject to a sideboard limit as described under §679.82(d) through (h), as applicable, must have onboard at least one NMFS-certified observer for each day that the vessel is used to harvest or process from July 1 through July 31 while harvesting fish in the West Yakutat District, Central GOA, or Western GOA management areas.

(ii) *Catcher vessels* —(A) *Rockfish cooperative*. A catcher vessel that is named on an LLP license that is assigned to a rockfish cooperative and fishing under a CQ permit must have onboard a NMFS-certified observer at all times the vessel is used to harvest fish in the Central GOA from May 1 through the earlier of:

(1) November 15; or

(2) The effective date and time of an approved rockfish cooperative termination of fishing declaration.

(B) *Rockfish limited access fishery*. A catcher vessel harvesting fish allocated to the rockfish limited access fishery for the catcher vessel sector must have onboard a NMFS-certified observer onboard at all times the vessel is used to harvest in the Central GOA from July 1 through the earlier of:

(1) November 15; or

(2) The date and time NMFS closes all directed fishing for all primary rockfish species in the rockfish limited access fishery for the catcher vessel sector.

(C) *Sideboard fishery*. A catcher vessel that is subject to a sideboard limit as described under §679.82(d) through (h), as applicable, must have onboard a NMFS-certified observer at all times the vessel is used to harvest from July 1 through July 31 while harvesting fish in the West Yakutat District, Central GOA, or Western GOA management areas.

(d) *Observer requirements for shoreside processors and stationary floating processors*. Observer coverage is required as follows. A shoreside processor or stationary floating processor that:

(1) Processes 1,000 mt or more in round-weight equivalent of groundfish during a calendar month is required to have an observer present at the facility each day it receives or processes groundfish during that month.

(2) Processes 500 mt to 1,000 mt in round-weight equivalent of groundfish during a calendar month is required to have an observer present at the facility at least 30 percent of the days it receives or processes groundfish during that month.

(3) Is subject to observer requirements specified in paragraph (d)(1) of this section that receives pollock or Pacific cod, may reduce observer coverage in the event that a directed fishery for such species closes, subject to the following conditions:

(i) The shoreside or stationary floating processor must maintain observer coverage for 30 percent of all days that groundfish are received or processed, beginning on the fourth calendar day following the day that the directed fishery for pollock or Pacific cod was closed and ending on the last day of the month, except as allowed in this paragraph (d)(3)(iv) of this section.

(ii) Observer coverage for the month following the month with reduced observer coverage will be based on monthly landings projections and thresholds as specified in paragraphs (d)(1) and (2) of this section, but may also be reduced for that subsequent month as specified in this paragraph (d)(3) of this section.

(iii) Total groundfish landings received by a shoreside or stationary floating processor under reduced observer coverage as authorized under this paragraph (d)(3) may not exceed 250 mt per calendar week.

(iv) If greater than 250 mt in round weight equivalent of groundfish are projected to be received in a given calendar week by a shoreside or stationary floating processor during a month with reduced observer coverage, as authorized under this paragraph (d)(3), the shoreside or stationary floating processor must return to observer coverage requirements as specified in paragraph (d)(1) of this section until all fish received during that week is processed. The shoreside or stationary floating processor may then return to reduced observer coverage as authorized under this paragraph (d)(3) for the remainder of the calendar month.

(4) Offloads pollock at more than one location on the same dock and has distinct and separate equipment at each location to process those pollock and that receives pollock harvested by catcher vessels in the catcher vessel operational area.

(5) *Groundfish and halibut CDQ fisheries*—(i) *CDQ deliveries requiring observer coverage*. Subject to paragraph (d)(5)(ii) of this section, each shoreside processor or stationary floating processor taking deliveries of groundfish or halibut CDQ must have at least one level 2 observer as described at paragraph (j)(1)(v)(D) of this section present at all times while CDQ is being received or processed.

(ii) *CDQ deliveries not requiring level 2 observer coverage*. A shoreside processor is not required to provide a level 2 observer for CDQ deliveries from the following vessels:

(A) Vessels less than 60 ft (18.3 m) LOA that are halibut CDQ fishing;

(B) Vessels equal to or greater than 60 ft (18.3 m) LOA using nontrawl gear that have selected Option 1 (as described at §679.32(d)(2)(ii)(A)) for CDQ catch accounting, so long as the level 2 observer on the catcher vessel monitors the entire delivery without exceeding the working hour limitations described in paragraph (d)(5)(iii) of this section; and

(C) Vessels equal to or greater than 60 ft (18.3 m) LOA using nontrawl gear that have selected Option 2 (as described at §679.32(d)(2)(ii)(B)) for CDQ catch accounting.

(iii) *Observer working hours*. The time required for the level 2 observer to complete sampling, data recording, and data communication duties may not exceed 12 hours in each 24-hour period, and the level 2 observer is required to sample no more than 9 hours in each 24-hour period.

(6) *AFA inshore processors*—(i) *Coverage level*. An AFA inshore processor is required to provide a NMFS certified observer for each 12 consecutive hour period of each calendar day during which the processor takes delivery of, or processes, groundfish harvested by a vessel engaged in a directed pollock fishery in the BSAI. An AFA inshore processor that takes delivery of or processes pollock harvested in the BSAI directed pollock fishery for more than 12 consecutive hours in a calendar day is required to provide two NMFS-certified observers for each such day.

(ii) *Multiple processors*. An observer deployed to an AFA inshore processor may not be assigned to cover more than one processor during a calendar day in which the processor receives or processes pollock harvested in the BSAI directed pollock fishery.

(iii) *Observers transferring between vessels and processors*. An observer transferring from an AFA catcher vessel to an AFA inshore processor may not be assigned to cover the AFA inshore processor until at least 12 hours after offload and sampling of the catcher vessel's delivery is completed.

(7) *Rockfish Program*—(i) *Coverage level*. A shoreside or stationary floating processor must have a NMFS-certified observer for each 12 consecutive hour period in each calendar day during which it receives deliveries from a catcher vessel described at paragraph (c)(7)(ii) of this section. A shoreside or stationary floating processor that receives deliveries or processes catch from a catcher vessel described at paragraph (c)(7)(ii) of this section for more than 12 consecutive hours in a calendar day is required to have two NMFS-certified observers each of these days.

