OMB NO.: 0648-0408 06/07/2000

TERMS OF CLEARANCE:

The agency is instructed to make the following modifications to its information collection:
The agency must send to all respondents a letter of introduction announcing the survey, giving information about the person who will be collecting the information, and providing descriptions of why the data will be collected and how it will be handled once collected. This letter will likely increase response rate. For cases where 100% response rate is not achieved, the agency may not present the responses of those who respond as the responses of the population unless at least 80% respond. Otherwise, the agency must report responses as of those who responded and report the percentage response out of the census.

NOTE: The agency is required to display the OMB control number and inform respondents of its legal significance (see 5 CFR 1320.5(b)).
