Atlantic Highly Migratory Species Permit Family of Forms

National Marine Fisheries Service (NMFS) manages Atlantic highly migratory species under the Magnuson-Stevens Fishery Conservation and Management Act and Atlantic Tunas Convention Act. NMFS issues Highly Migratory Species (HMS) International Trade Permits per 50 CFR 300 subpart m to applicants seeking authority to import, export, or re-export HMS such as swordfish, bluefin tuna, and shark fins. NMFS routinely provides public access to permit holder names and addresses since this information is considered non-confidential. Access to this information for several permits covered by this collection and managed by the Southeast Region (SER) of NMFS is available at:

http://sero.nmfs.noaa.gov/operations_management_information_services/constituency_services_branch/freedom_of_information_act/common_foia/index.html.

On each permit application form, NMFS provides assurances that all *confidential* data are protected and managed consistently with NOAA Administrative Order 216-100 (Confidentiality of Fisheries Statistics). To ensure that permit applicants are aware of NMFS' policy regarding release of permit holder name and address, NMFS includes the following statement on each SER permit application: "Name and address information will be released via a NOAA website."

NMFS does not currently provide public access to HMS ITP permit holder information and the statement above has not been included in previous versions of the application. Under this change request, NMFS proposes to add the statement identified above to the HMS ITP permit application. In the near future, NMFS plans make name and address information for HMS ITP permit holders publicly available. There would not be any increase in respondents or reporting burden as a result of this change.

Paperwork Reduction Act Notification: Public reporting burden for this collection of information is estimated to average 5 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining data needed, and completing and reviewing the information. Send comments regarding this burden estimate or suggestions for reducing this burden to: NMFS, Highly Migratory Species Division, 1315 East West Highway, Silver Spring, MD 20910. The Paperwork Reduction Act requires potential respondents for a dealer permit to be notified of certain information regarding their rights and the burden associated with applying for a Federal dealer permit. One of the regulatory steps taken by NMFS to carry out conservation and management objectives is the requirement of a permit for users of the resources. Section 971(d) of the Atlantic Tunas Convention Act authorizes the promulgation of regulations as may be necessary and appropriate to implement the recommendations of the International Commission for the Conservation of Atlantic Tunas (ICCAT). This permit is necessary for the implementation of required ICCAT trade monitoring programs. **Name and address information will be released via a NOAA website.** Pursuant to Section 402(b) of the Magnuson-Stevens Act, and consistent with NOAA Administrative Order 216-100 (Confidentiality of Fisheries Statistics), the Agency does not release confidential information submitted in compliance with provisions of the Act, other than in aggregate form and under circumstances required or authorized by law. Whenever data are requested or released to the general public, the Agency ensures that information on the pecuniary business activity of a dealer is not identified. Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to, a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.