(ii) *Multiple processors*. An observer deployed to a shoreside or stationary floating processor that receives deliveries from a catcher vessel described at paragraph (c)(7)(ii) of this section that were harvested under the Rockfish Program fisheries may not be assigned to cover more than one processor during a calendar day.

(iii) *Observers transferring between vessels and processors*. An observer transferring from a catcher vessel delivering to a shoreside or stationary floating processor that receives deliveries from a catcher vessel described at paragraph (c)(7)(ii) of this section may not be assigned to cover the shoreside or stationary floating processor until at least 12 hours after offload and sampling of the catcher vessel's delivery is complete.

(iv) *Observer coverage limitations*. Observer coverage requirements at paragraph (d)(7) of this section are in addition to observer coverage requirements in other fisheries. Observer coverage of deliveries of groundfish harvested by catcher vessels described at paragraph (c)(7)(ii) of this section are not counted for purposes of meeting minimum delivery standards applicable to groundfish at a shoreside processor or stationary floating processor. Any observer coverage of deliveries by catcher vessels not described at paragraph (c)(7)(ii) of this section that occur when the Program observer is present at that shoreside processor or stationary floating processor during that calendar day will be counted towards the coverage requirements for that month.

(e) *NMFS staff observers*. (1) Any vessel, shoreside processor, or stationary floating processor required to comply with observer coverage requirements under paragraphs (c) or (d) of this section or under §679.7(f)(4) or a catcher vessel less than 60 ft (18.3 m) LOA that is participating in the AI directed pollock fishery must use, upon written notification by the Regional Administrator, NMFS' staff or an individual authorized by NMFS to satisfy observer coverage requirements as specified in paragraphs (c) and (d) of this section or for other conservation and management purpose.

(2) Prior to deployment of NMFS staff or individuals authorized by NMFS, the agency will provide written notification to the owner or operator of a vessel, shoreside processor, or stationary floating processor whether observer coverage credit will be granted for that deployment.

(3) Vessel, shoreside processor, and stationary floating processor owners and operators, as well as observers and observer providers, may contact NMFS in writing to request assistance in improving observer data quality and resolving observer sampling issues. Requests may be submitted to: NMFS Observer Program Office, P.O. Box 15700, Seattle, Washington 98115-0070 or transmitted by facsimile to 206-526-4066.

(f) *Inseason adjustments in observer coverage requirements.* (1) The Regional Administrator may adjust the observer coverage requirements set out under paragraphs (c) and (d) of this section at any time to improve the accuracy, reliability, and availability of observer data, so long as the changes are based on one or more of the following:

(i) A finding that fishing methods, times, or areas, or catch or bycatch composition for a specific fishery or fleet component have changed significantly, or are likely to change significantly.

(ii) A finding that such modifications are necessary to improve data availability or quality in order to meet specific fishery management objectives.

(2) *Procedure.* Observer coverage requirements may be adjusted in accordance with §679.25(c). NMFS must publish changes in observer coverage requirements in the Federal Register, with the reasons for the changes and any special instructions to vessels, shoreside processors or stationary floating processors required to carry observers, at least 10 calendar days prior to their effective date.

(g) *Responsibilities* —(1) *Vessel responsibilities.* An operator of a vessel required to carry one or more observers must:

(i) *Accommodations and food.* Provide, at no cost to observers or the United States, accommodations and food on the vessel for the observer or observers that are equivalent to those provided for officers, engineers, foremen, deckbosses or other management level personnel of the vessel.

(ii) *Safe conditions.* (A) Maintain safe conditions on the vessel for the protection of observers including adherence to all U.S. Coast Guard and other applicable rules, regulations, or statutes pertaining to safe operation of the vessel.

(B) Have on board:

(1) A valid Commercial Fishing Vessel Safety Decal issued within the past 2 years that certifies compliance with regulations found in 33 CFR Chapter I and 46 CFR Chapter I;

(2) A certificate of compliance issued pursuant to 46 CFR 28.710; or

(3) A valid certificate of inspection pursuant to 46 U.S.C. 3311.

(iii) *Transmission of data.* Facilitate transmission of observer data by:

(A) *Observer use of equipment.* Allowing NMFS-certified observers to use the vessel's communications equipment and personnel, on request, for the confidential entry, transmission, and receipt of work-related messages, at no cost to the NMFS-certified observers or the nation.

(B) *Communication equipment requirements.* In the case of an operator of a catcher/processor or mothership that is required to carry one or more observers, or a catcher vessel required to carry an observer as specified in paragraph (c)(1)(iv) or (c)(7)(ii) of this section:

(1) *Observer access to computer .* Making a computer available for use by the observer. This computer must be connected to a communication device that provides a point-to-point connection to the NMFS host computer.

(2) *NMFS-supplied software .* Ensuring that the catcher/processor, mothership, or catcher vessel specified in this paragraph (g)(1) has installed the most recent release of NMFS data entry software provided by the Regional Administrator, or other approved software.

(3) *Functional and operational equipment .* Ensuring that the communication equipment required in this paragraph (g)(1)(iii)(B) and that is used by observers to enter and transmit data, is fully functional and operational. "Functional" means that all the tasks and components of the NMFS supplied, or other approved, software described at paragraph (g)(1)(iii)(B)(2) of this section and the data transmissions to NMFS can be executed effectively aboard the vessel by the communications equipment.

(iv) *Vessel position.* Allow observers access to, and the use of, the vessel's navigation equipment and personnel, on request, to determine the vessel's position.

(v) *Access.* Allow observers free and unobstructed access to the vessel's bridge, trawl or working decks, holding bins, processing areas, freezer spaces, weight scales, cargo holds, and any other space that may be used to hold, process, weigh, or store fish or fish products at any time.

(vi) *Prior notification.* Notify observers at least 15 minutes before fish are brought on board, or fish and fish products are transferred from the vessel, to allow sampling the catch or observing the transfer, unless the observers specifically request not to be notified.

(vii) *Records.* Allow observers to inspect and copy the vessel's DFL, DCPL, product transfer forms, any other logbook or document required by regulations, printouts or tallies of scale weights, scale calibration records, bin sensor readouts, and production records.

(viii) *Assistance.* Provide all other reasonable assistance to enable observers to carry out their duties, including, but not limited to:

(A) Measuring decks, codends, and holding bins.

(B) Providing the observers with a safe work area adjacent to the sample collection site.

(C) Collecting bycatch when requested by the observers.

- (D) Collecting and carrying baskets of fish when requested by observers.
- (E) Allowing observers to determine the sex of fish when this procedure will not decrease the value of a significant portion of the catch.
- (F) Collecting all seabirds that are incidentally taken on the observer-sampled portions of hauls using hook-and-line gear or as requested by an observer during non-sampled portions of hauls.
- (ix) *Transfer at sea.* (A) Ensure that transfers of observers at sea are carried out during daylight hours, under safe conditions, and with the agreement of observers involved.
- (B) Notify observers at least 3 hours before observers are transferred, such that the observers can collect personal belongings, equipment, and scientific samples.
- (C) Provide a safe pilot ladder and conduct the transfer to ensure the safety of observers during transfers.
- (D) Provide an experienced crew member to assist observers in the small boat or raft in which any transfer is made.
- (2) *Shoreside processor and stationary floating processor responsibilities.* A manager of a shoreside processor or a stationary floating processor that is required to maintain observer coverage as specified under paragraph (d) of this section must:
 - (i) *Safe conditions.* Maintain safe conditions at the shoreside processing facility for the protection of observers by adhering to all applicable rules, regulations, or statutes pertaining to safe operation and maintenance of the processing facility.
 - (ii) *Operations information.* Notify the observers, as requested, of the planned facility operations and expected receipt of groundfish prior to receipt of those fish.
 - (iii) *Transmission of data.* Facilitate transmission of observer data by:
 - (A) *Observer use of equipment.* Allowing observers to use the shoreside processor's or stationary floating processor's communication equipment and personnel, on request, for the entry, transmission, and receipt of work-related messages, at no cost to the observers or the United States.
 - (B) *Communication equipment requirements* —(1) *Observer access to computer* . Making a computer available for use by the observer. This computer must be connected to a communication device that provides a point-to-point connection to the NMFS host computer.
 - (2) *NMFS-supplied software* . Ensuring that the shoreside or stationary floating processor specified in paragraph (g)(2) of this section has installed the most recent release of NMFS data entry software provided by the Regional Administrator, or other approved software.
 - (3) *Functional and operational equipment* . Ensuring that the communication equipment required in paragraph (g)(2)(iii)(B) of this section and that is used by observers to enter and transmit data, is fully functional and operational. "Functional" means that all the tasks and components of the NMFS supplied, or other approved, software described at paragraph (g)(2)(iii)(B)(2) of this section and the data transmissions to NMFS can be executed effectively aboard the vessel by the communications equipment.
 - (v) *Document access.* Allow observers to inspect and copy the shoreside processor's or stationary floating processor's DCPL, product transfer forms, any other logbook or document required by regulations; printouts or tallies of scale weights; scale calibration records; bin sensor readouts; and production records.
 - (vi) *Assistance.* Provide all other reasonable assistance to enable the observer to carry out his or her duties, including, but not limited to:
 - (A) Assisting the observer in moving and weighing totes of fish.
 - (B) Cooperating with product recovery tests.
 - (C) Providing a secure place to store baskets of sampling gear.
- (3) The owner of a vessel, shoreside processor, stationary floating processor, or buying station is responsible for compliance and must ensure that the operator or manager of a vessel, shoreside processor, or stationary floating processor required to maintain observer coverage under paragraphs (c) or (d) of this section complies with the requirements given in paragraphs (g)(1) and (g)(2) of this section.
- (h) *Procurement of observer services.* Owners of vessels, shoreside processors, or stationary floating processors required to use observers under paragraphs (c) and (d) of this section must arrange for observer services from a permitted observer provider, except that:
 - (1) Owners of vessels, shoreside processors, or stationary floating processors are required to procure observer services directly from NMFS when the agency has determined and notified them under paragraph (e) of this section that their vessel, shoreside processor, or stationary floating processor will use NMFS staff or an individual authorized by NMFS in lieu of an observer provided through a permitted observer provider to satisfy requirements under paragraphs (c) and (d) of this section or for other conservation and management purposes.
 - (2) Owners of vessels, shoreside processors, or stationary floating processors are required to procure observer services directly from NMFS and a permitted observer provider when NMFS has determined and notified them under paragraph (e) of this section, that their vessel, shoreside processor, or stationary floating processor will use NMFS

staff or individuals authorized by NMFS, in addition to an observer provided through an observer provider to satisfy requirements under paragraphs (c) and (d) of this section or for other conservation and management purposes.

(i) *Observer provider permitting and responsibilities* —(1) *Observer provider permits* —(i) *General*. (A) Persons seeking to provide observer services under this section must obtain an observer provider permit from NMFS.

(B) *New observer providers*. An applicant seeking an observer provider permit must submit a completed application by fax or mail to the Observer Program Office at the address listed in paragraph (e)(3) of this section.

(C) *Existing observer providers as of 2002*. NMFS-certified providers who deployed observers under the North Pacific Groundfish Observer Program in 2002 are exempt from the requirement to apply for a permit and will be issued an observer provider permit, except that a change in ownership of an existing observer provider after January 1, 2003, requires a new permit application under paragraph (i)(1)(vi) of this section if the change involves a new person. Such observer providers must submit to the Observer Program Office within 30 days of receiving the observer provider permit issued under this paragraph any changes or corrections regarding information required under paragraphs (i)(1)(ii)(A) and (i)(1)(ii)(B) of this section.

(ii) *Contents of application*. An application for an observer provider permit shall consist of a narrative that contains the following:

(A) Identification of the management, organizational structure, and ownership structure of the applicant's business, including identification by name and general function of all controlling management interests in the company, including but not limited to owners, board members, officers, authorized agents, and staff. If the applicant is a corporation, the articles of incorporation must be provided. If the applicant is a partnership, the partnership agreement must be provided.

(B) *Contact information* —(1) *Owner(s) information*. The permanent mailing address, phone and fax numbers where the owner(s) can be contacted for official correspondence.

(2) *Business information*. Current physical location, business mailing address, business telephone and fax numbers, and business e-mail address for each office.

(3) *Authorized agent*. For observer providers with ownership based outside the United States, identify an authorized agent and provide contact information for that agent including mailing address and phone and fax numbers where the agent can be contacted for official correspondence. An authorized agent means a person appointed and maintained within the United States who is authorized to receive and respond to any legal process issued in the United States to an owner or employee of an observer provider. Any diplomatic official accepting such an appointment as designated agent waives diplomatic or other immunity in connection with the process.

(C) A statement signed under penalty of perjury from each owner, or owners, board members, and officers if a corporation, that they are free from a conflict of interest as described under paragraph (i)(3) of this section.

(D) A statement signed under penalty of perjury from each owner, or owners, board members, and officers if a corporation, describing any criminal convictions, Federal contracts they have had and the performance rating they received on the contract, and previous decertification action while working as an observer or observer provider.

(E) A description of any prior experience the applicant may have in placing individuals in remote field and/or marine work environments. This includes, but is not limited to, recruiting, hiring, deployment, and personnel administration.

(F) A description of the applicant's ability to carry out the responsibilities and duties of an observer provider as set out under paragraph (i)(2) of this section, and the arrangements to be used.

(iii) *Application evaluation*. (A) The Regional Administrator will establish an observer provider permit application review board to review and evaluate an application submitted under paragraph (i)(1) of this section. The board will be comprised of NMFS staff. Issuance of a permit will be based on the completeness of the applicant's application, as well as the following evaluation criteria for each owner, or owners, board members, and officers if a corporation:

(1) Absence of conflict of interest as defined under paragraph (i)(3) of this section;

(2) Absence of criminal convictions related to:

(i) Embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements or receiving stolen property, or

(ii) The commission of any other crimes of dishonesty, as defined by Alaska State law or Federal law that would seriously and directly affect the fitness of an applicant in providing observer services under this section;

(3) Satisfactory performance ratings on any Federal contracts held by the applicant; and

(4) Absence of any history of decertification as either an observer or observer provider;

(B) The evaluation by the review board will provide a basis for the board's initial agency determination (IAD) on whether the application is complete and all evaluation criteria are met.

(iv) *Evidentiary period*. The observer provider permitting review board will specify, by letter via certified return-receipt mail, a 60-day evidentiary period during which a candidate may provide additional information or evidence to support the application, if the application is found to be deficient.

(v) *Agency determination on an application* —(A) *Approval of an application*. Upon determination by the review board that the application is complete and all evaluation criteria are met, an IAD is made to approve the application and the observer provider permit application review board will issue an observer provider permit to the applicant.

(B) *Denial of an application*. An application will be denied if the observer provider permit application review board determines that the information provided in the application was not complete or all the evaluation criteria were not met. The observer provider permit application review board will prepare and send a written IAD to the applicant upon evaluation of a completed application. The IAD will identify any deficiencies in the application or any information submitted in support of the application. An applicant who receives an IAD that denies his or her application may appeal under §679.43. An applicant who appeals the IAD will not be issued an interim observer provider permit and will not receive a permit unless the final resolution of that appeal is in favor of the applicant.

(vi) *Transferability*. An observer provider permit is not transferable. An observer provider that experiences a change in ownership that involves a new person must submit a new permit application and cannot continue to operate until a new permit is issued under this paragraph.

(vii) *Expiration of Permit*. (A) The observer provider permit will expire after a period of 12 continuous months during which no observers are deployed by the provider under this section to the North Pacific groundfish industry.

(B) The Regional Administrator will provide a written determination to an observer provider if NMFS deployment records indicate that the permit has expired. An observer provider who receives a written IAD of permit expiration may appeal under §679.43. A permit holder who appeals the IAD will be issued an extension of the expiration date of the permit until after the final resolution of that appeal.

(viii) *Sanctions*. Procedures governing sanctions of permits are found at subpart D of 15 CFR part 904.

(2) *Responsibilities of observer providers*. Observer providers must:

(i) *Provide qualified candidates to serve as observers*. (A) To be qualified, a candidate must have:

(1) A Bachelor's degree or higher from an accredited college or university with a major in one of the natural sciences;

(2) Successfully completed a minimum of 30 semester hours or equivalent in applicable biological sciences with extensive use of dichotomous keys in at least one course;

(3) Successfully completed at least one undergraduate course each in math and statistics with a minimum of 5 semester hours total for both; and

(4) Computer skills that enable the candidate to work competently with standard database software and computer hardware.

(B) Prior to hiring an observer candidate, the observer provider must:

(1) Provide to the candidate copies of NMFS-provided pamphlets and other literature describing observer duties; and

(2) Provide to the candidate a copy of the Observer Program's drug and alcohol policy. Observer job pamphlets and the drug and alcohol policy are available from the Observer Program Office at the address listed in paragraph (e)(3) of this section or at the Observer Program's web site at <http://www.afsc.noaa.gov/refm/observers/default.htm> .

(C) For each observer employed by an observer provider, either a written contract or a written contract addendum must exist that is signed by the observer and observer provider prior to the observer's deployment and that contains the following provisions for continued employment:

(1) That the observer comply with the Observer Program's drug and alcohol policy;

(2) That all the observer's in-season catch messages between the observer and NMFS are delivered to the Observer Program Office at least every 7 days, unless otherwise specified by the Observer Program;

(3) That the observer completes in-person mid-deployment data reviews, unless:

(i) The observer is specifically exempted by the Observer Program, or

(ii) The observer does not at any time during their deployment travel through a location where Observer Program staff are available for an in-person data review and the observer completes a phone or fax mid-deployment data review as described in the observer manual; and

(4) The observer inform the observer provider prior to the time of embarkation if he or she is experiencing any new mental illness or physical ailments or injury since submission of the physician's statement as required in paragraph (i)(2)(x)(C) of this section that would prevent him or her from performing their assigned duties;

(ii) *Ensure that observers complete duties in a timely manner* . An observer provider must ensure that observers employed by that observer provider do the following in a complete and timely manner:

(A) Once an observer is scheduled for a final deployment debriefing under paragraph (i)(2)(x)(E) of this section, submit to NMFS all data, reports required by the Observer Manual, and biological samples from the observer's deployment by the completion of the electronic vessel and/or processor survey(s);

(B) Complete NMFS electronic vessel and/or processor surveys before performing other jobs or duties which are not part of NMFS groundfish observer requirements;

(C) Report for his or her scheduled debriefing and complete all debriefing responsibilities; and

(D) Return all sampling and safety gear to the Observer Program Office.

(iii) *Observer vessel and processor assignment.* An observer provider must assign to vessels or shoreside or floating processors only observers:

(A) With valid North Pacific groundfish observer certifications and endorsements to provide observer services;

(B) Who have not informed the provider prior to the time of embarkation that he or she is experiencing a mental illness or a physical ailment or injury developed since submission of the physician's statement, as required in paragraph (i)(2)(x)(C) of this section that would prevent him or her from performing his or her assigned duties; and

(C) Who have successfully completed all NMFS required training and briefing before deployment.

(iv) *Response to industry requests for observers.* An observer provider must provide an observer for deployment as requested by vessels and processors to fulfill vessel and processor requirements for observer coverage under sections (c) and (d) of this section. An alternate observer must be supplied in each case where injury or illness prevents the observer from performing his or her duties or where the observer resigns prior to completion of his or her duties.

(v) *Observer salaries and benefits.* An observer provider must provide to its observer employees salaries and any other benefits and personnel services in accordance with the terms of each observer's contract.

(vi) *Observer deployment logistics.* (A) An observer provider must provide to each of its observers under contract:

(1) All necessary transportation, including arrangements and logistics, of observers to the initial location of deployment, to all subsequent vessel and shoreside or stationary floating processor assignments during that deployment, and to the debriefing location when a deployment ends for any reason; and

(2) Lodging, per diem, and any other services necessary to observers assigned to fishing vessels or shoreside or stationary floating processing facilities.

(B) Except as provided in paragraphs (i)(2)(vi)(C) and (i)(2)(vi)(D) of this section, each observer deployed to a shoreside processing facility or stationary floating processor, and each observer between vessel, stationary floating processor or shoreside assignments while still under contract with a permitted observer provider, shall be provided with accommodations at a licensed hotel, motel, bed and breakfast, stationary floating processor, or other shoreside accommodations for the duration of each shoreside assignment or period between vessel or shoreside assignments. Such accommodations must include an assigned bed for each observer and no other person may be assigned that bed for the duration of that observer's stay. Additionally, no more than four beds may be in any room housing observers at accommodations meeting the requirements of this section.

(C) An observer under contract may be housed on a vessel to which he or she is assigned:

(1) Prior to their vessel's initial departure from port;

(2) For a period not to exceed twenty-four hours following the completion of an offload when the observer has duties and is scheduled to disembark; or

(3) For a period not to exceed twenty-four hours following the vessel's arrival in port when the observer is scheduled to disembark.

(D) During all periods an observer is housed on a vessel, the observer provider must ensure that the vessel operator or at least one crew member is aboard.

(E) Each observer deployed to shoreside processing facilities shall be provided with individually assigned communication equipment in working order, such as a cell phone or pager for notification of upcoming deliveries or other necessary communication. Each observer assigned to a shoreside processing facility located more than 1 mile from the observer's local accommodations shall be provided with motorized transportation that will ensure the observer's arrival at the processing facility in a timely manner such that the observer can complete his or her assigned duties.

(vii) *Observer deployment limitations.* Unless alternative arrangements are approved by the Observer Program Office, an observer provider must not:

(A) Deploy an observer on the same vessel or at the same shoreside or stationary floating processor for more than 90 days in a 12-month period;

(B) Deploy an observer for more than 90 days in a single deployment;

(C) Include in a single deployment of an observer assignments to more than four vessels, including groundfish and all other vessels, and/or shoreside processors; or

(D) Move an observer from a vessel or stationary floating or shoreside processor before that observer has completed his or her sampling or data transmission duties.

(viii) *Vessel safety decal verification.* An observer provider must verify that a vessel has a valid USCG safety decal as required under paragraph (g)(1)(ii)(B) of this section before an observer may get underway aboard the vessel. One of the following acceptable means of verification must be used to verify the decal validity:

(A) An employee of the observer provider, including the observer, visually inspects the decal aboard the vessel and confirms that the decal is valid according to the decal date of issuance; or

(B) The observer provider receives a hard copy of the USCG documentation of the decal issuance from the vessel owner or operator.

(ix) *Communications with observers.* An observer provider must have an employee responsible for observer activities on call 24 hours a day to handle emergencies involving observers or problems concerning observer logistics, whenever observers are at sea, stationed at shoreside or stationary floating processors, in transit, or in port awaiting vessel or processor reassignment.

(x) *Communications with the Observer Program Office.* An observer provider must provide all of the following information to the Observer Program Office by electronic transmission (e-mail), fax, or other method specified by NMFS.

(A) *Observer training and briefing.* Observer training and briefing registration materials. This information must be submitted to the Observer Program Office at least 5 business days prior to the beginning of a scheduled observer certification training or briefing session. Registration materials consist of the following:

(1) Observer training registration, including:

(i) Date of requested training;

(ii) A list of observer candidates. The list must include each candidate's full name (i.e., first, middle and last names), date of birth, and sex;

(iii) A copy of each candidate's academic transcripts and resume; and

(iv) A statement signed by the candidate under penalty of perjury which discloses the candidate's criminal convictions.

(2) Observer briefing registration, including:

(i) Date and type of requested briefing session and briefing location; and

(ii) List of observers to attend the briefing session. Each observer's full name (first, middle, and last names) must be included.

(B) *Projected observer assignments.* Prior to the observer or observer candidate's completion of the training or briefing session, the observer provider must submit to the Observer Program Office a statement of projected observer assignments that include the observer's name; vessel, shoreside processor, or stationary floating processor assignment, gear type, and vessel/processor code; port of embarkation; target species; and area of fishing.

(C) *Physical examination.* A signed and dated statement from a licensed physician that he or she has physically examined an observer or observer candidate. The statement must confirm that, based on that physical examination, the observer or observer candidate does not have any health problems or conditions that would jeopardize that individual's safety or the safety of others while deployed, or prevent the observer or observer candidate from performing his or her duties satisfactorily. The statement must declare that, prior to the examination, the physician was made aware of the duties of the observer and the dangerous, remote, and rigorous nature of the work by reading the NMFS-prepared pamphlet, provided to the candidate by the observer provider as specified in paragraph (i)(2)(i)(B)(1) of this section. The physician's statement must be submitted to the Observer Program Office prior to certification of an observer. The physical exam must have occurred during the 12 months prior to the observer's or observer candidate's deployment. The physician's statement will expire 12 months after the physical exam occurred. A new physical exam must be performed, and accompanying statement submitted, prior to any deployment occurring after the expiration of the statement.

(D) *Observer deployment/logistics reports.* A deployment/logistics report must be submitted by Wednesday, 4:30 pm, Pacific local time, of each week with regard to each observer deployed by the observer provider during that week. The deployment/logistics report must include the observer's name, cruise number, current vessel, shoreside processor, or stationary floating processor assignment and vessel/processor code, embarkation date, and estimated or actual disembarkation dates. If the observer is currently not assigned to a vessel, shoreside processor, or stationary floating processor, the observer's location must be included in the report.

(E) *Observer debriefing registration.* The observer provider must contact the Observer Program within 5 business days after the completion of an observer's deployment to schedule a date, time and location for debriefing. Observer debriefing registration information must be provided at the time of debriefing scheduling and must include the observer's name, cruise number, vessel, or shoreside or stationary floating processor assignment name(s) and code(s), and requested debriefing date.

(F) *Certificates of Insurance.* Copies of "certificates of insurance", that name the NMFS Observer Program leader as the "certificate holder", shall be submitted to the Observer Program Office by February 1 of each year. The certificates of insurance shall verify the following coverage provisions and state that the insurance company will notify the certificate holder if insurance coverage is changed or canceled.

(1) Maritime Liability to cover "seamen's" claims under the Merchant Marine Act (Jones Act) and General Maritime Law (\$1 million minimum).

(2) Coverage under the U.S. Longshore and Harbor Workers' Compensation Act (\$1 million minimum).

(3) States Worker's Compensation as required.

(4) Commercial General Liability.

(G) *Observer provider contracts.* Observer providers must submit to the Observer Program Office a completed and unaltered copy of each type of signed and valid contract (including all attachments, appendices, addendums, and exhibits incorporated into the contract) between the observer provider and those entities requiring observer services under paragraphs (c) and (d) of this section. Observer providers must also submit to the Observer Program Office upon request, a completed and unaltered copy of the current or most recent signed and valid contract (including all attachments, appendices, addendums, and exhibits incorporated into the contract and any agreements or policies with regard to observer compensation or salary levels) between the observer provider and the particular entity identified by the Observer Program or with specific observers. Said copies must be submitted to the Observer Program Office via fax or mail within 5 business days of the request for the contract at the address or fax number listed in paragraph (e)(3) of this section. Signed and valid contracts include the contracts an observer provider has with:

(1) Vessels required to have observer coverage as specified at paragraph (c) of this section;

(2) Shoreside or stationary floating processors required to have observer coverage as specified at paragraph (d) of this section; and

(3) Observers.

(H) *Change in observer provider management and contact information.* Except for changes in ownership addressed under paragraph (i)(1)(vi) of this section, an observer provider must submit notification of any other change to the information submitted on the provider's permit application under paragraphs (i)(1)(ii)(A) through (D) of this section. Within 30 days of the effective date of such change, this information must be submitted by fax or mail to the Observer Program Office at the address listed in paragraph (e)(3) of this section. Any information submitted under (i)(1)(ii)(C) or (i)(1)(ii)(D) of this section will be subject to NMFS review and determinations under (i)(1)(iii) through (viii) of this section.

(I) *Other reports.* Reports of the following must be submitted in writing to the Observer Program Office by the observer provider via fax or email address designated by the Observer Program Office within 24 hours after the observer provider becomes aware of the information:

(1) Any information regarding possible observer harassment;

(2) Any information regarding any action prohibited under §679.7(g) or §600.725(o), (t) and (u);

(3) Any concerns about vessel safety or marine casualty under 46 CFR 4.05–1 (a)(1) through (7), or processor safety;

(4) Any observer illness or injury that prevents the observer from completing any of his or her duties described in the observer manual; and

(5) Any information, allegations or reports regarding observer conflict of interest or breach of the standards of behavior described at (j)(2)(i) or (j)(2)(ii) of this section.

(xi) *Replacement of lost or damaged gear.* An observer provider must replace all lost or damaged gear and equipment issued by NMFS to an observer under contract to that provider. All replacements must be in accordance with requirements and procedures identified in writing by the Observer Program Office.

(xii) *Maintain confidentiality of information.* An observer provider must ensure that all records on individual observer performance received from NMFS under the routine use provision of the Privacy Act remain confidential and are not further released to anyone outside the employ of the observer provider company to whom the observer was contracted except with written permission of the observer.

(3) *Limitations on conflict of interest.* Observer providers:

(i) Must not have a direct financial interest, other than the provision of observer services, in a North Pacific fishery managed under an FMP for the waters off the coast of Alaska, including, but not limited to,

(A) Any ownership, mortgage holder, or other secured interest in a vessel, shoreside or stationary floating processors facility involved in the catching, taking, harvesting or processing of fish,

(B) Any business involved with selling supplies or services to any vessel, shoreside or stationary floating processors participating in a fishery managed pursuant to an FMP in the waters off the coast of Alaska, or

(C) Any business involved with purchasing raw or processed products from any vessel, shoreside or stationary floating processors participating in a fishery managed pursuant to an FMP in the waters off the coast of Alaska.

(ii) Must assign observers without regard to any preference by representatives of vessels, shoreside processors, or stationary floating processors other than when an observer will be deployed.

(iii) Must not solicit or accept, directly or indirectly, any gratuity, gift, favor, entertainment, loan, or anything of monetary value from anyone who conducts fishing or fish processing activities that are regulated by NMFS, or who has interests that may be substantially affected by the performance or nonperformance of the official duties of observer providers.

(j) *Observer certification and responsibilities* —(1) *Observer Certification* —(i) *Applicability*. Observer certification authorizes an individual to fulfill duties as specified in writing by the NMFS Observer Program Office while under the employ of a NMFS-permitted observer provider and according to certification endorsements as designated under paragraph (j)(1)(v) of this section.

(ii) *Observer certification official*. The Regional Administrator will designate a NMFS observer certification official who will make decisions for the Observer Program Office on whether to issue or deny observer certification.

(iii) *Certification requirements*. (A) *Existing Observers*. Observers who completed sampling activities between June 30, 2001, and December 31, 2002, and have not had their certification revoked during or after that time period, will be considered to have met certification requirements under this section. These observers will be issued a new certification prior to their first deployment after December 31, 2002, unless NMFS determines that the observer has not been deployed, or has not performed sampling duties, or has not been debriefed successfully in the preceding 18 months.

(B) *New Observers*. NMFS will certify individuals who:

(1) Are employed by a permitted observer provider company at the time of the issuance of the certification;

(2) Have provided, through their observer provider:

(i) Information identified by NMFS at paragraphs (i)(2)(x)(A)(1)(iii) and (iv) of this section and in writing from the Observer Program; and

(ii) Information identified by NMFS at paragraph (i)(2)(x)(C) of this section regarding the observer candidate's health and physical fitness for the job;

(3) Meet all education and health standards as specified in paragraphs (i)(2)(i)(A) and (i)(2)(x)(C) of this section, respectively;

(4) Have successfully completed a NMFS-approved training as prescribed by the Observer Program.

(i) Successful completion of training by an observer applicant consists of meeting all attendance and conduct standards issued in writing at the start of training; meeting all performance standards issued in writing at the start of training for assignments, tests, and other evaluation tools; and completing all other training requirements established by the Observer Program.

(ii) If a candidate fails training, he or she will be verbally notified of the unsatisfactory status of his or her training on or before the last day of training. Within 10 business days of the verbal notification, the observer candidate will be notified in writing. The written notification will indicate why the candidate failed the training; whether the candidate can retake the training. If a determination is made that the candidate may not pursue further training, notification will be in the form of an IAD denying certification, as specified under paragraph (j)(1)(iv)(A) of this section.

(5) Have not been decertified under paragraph (j)(3) of this section.

(iv) *Agency determinations on observer certification* —(A) *Denial of a certification*. The NMFS observer certification official will issue a written IAD denying observer certification when the observer certification official determines that a candidate has unresolvable deficiencies in meeting the requirements for certification as specified in paragraph (j)(1)(iii) of this section. The IAD will identify the reasons certification was denied and what requirements were deficient.

(B) *Appeals*. A candidate who receives an IAD that denies his or her certification may appeal pursuant to §679.43 of this part. A candidate who appeals the IAD will not be issued an interim observer certification and will not receive a certification unless the final resolution of that appeal is in the candidate's favor.

(C) *Issuance of an observer certification*. An observer certification will be issued upon determination by the observer certification official that the candidate has successfully met all requirements for certification as specified in paragraph (j)(1)(iii) of this section.

(v) *Endorsements*. The following endorsements must be obtained, in addition to observer certification, in order for an observer to deploy as indicated.

(A) *Certification training endorsement*. A certification training endorsement signifies the successful completion of the training course required to obtain this endorsement. A certification training endorsement is required for any deployment as an observer in the Bering Sea and Aleutian Islands groundfish fisheries and the Gulf of Alaska groundfish fisheries and will be granted with the initial issuance of an observer certification. This endorsement expires when the observer has not been deployed and performed sampling duties as required by the Observer Program Office for a period of time, specified by the Observer Program, after his or her most recent debriefing. Renewal can be obtained by the observer successfully completing certification training once more. Observers will be notified of any changes to the endorsement expiration period prior to that change taking place. Observers who have been issued certificates under paragraph (j)(1)(iii)(A) of this section will be issued a new certification training endorsement upon issuance of their observer certification prior to their first deployment after December 31, 2002.

(B) *Annual general endorsements*. Each observer must obtain an annual general endorsement to their certification prior to his or her first deployment within any calendar year subsequent to a year in which a certification training endorsement is obtained. To obtain an annual general endorsement, an observer must successfully complete the annual briefing, as specified by the Observer Program. All briefing attendance, performance, and conduct standards required by the Observer Program must be met.

(C) *Deployment endorsements.* Each observer who has completed an initial deployment after certification or annual briefing must receive a deployment endorsement to their certification prior to any subsequent deployments for the remainder of that year. An observer may obtain a deployment endorsement by successfully completing all pre-cruise briefing requirements. The type of briefing the observer must attend and successfully complete will be specified in writing by the Observer Program during the observer's most recent debriefing.

(D) *Level 2 endorsements.* A certified observer may obtain a Level 2 endorsement to their certification. A Level 2 endorsement is required for purposes of performing observer duties aboard vessels or stationary floating processors or at shoreside processors participating in the CDQ or AFA fisheries as prescribed in paragraphs (c) and (d) of this section. A Level 2 endorsement to an observer's certification may be obtained by meeting the following requirements:

- (1) Be a prior observer in the groundfish fisheries off Alaska who has completed at least 60 days of observer data collection;
- (2) Receive an evaluation by NMFS for his or her most recent deployment that indicated that the observer's performance met Observer Program expectations for that deployment;
- (3) Successfully complete a NMFS-approved Level 2 observer training as prescribed by the Observer Program; and
- (4) Comply with all of the other requirements of this section.

(E) An observer who has achieved a Level 2 endorsement to their observer certification as specified in paragraph (j)(1)(v) (D) of this section may additionally receive a Level 2 "lead" observer endorsement by meeting the following requirements:

- (1) A Level 2 "lead" observer on a catcher/processor using trawl gear or a mothership must have completed two observer cruises (contracts) and sampled at least 100 hauls on a catcher/processor using trawl gear or on a mothership.
- (2) A Level 2 "lead" observer on a catcher vessel using trawl gear must have completed two observer cruises (contracts) and sampled at least 50 hauls on a catcher vessel using trawl gear.
- (3) A Level 2 "lead" observer on a vessel using nontrawl gear must have completed two observer cruises (contracts) of at least 10 days each and sampled at least 60 sets on a vessel using nontrawl gear.

(2) *Standards of observer conduct*—(i) *Limitations on conflict of interest.* (A) Observers:

- (1) Must not have a direct financial interest, other than the provision of observer services, in a North Pacific fishery managed pursuant to an FMP for the waters off the coast of Alaska, including, but not limited to,
 - (i) Any ownership, mortgage holder, or other secured interest in a vessel, shoreside or stationary floating processors facility involved in the catching, taking, harvesting or processing of fish,
 - (ii) Any business involved with selling supplies or services to any vessel, shoreside or stationary floating processors participating in a fishery managed pursuant to an FMP in the waters off the coast of Alaska, or
 - (iii) Any business involved with purchasing raw or processed products from any vessel, shoreside or stationary floating processors participating in a fishery managed pursuant to an FMP in the waters off the coast of Alaska.
- (2) May not solicit or accept, directly or indirectly, any gratuity, gift, favor, entertainment, loan, or anything of monetary value from anyone who either conducts activities that are regulated by NMFS or has interests that may be substantially affected by the performance or nonperformance of the observers' official duties.
- (3) May not serve as observers on any vessel or at any shoreside or floating stationary processing facility owned or operated by a person who previously employed the observers.
- (4) May not solicit or accept employment as a crew member or an employee of a vessel, shoreside processor, or stationary floating processor in a North Pacific fishery while employed by an observer provider.

(B) Provisions for remuneration of observers under this section do not constitute a conflict of interest.

(ii) *Standards of Behavior.* Observers must avoid any behavior that could adversely affect the confidence of the public in the integrity of the Observer Program or of the government, including but not limited to the following:

- (A) Observers must perform their assigned duties as described in the Observer Manual or other written instructions from the Observer Program Office.
- (B) Observers must accurately record their sampling data, write complete reports, and report accurately any observations of suspected violations of regulations relevant to conservation of marine resources or their environment.
- (C) Observers must not disclose collected data and observations made on board the vessel or in the processing facility to any person except the owner or operator of the observed vessel or processing facility, an authorized officer, or NMFS.
- (D) Observers must refrain from engaging in any illegal actions or any other activities that would reflect negatively on their image as professional scientists, on other observers, or on the Observer Program as a whole. This includes, but is not limited to:
 - (1) Violating the drug and alcohol policy established by and available from the Observer Program;
 - (2) Engaging in the use, possession, or distribution of illegal drugs; or

(3) Engaging in physical sexual contact with personnel of the vessel or processing facility to which the observer is assigned, or with any vessel or processing plant personnel who may be substantially affected by the performance or non-performance of the observer's official duties.

(3) *Suspension and Decertification* —(i) *Suspension and decertification review official*. The Regional Administrator will establish an observer suspension and decertification review official(s), who will have the authority to review observer certifications and issue initial administrative determinations of observer certification suspension and/or decertification.

(ii) *Causes for suspension or decertification*. The suspension/decertification official may initiate suspension or decertification proceedings against an observer:

(A) When it is alleged that the observer has committed any acts or omissions of any of the following:

(1) Failed to satisfactorily perform the duties of observers as specified in writing by the NMFS Observer Program; or

(2) Failed to abide by the standards of conduct for observers as prescribed under paragraph (j)(2) of this section;

(B) Upon conviction of a crime or upon entry of a civil judgement for:

(1) Commission of fraud or other violation in connection with obtaining or attempting to obtain certification, or in performing the duties as specified in writing by the NMFS Observer Program;

(2) Commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

(3) Commission of any other offense indicating a lack of integrity or honesty that seriously and directly affects the fitness of observers.

(iii) *Issuance of initial administrative determination*. Upon determination that suspension or decertification is warranted under paragraph (j)(3)(ii) of this section, the suspension/decertification official will issue a written IAD to the observer via certified mail at the observer's most current address provided to NMFS under §679.43(e). The IAD will identify whether a certification is suspended or revoked and will identify the specific reasons for the action taken. If the IAD issues a suspension for an observer certification, the terms of the suspension will be specified. Suspension or decertification can be made effective upon issuance of the IAD in cases of willfulness or those cases in which public health, interest, or safety require such actions. In such cases, the suspension/decertification official will state in the IAD that suspension or decertification is effective at time of issuance and the reason for the action.

(iv) *Appeals*. A certified observer who receives an IAD that suspends or revokes his or her observer certification may appeal pursuant to §679.43.

(k) *Release of observer data to the public* —(1) *Summary of weekly data*. The following information collected by observers for each catcher processor and catcher vessel during any weekly reporting period may be made available to the public:

(i) Vessel name and Federal permit number.

(ii) Number of chinook salmon and "other salmon" observed.

(iii) The ratio of total round weight of halibut or Pacific herring to the total round weight of groundfish in sampled catch.

(iv) The ratio of number of king crab or *C. bairdi* Tanner crab to the total round weight of groundfish in sampled hauls.

(v) The number of observed trawl hauls or fixed gear sets.

(vi) The number of trawl hauls that were basket sampled.

(vii) The total weight of basket samples taken from sampled trawl hauls.

(2) *Haul-specific data*. (i) The information listed in paragraphs (k)(2)(i) (A) through (M) of this section and collected by observers from observed hauls on board vessels using trawl gear to participate in a directed fishery for groundfish other than rockfish, Greenland turbot, or Atka mackerel may be made available to the public:

(A) Date.

(B) Time of day gear is deployed.

(C) Latitude and longitude at beginning of haul.

(D) Bottom depth.

(E) Fishing depth of trawl.

(F) The ratio of the number of chinook salmon to the total round weight of groundfish.

(G) The ratio of the number of other salmon to the total round weight of groundfish.

(H) The ratio of total round weight of halibut to the total round weight of groundfish.

(I) The ratio of total round weight of herring to the total round weight of groundfish.

(J) The ratio of the number of king crab to the total round weight of groundfish.

(K) The ratio of the number of *C. bairdi* Tanner crab to the total round weight of groundfish.

(L) Sea surface temperature (where available).

(M) Sea temperature at fishing depth of trawl (where available).

(ii) The identity of the vessels from which the data in paragraph (k)(2)(i) of this section are collected will not be released.

(3) *Competitive harm*. In exceptional circumstances, the owners and operators of vessels may provide to the Regional Administrator written justification at the time observer data are submitted, or within a reasonable time thereafter, that disclosure of the information listed in paragraphs (k) (1) and (2) of this section could reasonably be expected to cause substantial competitive harm. The determination whether to disclose the information will be made pursuant to 15 CFR 4.7.

[61 FR 56431, Nov. 1, 1996]
